

1 September 2017

KOGI IRON LIMITED

PROJECT UPDATE

Kogi Iron Limited (ASX: KFE, “Kogi”, “the Company”) is pleased to advise that Company has received confirmation of a shipping date to ship the Agbaja sample material to Mintek’s South African pyrometallurgical testing facilities.

Project Testwork Shipment

The Company advises that its containers of sample material are ready for delivery to port and, following vessel back logs at the two main Lagos ports, the Company now has confirmation from its shipping agent that the containers are booked for shipment on a vessel due to leave Lagos, Nigeria on or about 15 September 2017. Arrival in South Africa and delivery to Mintek’s facilities is scheduled to occur in early October 2017.

The Directors will continue to keep shareholders informed of the progress.
