

FOR IMMEDIATE RELEASE

Change of Company Secretary

Sydney, Australia – 25 May 2012 – The Board of NuSep (ASX: NSP) wishes to advise that Tom Rowe has stepped down as company secretary and Swapna Keskar has taken over the role of company secretary, effective immediately. Ms. Keskar is an experienced company secretary and a member of the Chartered Secretaries Australia.

Mr. Rowe and Ms. Keskar both work for Company Matters Pty Limited and this is a continuation of the existing engagement between NuSep and Company Matters Pty Limited and ensures a seamless continuation of this relationship.

In accordance with ASX Listing Rule 12.6, Ms. Keskar is the person responsible for communications with ASX in relation to Listing Rule matters.

About NuSep

NuSep (ASX: NSP) is a publicly listed life sciences company that sells products into the global BioSeparations market. NuSep recently acquired BioInquire which developed the ProteoIQ software enabling NuSep to offer a total Proteomics solution from ***Fraction to Function***. The company has offices in both Sydney Australia and Atlanta, USA.

With a 30 year heritage in biological separations, NuSep has forged a world class reputation for its innovative yet simple biological separation techniques including the world's first IVF sperm separation device. In short NuSep has redefined the BioSeparations market through innovation and simplification.

NuSep's world renowned research team has developed an extensive portfolio of patented products. In all, NuSep currently manufactures, distributes and sells 55 products to customers in the USA, Europe, Asia and Australia.

NuSep Products:

-  **Gels** – NuSep manufactures and sells precast gels including the innovative nUView Gels, which can be visualised 2 minutes after use.
-  **Separation Instruments** – NuSep has developed two unique biological separation instruments. The ProteomeSep was released in 2009 and can separate biological samples into 8 fractions for use in the proteomic market. The SpermSep separates sperm for fertility treatments such as IVF and is expected to undergo clinical trials later this year.

About PrIME Biologics Pte Ltd

PrIME Biologics is a Singapore based biotech company that has developed a disposable procedure for the processing of plasma proteins. PrIME Biologics is currently a wholly owned subsidiary of NuSep Holdings Limited (ASX: NSP). PrIME Biologics process is based on the **P**reparative **I**solation by **M**embrane **E**lectrophoresis (PrIME) technology developed by NuSep. PrIME provides disposable modular processing that is 'electronically' driven membrane fractionation.

The PrIME process increases product yields to over 90% relative to the existing process 50% while increasing product safety. Further, PrIME Biologics process can produce multiple plasma products in hours compared to days, which is required by the current manufacturers.

The initial application for the PrIME process will be the *Currently Unprocessable Plasma* which represents approximately 50% of all the plasma collected in many countries.
