General Manager
The Company Announcements Office
Australian Stock Exchange Limited
Australia Square
Sydney NSW 1215

Dear Sir/Madam,

PRODUCTION UPDATE

Safety Medical Products Limited (ASX Code: SFP) is pleased to announce that it will commence production of its SecureTouch Retractable Safety Syringe in October this year at its Salisbury facility in South Australia.

SafetyMed has spent the past few weeks investigating the best options available to bring the product to market at the earliest opportunity.

Commencing production in Australia will enable the Company to be in full control of manufacturing and distribution processes.

Various packaging methods and configurations for the finished product have been explored to ensure competitive pricing and availability.

The clean room area will be extended in August to facilitate the installation of the automated assembly machine as well as new packaging equipment.

In addition, the Company is also pleased to announce that one of its subsidiaries, Bagot Press, has moved into its new premises at Regency Park in South Australia (see photos below) without disruption to its clients or core operations.

The smooth transition is a credit to the extensive planning and hard work by management and staff at Bagot Press.

Yours faithfully,

John Riemelmoser
Managing Director
