MB GOLD

MB Gold appoints experienced Exploration Manager Charles Gillman

MB Gold Limited (**ASX | MBG**), "**MB Gold**" or the "**Company**") is pleased to announce that Mr Charles Gillman has been appointed as the Company's Exploration Manager.

Mr Gillman is a highly experienced geologist with more than 20 years' experience in gold, lithium and base metals exploration, ranging from target generation and greenfields exploration through to resource development, across Australian and international projects.

He has held senior positions for a number of Western Australia-based junior exploration companies operating in the Eastern goldfields and Pilbara goldfields and has recent international experience in Canadian gold exploration.

This appointment comes at a pivotal time for MB Gold, following its successful ASX listing, as the Company prepares to embark on an aggressive exploration program at its highly prospective Marble Bar Gold Project.

MB Gold Chief Executive Officer, Logan Barber, commented: "MB Gold is pleased to confirm the appointment of Charles Gillman, effective immediately, and look forward to working with him as he prepares and leads our activities on site at Marble Bar."

"His recent involvement with Global Lithium's Exploration Incentive Scheme drilling programs in Marble Bar, which in part form the basis for MB Gold's upcoming programs, makes him uniquely positioned to drive our immediate exploration success."

A Member of the Australian Institute of Geoscientists, Mr Gillman holds a B.Sc (Hons) in Geology from the University of Western Australia.

About MB Gold Limited:

MB Gold Limited is focused on gold exploration in the highly prospective Marble Bar region of Western Australia. The Marble Bar Gold Project (MBGP) is strategically located northeast of Marble Bar, within the Archean Pilbara Craton. The package spans the northwest margin of the Mt Edgar Batholith, a geologically significant zone with high potential for gold mineralization. The project boasts a 12km strike length of gold-in-soil geochemical anomalies, which are offset by late-stage faulting. Existing drill intercepts have already returned positive gold results.

MB Gold benefits from excellent infrastructure and accessibility adjacent to and into the project area. The site is just 150km from Port Hedland via the sealed Marble Bar Road, 40km from the Marble Bar townsite, and 60km from AIM Mining Corporation’s Warrawoona Operations.

Competent Persons’ Statements and JORC Compliance Statements

The information in this announcement that relates to Exploration Results is based on, and fairly represents, information and supporting documentation prepared by Mr Logan Barber, a Director of MB Gold Limited. Mr Barber is a member of the Australasian Institute of Geoscientists. He has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the JORC Code. Mr Barber consents to the inclusion in this announcement of the matters based on his information in the form and context in which it appears. Information on historical exploration results presented in this announcement, together with JORC table 1 information, is contained in the Independent Technical Assessment Report within the Company's prospectus dated 26 November 2025.

Disclaimer

This announcement may contain forward-looking statements. Forward-looking statements are often, but not always, identified by the use of words such as “seek”, “anticipate”, “believe”, “plan”, “expect”, “intend”, “estimate”, “target” and “project” and statements that an event or result “may”, “will”, “should”, “could” or “might” occur or be achieved and other similar expressions. Forward-looking statements, including statements regarding the Company’s future financial or operating performance and exploration targets, are based on assumptions and contingencies that are subject to change and involve known and unknown risks, uncertainties, and other factors, many of which are beyond the control of the Company and its management. Past performance is not a guide to future performance. The Company does not undertake to update any forward-looking statements should these circumstances change.
