FY2016

Overview

(All figures are expressed in Australian dollars unless stated otherwise)

- **Underlying \$19.4 million gross profit¹** comprising an underlying **\$13.4 million** gross profit from continuing operations after administration and finance costs, and a profit of **\$6.0 million** from the discontinued Talling Peak operation.
- **Reported statutory net profit after tax of \$86.3 million** (FY2015: \$911.4 million loss), including settlement of the property damage component of the Koolan Island insurance claim, and after non-cash net impairment charges of \$15.4 million.
- **Full year sales revenue of \$240 million** (FY2015: \$325 million) on iron ore sales of **5.0 million** wet metric tonnes² (Mwmt) (FY2015: 5.8 Mwmt).
- **Cash, term deposits and liquid investments of \$400 million** at 30 June 2016 (30-June-2015: \$334 million), including \$51 million in insurance settlement proceeds received by year end, with the balance received in July.
- **Total Cost of Goods Sold (COGS) of \$44/wmt** Free on Board (FOB) (FY2015: \$62/wmt).
- **All-in cash cost³ of \$46/wmt** FOB for the year, in line with guidance (FY2015: \$62/wmt).
- **Full year cashflow** from operations of **\$5.7 million** (FY2015: negative \$91.1 million).
- **\$86 million** cash settlement agreed for the property damage component of the Koolan Island seawall insurance claim, independent of the business interruption component which is progressing.
- FY2017 sales guidance of **2.8 to 3.1 Mwmt** at an all-in cash cost³ of **\$48-52/wmt FOB**.
- Conditional EPA approval recommendation received for the Iron Hill Project, with final approvals targeted by end 2016 to allow production to start in early 2017.

1. The underlying basis is an unaudited non-IFRS measure that in the opinion of the Directors provides useful information to assess the Company's financial performance.

2. Inclusive of sales from the discontinued Talling Peak operation.

3. All-in cash costs are unaudited and reported FOB including all operating, capital, royalties and head office costs.

Note: Sales volumes and revenues/prices are shown inclusive of the discontinued Talling Peak operation. The cost information is shown exclusive of the discontinued Talling Peak operation in order to provide a better representation of current mining operations. All costs are reported on a Free on Board (FOB) basis.

Sales Guidance:

- Mid West/Extension Hill sales of **2.8 - 3.1 million tonnes** in FY2017.
- Extension Hill to contribute ~2.0Mt of standard DSO.
- Remainder to comprise mix of Iron Hill and/or Extension Hill low grade from stockpiles.
- Final sales mix dependent on timing of Iron Hill approvals and market conditions.

Cost Guidance:

- Average all-in cash cost target of **A\$48-52/wmt FOB**, including all operating, capital, royalties and head office costs.
- Extension Hill all-in site cash costs of **A\$44-46/wmt FOB**.
- Iron Hill development capital costs of \$2-3 million expected for haul road and pre-stripping.
- Iron Hill operational costs expected to be consistent with current Extension Hill operations.

Extension Hill

Low-capital sales platform

- All-in site cash cost[^] of \$46/wmt FOB in FY2016.
- Extension Hill pit scheduled for completion early in December 2016 quarter, sales to continue to early 2017.
- Iron Hill Deposit, 3km south of current pit, offers significant potential to extend production beyond 2016.
- Iron Hill Mineral Resource of 8.8 Mt @ 58.3% Fe*.
- Minimal expected capital costs of \$2-3 million (for haul road and pre-strip), access to existing processing, camp, road, rail and port solutions.
- Positive EPA conditional recommendation received in July. Targeting final approvals in late 2016/early 2017.
- Mid West sales forecast of **2.8-3.1 Mwmt** in FY2017.
- Sales to include **~2.0 Mwmt** of standard Extension Hill product from the current pit.
- Remainder to come from existing Extension Hill low-grade stockpiles and Iron Hill.
- Actual product mix is dependent on timing of final Iron Hill approvals, and market conditions.

**Refer ASX release dated 17 August 2015, and slides at end of presentation for Mineral Resource and Ore Reserve information.
^All-in site cash costs are reported FOB and include royalties and capex but are before corporate cost allocations.*

Koolan Island

Continued value extraction in FY2016

- Acacia East satellite pit mining campaign commenced in early 2015 and was completed February 2016.
- Total Acacia East production of 2.2Mt achieved vs original target of 1.2Mt.
- Cash generative with average all-in site cash cost[^] of A\$37/wmt FOB in FY2016.
- Koolan Island placed on care and maintenance in the June 2016 quarter.
- Activity is now focused on evaluating the potential to reinstate the seawall and restart production from Main Pit.

[^]All-in site cash costs are reported FOB and include royalties and capex but are before corporate cost allocations.

* See slides at end of presentation for Mineral Resource and Ore Reserve information.

Koolan Island

Future Potential

- Seawall insurance claim progressing:
 - \$86m property damage settlement agreed, all funds received by end-July 2016.
 - No restrictions on deployment of settlement proceeds.
 - Business interruption component of claim progressing with the insurers.
- High grade Main Pit deposit provides significant future production potential, subject to confirmation that the seawall can be rebuilt in safe and viable manner.
- \$1.5m committed to complete detailed seawall design and mine planning.
- Targeting significant reduction in average strip ratio, and higher average product grade.
- Technical and financial evaluation of restart options expected to be completed in the March 2017 quarter.

MGX continues to generate strong performance and has real upside potential on multiple fronts:

- Proven cost reduction capability – all-in group cash costs reduced 26% in FY2016.
- Proven ability to generate positive operating cashflow in a low price environment.
- Extension Hill sales to extend into early 2017, production from Iron Hill targeted in first half of 2017 to further extend the Mid West operational life.
- Potential to bridge any timing gap with sales from low grade stockpiles, if financially attractive.
- \$86 million received from Koolan Island property damage insurance settlement.
- Business Interruption component of Koolan Island insurance claim progressing.
- Main Pit restart evaluation provides potential for future high quality production from Koolan Island.
- Robust balance sheet provides maximum flexibility.
- Actively evaluating broad range of resources acquisition opportunities outside iron ore.
