About Memphasys

Memphasys Limited (ASX: MEM) is focused on the commercialisation of its patented Felix™ System, a novel bioseparation technology for assisted reproduction. Felix™ combines electrophoresis with proprietary size-exclusion membranes to rapidly isolate the most viable sperm cells for use in human fertility treatments.

The Company's strategy is centred on securing contracted sales, driving adoption through key clinical and distribution partnerships, and scaling production capacity. With regulatory and commercial pathways advancing, Memphasys is positioned to deliver on its vision of establishing Felix™ as a new global standard in sperm selection.
