4. CHAIRMAN'S LETTER

Dear Shareholder,

On 27 February 2019, the Company announced its intention to conduct a capital raising comprising a fully underwritten non-renounceable rights issue offer of 1 new Share for every 2 Shares held by Eligible Shareholders on the Record Date at an issue price of \$0.02 per Share (**Offer**).

A large proportion of funds raised under the Offer will be used to move towards the commercialisation of the Felix device, a unique device for separating the most viable sperm in a semen sample for use in human IVF.

We have undertaken extensive testing of the performance of the re-usable prototype Felix device at Memphasys, the University of Newcastle and at Monash IVF. AS a result of this Memphasys is now well into the engineering development of the final device which will use single-use disposable cartridges.

The hand-assembled CNC devices and cartridges are currently being manufactured and bids are being received from plastic moulding subcontractors for manufacturing the final cartridge product and the console in which the cartridges are placed to process the semen samples.

In 2018 Memphasys personnel attended human fertility conferences in Europe ("ESRE") and the USA ("ASRM"). Memphasys' attendance at these conferences generated much interest from leading key opinion leaders (**KOLs**). Consequently, Memphasys was able to recruit selected KOLs to participate in *in-vitro* testing of the Felix device, anticipated for the second half of 2019. Memphasys has announced that seven KOLs, located in key international IVF markets, have agreed to join the testing program. The Company is also currently negotiating potential MOU's with several new KOLs and will continue to update the market in accordance with its continuous disclosure obligations.

KOL clinical assessment studies will assess Felix's performance for use in IVF clinics in preparing sperm from diverse semen types when compared with the current lab-based methods, ("density gradient centrifuge" and "swim up"), which are labour intensive, costly and DNA-damaging.

The outcomes of the Felix clinical assessments will provide further evidence as to the technical capabilities of the Felix device, provide significant user examples of its range of use and further refine the commercialisation strategy of the Company.

From a regulatory perspective, Memphasys has appointed BSI Group as its notified body for obtaining CE Mark approval and is working towards obtaining ISO13485 accreditation followed by receiving CE Mark approval. Memphasys is considering bringing forward the application for TGA approval in parallel with CE Mark. Memphasys will subsequently seek FDA regulatory approval to sell in the United States and to also add other geographic territories over time.

Whilst focus is on the commercial development of Felix for human IVF, the Company will continue to work on scaling up the technology to apply to horses and other animals.

As you can see, we are moving rapidly into the full commercialisation phase for the Felix Device and as such and on behalf of Memphasys Limited, I am pleased to invite you to participate in the Offer.

You should read this Prospectus carefully and in its entirety before deciding whether or not to participate in the Offer. In particular, you should consider the key risk factors included in Section 8 of this Prospectus.

Shareholders who have any queries about the Offer should contact the Company at any time from 8:30am to 5:00pm (AEDST) during the Offer period.

A personalised Entitlement and Acceptance Form which details your Entitlement is to be completed in accordance with the instructions provided.

Shareholders who do not take up all or any part of their Entitlements will not receive any payment or value in respect of those Entitlements and their equity interest in the Company will be diluted.

On behalf of the Board, I invite you to consider this investment opportunity and thank you for your ongoing support of our Company.

Yours faithfully,

A handwritten signature in black ink, appearing to read 'Alison Coutts', written in a cursive style.

Alison Coutts
Chairman

5. DETAILS OF THE OFFER

5.1 The Offer

The Offer is being made as a non-renounceable entitlement issue of one (1) Share for every two (2) Shares held by Shareholders registered at the Record Date at an issue price of \$0.02 per Share. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company as at the date of this Prospectus, a total of approximately 182,044,573 Shares will be issued pursuant to this Offer to raise approximately \$3,640,000.

All of the Shares offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to Section 7 for further information regarding the rights and liabilities attaching to the Shares.

As at the date of this Prospectus, the Company has 21,831,468 Options on issue, all of which must be exercised prior to the Record Date in order for the holder to participate in the Offer. Please refer to Section 6.4 for information on the Options on issue.

The purpose of the Offer and the intended use of funds raised are set out in Section 6 of this Prospectus.

The Offer is non-renounceable. Accordingly, a Shareholder may not sell or transfer all or part of their Entitlement.

5.2 Minimum subscription

On the basis that the Offer is fully underwritten, the minimum subscription is also the full subscription under the Offer.

5.3 Acceptance

Your acceptance of the Offer must be made on the Entitlement and Acceptance Form accompanying this Prospectus. Your acceptance must not exceed your Entitlement as shown on that form, unless you intend to apply for additional Shares under the Shortfall Offer (refer to Sections 5.3(b) and 5.10 for further information), in which case the additional Shares applied for will be deemed to be an application for Shares under the Shortfall Offer.

You may participate in the Offer as follows:

- (a) if you wish to accept your **full** Entitlement:
 - (i) complete the Entitlement and Acceptance Form (form not required if payment made by BPAY®); and
 - (ii) make your payment by BPAY® or attach your cheque, drawn on an Australian bank or bank draft made payable in Australian currency, for the amount indicated on the Entitlement and Acceptance Form; and

- (b) if you wish to apply for **additional** shares after accepting your full Entitlement in accordance with Section 5.3(a), then:
 - (i) fill in the number of additional Shares you wish to apply for in the space provided on the Entitlement and Acceptance Form (form not required if payment made by BPAY®); and
 - (ii) make your payment by BPAY® or attach your cheque, drawn on an Australian bank or bank draft made payable in Australian currency, for the appropriate application monies; or
- (c) if you only wish to accept **part** of your Entitlement:
 - (i) fill in the number of Shares you wish to accept in the space provided on the Entitlement and Acceptance Form (form not required if payment made by BPAY®); and
 - (ii) make your payment by BPAY® or attach your cheque, drawn on an Australian bank or bank draft made payable in Australian currency, for the appropriate application monies; or
- (d) if you do not wish to accept all or part of your Entitlement, you are not obliged to do anything.

5.4 Payment by cheque/bank draft

All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to "Memphasys Limited" and crossed "Not Negotiable".

Your completed Entitlement and Acceptance Form and cheque must reach the Company's share registry no later than 5:00 pm (AEDST) on the Closing Date.

5.5 Payment by BPAY®

For payment by BPAY®, please follow the instructions on the Entitlement and Acceptance Form and quote your personalised reference number that has been provided on the personalised Application Form. You can only make a payment via BPAY® if you are the holder of an account with an Australian financial institution that supports BPAY® transactions. Please note that should you choose to pay by BPAY®:

- (a) you do not need to submit the Entitlement and Acceptance Form but are taken to have made the declarations on that Entitlement and Acceptance Form; and
- (b) if you do not pay for your Entitlement in full, you are deemed to have taken up your Entitlement in respect of such whole number of Shares which is covered in full by your application monies.

It is your responsibility to ensure that your BPAY® payment is received by the share registry by no later than 5:00 pm (AEDST) on the Closing Date. You should be aware that your financial institution may implement earlier cut-off times with regards to electronic payment and you should therefore take this into consideration when making payment. Any application monies received for more than your final allocation of Shares (only where the amount is \$1.00 or greater) will be refunded. No interest will be paid on any application monies received or refunded.

5.6 Implications of an acceptance

Returning a completed Entitlement and Entitlement and Acceptance Form with a cheque or paying any application monies by BPAY® will be taken to constitute a representation by you that:

- (a) you have received a copy of this Prospectus and the accompanying Entitlement and Acceptance Form, and read them both in their entirety;
- (b) you acknowledge that once the Entitlement and Acceptance Form is returned, or a BPAY® payment instruction is given in relation to any application monies, the application may not be varied or withdrawn except as required by law.

5.7 Underwriting and sub-underwriting

The Offer is fully underwritten by the Underwriter. Refer to Section 9.1 of this Prospectus for details of the terms of the underwriting.

Andrew Goodall and Alison Coutts, each a Director of the Company, or their respective nominees, have entered into agreements with the Underwriter to sub-underwrite the Offer. Andrew Goodall will sub-underwrite the Offer up to \$892,301 (44,615,047 Shares) and Alison Coutts will sub-underwrite the Offer up to \$400,000 (20,000,000 Shares).

Peters Investments Pty Ltd (**Peters Investments**) (a substantial shareholder of the Company, refer to Section 6.5) has entered into an agreement with the Underwriter to sub-underwrite the Offer up to \$1,000,000 (50,000,000 Shares).

Pursuant to the terms of the sub-underwriting, the Underwriter shall pay each sub-underwriter a fee of 3% (excluding GST) of the sub-underwriter's respective sub-underwritten value.

Peters Investments has the first priority and obligation in relation to sub-underwriting any Shortfall and otherwise, the allocation of the Shortfall will be at the discretion of the Underwriter.

5.8 Effect on control of the Company

(a) Sub-underwriting by Peters Investments

Peters Investments currently holds 66,666,667 Shares. Assuming that Peters Investments is required to sub-underwrite the maximum number of Shares (being 50,000,000 Shares), Peters Investments may accordingly acquire a maximum voting power in the Company of approximately 21.36%, assuming all Shares are issued under the Offer. Peters Investments' obligation to subscribe for Shares will reduce to the extent that Shareholders take up their Entitlements under the Offer.

Notwithstanding the potential control effect of Peters Investments sub-underwriting the Offer, the Company understands that Peters Investments has no present intention of making any significant changes to the business or management of the Company.

(b) **Sub-underwriting by Andrew Goodall**

Mr Goodall (together with his associates) currently holds 89,230,093 Shares. Assuming that Mr Goodall is required to sub-underwrite the maximum number of Shares (being 44,615,047 Shares), Mr Goodall may accordingly acquire a maximum voting power in the Company of approximately 24.51%, assuming all Shares are issued under the Offer. Mr Goodall's obligation to subscribe for Shares will reduce to the extent that Shareholders take up their Entitlements under the Offer.

(c) **Sub-underwriting by Alison Coutts**

Ms Coutts (together with her associates) currently holds 58,992,218 Shares. Assuming that Ms Coutts is required to sub-underwrite the maximum number of Shares (being 20,000,000 Shares), Ms Coutts may accordingly acquire a maximum voting power in the Company of approximately 16.20%, assuming all Shares are issued under the Offer (including the issue of an additional 9,496,109 Shares to Ms Coutts under the Offer by way of subscription for Entitlement). Ms Coutts' obligation to subscribe for sub-underwritten Shares will reduce to the extent that Shareholders take up their Entitlements under the Offer.

The extent to which Shares are issued pursuant to the underwriting will increase the Underwriter's voting power in the Company. The Underwriter's present relevant interest and changes under several scenarios are set out in the table below:

Event	Shares held by Underwriter	Voting power of Underwriter
Date of Prospectus	Nil	Nil
Completion of Entitlement Issue:		
Fully subscribed	Nil	Nil
75% subscribed	45,511,143	8.33%
50% subscribed	91,022,286	16.67%
25% subscribed	136,533,429	25.00%
0% subscribed	182,044,573	33.33%

The number of Shares held by the Underwriter and its voting power in the table above show the potential effect of the underwriting of the Offer. However, it is unlikely that no Shareholders will take up entitlements under the Offer. The underwriting obligation and therefore voting power of the Underwriter will reduce by a corresponding amount for the amount of entitlements under the Offer taken up by Shareholders. Furthermore, the voting power of the Underwriter will also be reduced to the extent that sub-underwriters take up any Shortfall.

Any increase in voting power of the Underwriter or any sub-underwriter above 20% will be permitted pursuant to the "underwriting exception" in Item 13 of Section 611 of the Corporations Act.

5.9 Potential dilution to Shareholders

Shareholders should note that if they do not participate in the Offer, their holdings are likely to be diluted by approximately 33% (as compared to their holdings and number of Shares on issue as at the date of the Prospectus). Examples of how the dilution may impact Shareholders is set out in the table below with varying holdings of number of shares is set out for illustrative purposes:

Holder	Holding as at Record date	% at Record Date	Entitlements under the Offer	Holdings if Offer not taken Up	% post Offer if not taken up
Shareholder 1	50,000,000	13.73%	25,000,000	50,000,000	9.16%
Shareholder 2	25,000,000	6.87%	12,500,000	25,000,000	4.58%
Shareholder 3	10,000,000	2.75%	5,000,000	10,000,000	1.83%
Shareholder 4	5,000,000	1.37%	2,500,000	5,000,000	0.92%
Shareholder 5	1,000,000	0.27%	500,000	1,000,000	0.18%

Notes:

1. The dilutionary effect shown in the table is the maximum percentage on the assumption that those Entitlements not accepted are placed under the Shortfall Offer. In the event all Entitlements are not accepted and some or all of the resulting Shortfall is not subsequently placed, the dilution effect for each Shareholder not accepting their Entitlement would be a lesser percentage. Percentages post-Offer have been calculated on the basis of there being 546,133,718 Shares on issue on completion of the Offer. Refer to Section 6.4 for further details of the Company's capital structure.

5.10 Shortfall Offer

Any Entitlement not taken up pursuant to the Offer will form the Shortfall Offer. The Shortfall Offer is a separate offer pursuant to this Prospectus and will remain open for up to three months following the Closing Date.

Eligible Shareholders may apply for Shares under the Shortfall Offer by following the instructions on their Entitlement and Acceptance Form, subject to such applications being received by the Closing Date. The issue price for each Share to be issued under the Shortfall Offer shall be \$0.02 being the price at which Shares have been offered under the Offer.

Shortfall Shares will be allocated in priority to Eligible Shareholders who apply for Shortfall Shares under the Shortfall Offer. All decisions regarding the allocation of Shortfall Shares will be made by the Underwriter (in consultation with the Company) and will be final and binding on all Eligible Shareholders.

5.11 ASX listing

Application for Official Quotation of the Shares offered pursuant to this Prospectus will be made in accordance with the timetable set out at the commencement of this Prospectus. If ASX does not grant Official Quotation of the Shares offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Shares and will repay all application monies for the Shares within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Shares now offered for subscription.

5.12 Issue

Shares issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Shares issued pursuant to the Shortfall Offer will be issued in accordance with the Underwriting Agreement. Where the number of Shares issued is less than the number applied for, or where no issue is made, surplus application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Shares or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Shares issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus and for Shortfall Shares issued under the Shortfall Offer as soon as practicable after their issue.

5.13 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Shares these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Shares will not be issued to Shareholders with a registered address which is outside Australia and New Zealand.

New Zealand

The Shares are not being offered to the public within New Zealand other than to existing shareholders of the Company with registered addresses in New Zealand to whom the offer of these securities is being made in reliance on the transitional provisions of the Financial Markets Conduct Act 2013 (New Zealand) and the Financial Markets Conduct (Incidental Offers) Exemption Notice 2016 (New Zealand).

This document is not a product disclosure statement under New Zealand law and is not required to, and may not, contain all the information that a product disclosure statement under New Zealand law is required to contain.

Nominees and custodians

Nominees and custodians may not submit an Entitlement and Acceptance Form on behalf of any Shareholder resident outside Australia and New Zealand without the prior consent of the Company, taking into account relevant securities law restrictions. Return of a duly completed Entitlement and Acceptance Form will be

taken by the Company to constitute a representation that there has been no breach of those regulations.

This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

Shareholders may requisition meetings in accordance with section 249D of the Corporations Act and the Constitution of the Company.

(b) **Voting rights**

Subject to any rights or restrictions for the time being attached to any class or classes of shares, at general meetings of shareholders or classes of shareholders:

- (i) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;

(c) **Dividend rights**

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be

applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

(d) **Winding-up**

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any shares or other securities in respect of which there is any liability.

(f) **Transfer of shares**

Generally, shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the ASX Listing Rules.

(g) **Future increase in capital**

The issue of any new Shares is under the control of the Directors of the Company. 8. RISK FACTORS

8.1 Introduction

An investment in the Company is not risk free and prospective investors should consider the risk factors described below, together with information contained elsewhere in this Prospectus, before deciding whether to apply for Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

8.2 Key investment risks

Potential investors should be aware that subscribing for Shares in the Company involves a number of risks. Prospective investors should read this Prospectus in its entirety before deciding whether to apply for Shares under this Prospectus.

These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the Shares in the future. Accordingly, an investment in the Company should be considered highly speculative. Investors should consider consulting their professional advisers before deciding whether to apply for Shares pursuant to this Prospectus.

(a) Going concern risk

The Company's half year financial report for the six months ended 31 December 2018 (**Half Year Report**) includes a note on the financial condition of the Company and the possible existence of a material uncertainty about the Company's ability to continue as a going concern.

Notwithstanding the 'going concern' paragraph included in the Half Year Report, the Directors believe that upon the successful completion of the Offer, the Company will have sufficient funds to adequately meet the Company's current expenditure commitments and short term working capital requirements.

(b) Additional requirements for capital

The funds raised under the Offer are considered sufficient to meet the immediate objectives of the Company. It is likely that additional funding will be required in the future to effectively implement the Company's business and operations plans, to take advantage of opportunities for acquisitions or other business opportunities, and to meet any unanticipated liabilities or expenses which the Company may incur.

The Company may seek to raise further funds through equity or debt financing or other means. Failure to obtain sufficient financing for the Company's activities and future projects may result in delay and indefinite postponement of its research and development programmes. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(c) **Potential for significant dilution**

Upon implementation of the Offer, the number of Shares on issue in the Company will increase from 364,089,145 currently on issue to 546,133,718. This means that, post completion of the Offer, each Share will represent a significantly lower proportion of the ownership of the Company.

(d) **Commercial success of products being developed**

The Company is in the process of developing and commercialising its products. Inherent uncertainties exist in any commercialisation program for new technologies and products. The Company's products are at varying stages of development, and none of the Company's products are currently at a commercialised stage. There is no assurance that:

- (i) the development and commercialisation of new technologies and products will be successful;
- (ii) all necessary regulatory registrations or approvals for the sale and distribution of the Company's products will be obtained (and on terms acceptable to the Company); or
- (iii) the Company's products will achieve market acceptance.

(e) **Reliance on commercial success of one product initially**

The Company's business is presently dependent on the commercial success of the Felix device, its lead program.

(f) **Increase in competition**

The Company's earnings and the market acceptance of the Company's products may be adversely affected by competitor activity, new competitors entering the market, or if competitors release more advanced products that result in reduced market share for the Company's products.

Increased competition and new products may have the effect of rendering the Company's previous developments obsolete, decreasing the financial value of products or intellectual property and reducing pricing and profit margins.

(g) **Reliance on business partners, suppliers and customers**

The Company is reliant on key existing business partners and future proposed suppliers and customers. The Company is reliant on arrangements with third parties including the University of Newcastle and the University of Melbourne and in relation to the further development of intellectual property and the development of some future products.

(h) **Reliance on key personnel**

Strong competition exists in the medical device industry for highly skilled workers due to the limited number of people with the appropriate skill set. The Company currently employs, or engages as consultants, a number of key management personnel and intends to employ more highly skilled people.

The Company has structured incentive programs for its key personnel and it has also established contractual mechanisms through employment and consultancy contracts to limit the ability of key personnel to join a competitor or compete directly with the Company. Despite these measures, there is no guarantee that the Company will be able to attract and retain suitable qualified personnel, and a failure to do so could materially and adversely affect the business, operating results and financial prospects.

(i) **Ability to rely on and protect the intellectual property**

The Company's success depends at least in part on its use of its intellectual property, as well as third party intellectual property which is licensed or otherwise granted to the Company.

The intellectual property rights on which the Company is reliant may be subject to claims, including third party infringement claims, which may adversely affect the commercialisation of the Company's products or result in the Company incurring expenses or damages. Defending against allegations and litigation could be expensive, take significant time and divert management's attention.

Similarly, if the Company is not able to adequately protect its know-how, expertise, trade secrets and intellectual property rights, including where the Company cannot obtain patent protection in a timely manner, or if existing patents are inadequate to prevent competitors developing competing products, then the Company's business and financial performance may be adversely affected.

(j) **Diminution in reputation or brand**

The Company is reliant on its reputation and the reputation of its products and brands. Any factors or events that diminish the reputation of the Company, its products, its brands, trademarks or intellectual property may adversely affect the Company.

(k) **Prospective information**

There can be no guarantee that the factors and assumptions on which the Company has assessed the feasibility of its products, potential levels of market acceptance and sales of its products, development and commercialisation strategies of its products, or relevant potential costs and expenses, and any other factors or assumptions upon which the Company bases its various technical or commercial decisions, will ultimately prove to be valid or accurate. The various factors and assumptions may be, or may depend on other factors which are, outside the control of the Company.

(l) **Unforeseen expenditure risk**

There is a risk that there may be an unforeseen increase in costs for items set out in the use of funds section in this Prospectus. Any increase in the actual costs may impact the Company's ability to fully undertake the work that it proposes to undertake as set out in this Prospectus.

(m) **Liquidity and realisation**

There can be no guarantee that an active market in the Shares will develop or that the price of the Shares will increase. There may be a relatively limited number of buyers, or a relatively large number of sellers, on ASX at any given time. This may increase the volatility of the market price of the Shares. It may also affect the prevailing market price at which Shareholders are able to sell their Shares. This may result in Shareholders receiving a market price for their Shares that is less than the price paid for their Shares.

(n) **Litigation**

The Company may be the subject of complaints or litigation by customers, suppliers, employees or officers, Shareholders, government agencies or other third parties. Such matters may have an adverse effect on the Company's reputation, divert its financial and management resources from more beneficial uses, or have a material adverse effect on the Company's future financial performance or position. Currently, the Company is free of any litigation claims, refer to Section 10.1 for further details.

(o) **Changes in political and regulatory environments**

The Company is subject to various federal and state-based laws and regulations in Australia as well as other jurisdictions in which the Company operates.

The introduction of new laws and regulations (including in relation to medical devices) may result in increased expenses for the Company, as it establishes new compliance procedures, retrains its employees and reviews or redevelops products.

New regulatory environments create risk that the regulations will have unintended consequences, or that interpretations may change over time, which could adversely affect the Company's operations and ability to manufacture, sell or distribute some products.

8.3 General Risks

(a) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;
- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and biotechnology stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(b) **Change in government policy and legislation**

Any material adverse changes in relevant government policies or legislation of Australia may affect the viability and profitability of the Company, and consequent returns to investors. The activities of the Company are subject to various federal, state and local laws governing prospecting, development, production, taxes, labour standards and occupational health and safety, and other matters.

(c) **Insurance**

The Company may, where economically practicable and available, endeavour to mitigate some project and business risks by procuring relevant insurance cover. However, such insurance cover may not always be available or economically justifiable and the policy provisions and exclusions may render a particular claim by the Company outside the scope of the insurance cover.

While the Company will undertake all reasonable due diligence in assessing the creditworthiness of its insurance providers there will remain the risk that an insurer defaults in the legitimate claim by the Company under an insurance policy.

(d) **Other**

Other risk factors include those normally found in conducting business, including litigation resulting from the breach of agreements or in relation to employees (through personal injuries, industrial matters or otherwise) or any other cause, strikes, lockouts, loss of service of key management or operational personnel, non-insurable risks, delay in resumption of activities after reinstatement following the occurrence of an insurable risk and other matters that may interfere with the business or trade of the Company.

8.4 Investment Speculative

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the securities offered under this Prospectus. Therefore, the securities to be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those securities.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for securities pursuant to this Prospectus.

10. ADDITIONAL INFORMATION

10.1 Litigation

As at the date of this Prospectus, the Company is not involved in any legal proceedings and the Directors are not aware of any legal proceedings pending or threatened against the Company.

10.2 Continuous disclosure obligations

The Company is a “disclosing entity” (as defined in section 111AC of the Corporations Act) for the purposes of section 713 of the Corporations Act and, as such, is subject to regular reporting and disclosure obligations. Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company's securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

This Prospectus is intended to be read in conjunction with the publicly available information in relation to the Company which has been notified to ASX and does not include all of the information that would be included in a prospectus for an initial public offering of securities in an entity that is not already listed on a stock exchange. Investors should therefore have regard to the other publicly available information in relation to the Company before making a decision whether or not to invest.

Having taken such precautions and having made such enquires as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the three months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

The Company, as a disclosing entity under the Corporations Act states that:

- (a) it is subject to regular reporting and disclosure obligations;
- (b) copies of documents lodged with the ASIC in relation to the Company (not being documents referred to in section 1274(2)(a) of the Corporations Act) may be obtained from, or inspected at, the offices of the ASIC; and
