- Defaults remain low 0.1%[1]
- 26% gross margin, above through cycle target of 18-22% reflecting significant skew to MPC land settlements, expect margins around the low end of the target range in FY24, due to elevated Apartment and Built Form settlements
- Cost pressures remain driven by labour shortages, expected to moderate over CY24
- Pre-sales balance increased to ~$1.8bn[2], skewed towards upgraders/rightsizer buyers and apartments

Positioned to capture demand in acutely under supplied market

MARKET FUNDAMENTALS REMAIN POSITIVE

Supply	Demand	Vacancy	Prices	Interest Rates
FY24-27 apartment completions ~50% below FY18 levels	>2% population growth ~1 million new residents expected next 3 years	<2% vacancy, Rental growth >10%	Established dwelling prices +5.1% last 6 months[1]	Rising interest rates affecting sentiment and affordability, particularly for FHBs

SHOVEL READY DEVELOPMENTS PIPELINE

> Acute apartment under-supply continues with record low commencements

> Deep development pipeline of ~23,000 lots, held on capital efficient structures

> Attractive profile of Apartment completions in NSW and QLD (NINE Willoughby, The Langlee, Green Square, Ascot Green and Waterfront Quay & Isle) and potential major launches in FY24/25 in VIC and NSW (including Prince & Parade, The Albertine, The Fabric, Harbourside and Coonara)

RELATIVE AFFORDABILITY OF APARTMENTS SUPPORTING DEMAND

> Relative affordability of apartments (vs established detached housing) remains attractive with price differential ~45% higher than historical levels[2]

> Continued demand persists for premium, well-located, larger and higher spec apartments from upgrader and rightsizer buyers (~71% of pre-sales), less sensitive to interest rate increases

> Quality of amenity, reputation and track record of delivery is increasingly important to customers

> Diverse offering across lot sizing and building type to support affordability
