Investor Presentation October 2018

DISCLAIMER

This presentation (the “Presentation”) has been prepared by Graphex Mining Limited (“Graphex”). No party other than Graphex has authorised or caused the issue of this document, or takes responsibility for, or makes any statements, representations or undertakings in this Presentation. This Presentation does not constitute an offer, invitation or recommendation to subscribe for or purchase any securities and neither this Presentation nor anything contained in it shall form the basis of any contract or commitment.

This Presentation contains summary information about Graphex and its activities, which is current as at the date of this Presentation. The information in this Presentation is of a general nature and does not purport to be complete nor does it contain all the information which a prospective investor may require in evaluating a possible investment in Graphex that would be required in a prospectus or product disclosure statement prepared in accordance with the requirements of the Corporations Act 2001 (Cth). This Presentation should be read in conjunction with Graphex’s other disclosures and announcements lodged with the ASX, which are available at www.asx.com.au.

This Presentation is not a prospectus, product disclosure statement or other offering document under Australian law (and will not be lodged with the Australian Securities and Investment Commission) or any other law.

This presentation includes certain “forward looking statements”. Forward-looking statements and forward-looking information are frequently characterised by words such as “plan,” “expect,” “project,” “intend,” “believe,” “anticipate”, “estimate” and other similar words, or statements that certain events or conditions “may”, “will” or “could” occur. All statements other than statements of historical fact included in this presentation are forward looking statements or constitute forward-looking information. Although the Company believes the expectations expressed in such statements and information are based on reasonable assumptions, there can be no assurance that such information or statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such information. Important factors that could cause actual results to differ materially from those in forward-looking statements include the market price of graphite, exploitation and exploration successes, capital and operating costs, changes in project parameters as plans continue to be evaluated, continued availability of capital and financing and general economic, market or business conditions, as well as those factors disclosed in the Company’s filed documents. Accordingly, readers should not place undue reliance on “forward looking information”. There can be no assurance that a transaction for offtake and finance will be concluded, or that development of the Chilalo Graphite Project will proceed as planned or that the resources at Chilalo can be economically exploited.

This Presentation has been prepared in good faith, but no representation or warranty, express or implied, is made as to the fairness, accuracy, completeness, correctness, reliability or adequacy of any statements, estimates, opinions or other information, or to the reasonableness of any assumption or other statement, contained in the Presentation (any of which

may change without notice). To the maximum extent permitted by law, Graphex and its professional advisers and their related bodies corporate, affiliates and each of their respective directors, officers, partners, employees, advisers and agents and any other person involved in the preparation of the Presentation disclaim all liability and responsibility (including, without limitation, any liability arising from fault or negligence) for any direct or indirect loss or damage which may arise or be suffered through use of or reliance on anything contained in, or omitted from, this Presentation.

Mineral Resources

The information in this Presentation that relates to in situ Mineral Resources for the Chilalo Project was announced on 20 September 2018. Graphex confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 20 September 2018 and that all material assumptions and technical parameters underpinning the estimates in the announcement of 20 September 2018 continue to apply and have not materially changed.

Ore Reserves

The information in this Presentation that relates to the Ore Reserve at the Chilalo Project was announced on 20 September 2018. Graphex confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 20 September 2018 and that all material assumptions and technical parameters underpinning the estimates in the announcement of 20 September 2018 continue to apply and have not materially changed.

Forecast financial information

The forecast financial information (and the production target on which such forecast financial information is based) in this Presentation was announced on 20 September 2018. All material assumptions underpinning the forecast financial information (and the production target on which such forecast financial information is based) in the announcement of 20 September 2018 continue to apply and have not materially changed.

Exploration Target

The information in this Presentation that relates to the Exploration Target was announced by IMX Resources Limited (now Indiana Resources Limited) on 2 September 2015). Graphex confirms that it is not aware of any new information or data that materially affects the information included in the announcement of 2 September 2015. The potential quantity and grade of an exploration target is conceptual in nature, there has been insufficient exploration to determine a mineral resource and there is no certainty that further exploration work will result in the determination of mineral resources or that any associated production target will be realised.

CHINA GRAPHITE SUPPLY UNDER THREAT

Issues facing graphite production

China has historically produced **+70% OF THE WORLD'S GRAPHITE**

Chinese production of graphite is under threat due to **CHINESE GOVERNMENT ENVIRONMENTAL CRACKDOWN** causing mine closures and threatening an industry already impacted by diminished large flake graphite reserves

Structural change will see **EAST AFRICA REPLACING CHINA** as the world's leading supplier of graphite
