Authorised for release by the Chair and the CEO

Disclaimer

This presentation (**Presentation**) has been prepared by Microba Life Sciences Limited (**Microba**).

Summary information - This Presentation contains summary information about Microba and its activities which is current only as at the date of release of this Presentation. Microba may in its absolute discretion, but without being under any obligation to do so, update or supplement this Presentation. The information in this Presentation is of a general nature and does not purport to be complete nor does it contain all the information which a prospective investor may require in evaluating a possible investment in Microba or that would be required in a prospectus or other disclosure document prepared in accordance with the requirements of the *Corporations Act 2001* (Cth) (**Corporations Act**).

Industry and market data – In this Presentation, Microba refers to certain market, industry, and statistical data used in connection with this Presentation may have been obtained from research, surveys or studies conducted by third parties, including industry or general publications. Neither Microba nor its representatives have independently verified any such data and no representation or warranty, express or implied, is made as to its fairness, accuracy, correctness, completeness or adequacy. Some data is also based on the good faith estimates of Microba, which are derived its reviews of internal sources as well as the independent sources described above.

Not an offer - This Presentation is not a prospectus or other disclosure document under the Corporations Act and will not be lodged with the Australian Securities and Investments Commission. This Presentation is for information purposes only and is not an invitation or offer of securities for subscription, purchase or sale in any jurisdiction. The distribution of this Presentation (including electronically) outside Australia may be restricted by law. If you come into possession of this Presentation, you should observe such restrictions and should seek your own advice. Any non-compliance with these restrictions may contravene applicable securities laws.

Not investment or medical advice - The information contained in this Presentation is not investment, financial product advice, medical advice or any medical recommendation or recommendation to acquire Shares. This Presentation has been prepared without taking into account your investment objectives, financial situation, medical or any other particular needs. This Presentation does not and will not form any part of any contract for the acquisition of shares. Each recipient of this Presentation should make its own enquiries and investigations regarding all information in this Presentation. Before making an investment decision, you should consider whether it is a suitable investment for you in light of your own investment objectives, financial situation and particular needs and having regard to the merits or risks involved. Independent financial advice is recommended.

Future performance - This Presentation contains forward looking statements. Forward-looking statements generally relate to current expectations, hopes, beliefs, intentions, strategies or productions about future events or Microba's future financial or operating performance. For example, statements regarding anticipated growth in the industry in which Microba operates and anticipated growth in demand for Microba's products and services, projections of Microba's future financial results and other metrics are forward-looking statements. In some cases, you can identify forward-looking statements by terminology such as "pro forma", "may", "should", "could", "might", "plan", "possible", "project", "strive", "budget", "forecast", "expect", "intend", "will", "estimate", "anticipate", "believe", "predict", "potential" or "continue", or the negatives of these terms or variations of them or similar terminology, but the absence of these words does not mean that a statement is not forward-looking. Such forward-looking statements are subject to risks, uncertainties, and other factors which could cause actual results to differ materially from those expressed or implied by such forward-looking statements. These forward looking statements are provided as a general guide only and should not be relied upon as an indication or guarantee of future performance and may involve known and unknown risks, uncertainties and other factors, many of which are outside the control of Microba. You are cautioned not to place undue reliance on any forward looking statement. Forward looking statements in this Presentation are based on assumptions and contingencies which are subject to change without notice. Actual results, performance or achievements may vary materially from any forward looking statements and the assumptions on which statements are based. The forward looking statements in this Presentation are based on information available to Microba as at the date of this Presentation and nothing in this Presentation should be regarded as a representation by any person that the forward-looking statements set forth herein will be achieved or that any of the contemplated results of such forward-looking statements will be achieved. Except as required by law or regulation, Microba undertakes no obligation to provide any additional or updated information whether as a result of new information, future events or results or otherwise.

Financial data – All dollar values in Australian dollars (A\$ or \$) unless otherwise stated. Recipients should note that this Presentation contains historical and pro-forma financial information. Any financial information provided in this Presentation is for illustrative purposes only and is not represented as being indicative of Microba's views on its future financial condition and/or performance.

Trademarks – This Presentation may contain trademarks, trade names and copyrights of other companies, which are the property of their respective owners. Solely for convenience, some of the trademarks, trade names and copyrights referred to in this Presentation may be listed without the © or ® symbols, but Microba asserts, to the fullest extent under applicable law, the rights of the applicable owners, if any, to these trademarks, trade names and copyright.

Disclaimer - Except for any statutory liability which cannot be excluded, Microba, its related bodies corporate and their respective officers, employees and advisers expressly disclaim all liability (including negligence) for any direct or indirect loss or damage which may be suffered by any person in relation to, and take no responsibility for, any information in this Presentation or any error or omission therefrom, and make no representation or warranty, express or implied, as to the currency, accuracy, reliability or completeness of this Presentation.

Unequivocal evidence demonstrates that the **human gut microbiome** is a **critical component of disease**

>21,000 Research publications demonstrate a clear link between chronic diseases and the gut microbiome¹

¹ PubMed search terms "gut microbiome/microbiota" or "stool microbiome/microbiota" or "faecal microbiome/microbiota" and "disease"

Changing the microbiome can change disease outcomes

>150

Global clinical studies demonstrate that **microbiome modulation** can influence disease outcomes and clinical symptoms¹

 - Clinician education
 - KOL engagement
 - Utility studies and publications

MetaPanel sales building across Australia

- Doctor referrals and sales continuing to build monthly across the country, focused around the major east coast states New South Wales, Victoria and Queensland.
- Assoc. Prof. Michael Wehrhahn from Douglass Hanly Moir (Sonic Healthcare NSW) presented at Gastroenterology Week 2024 . The leading event of the year for Gastroenterologists.
- **Growth activities:**
 - Targeted sales and marketing activities focused on gastroenterology specialists and general practice
 - Clinician education
 - KOL engagement
 - Utility studies and publications

Transitioning to growth in the United Kingdom

“From our leading position in market, we expect Microba’s world leading MetaXplore™ will become the most favoured microbiome test for healthcare professionals in the UK”

Quote from Invivo Head of Clinical Innovation

The fundamental investment thesis of the Invivo Clinical acquisition was the ability to accelerate Microba’s entry of it’s world leading MetaXplore™ test into the United Kingdom through an established team and customer base.

The UK market demand and anticipation for access to MetaXplore has been compelling since the acquisition was announced.

The team have now commenced MetaXplore access in the UK in October with first orders already received, setting up for full market access in 2025.

Supporting the UK growth strategy, the Invivo sales force was doubled at the end of the quarter.

This focus and investment are expected to translate into growth in H2 FY25.

United Kingdom

invivo[®]

Q1 Financial Highlights

Record Q1 revenue, strong sales momentum in Australia, primed for UK growth

Record Q1 revenue, with MetaXplore adoption and revenue continuing to accelerate in Australia

- offsetting the historical impact of seasonal softness due to holiday periods in both northern and southern hemispheres impacting Q1 vs Q4

MetaXplore sales commenced in the UK in October, with first orders already received

Accelerating growth through strategic appointments
