

Neometals

Annual General Meeting Presentation

ASX Code: NMT

November 2016

Disclaimer

Summary information: This document has been prepared by Neometals Ltd ("Neometals" or "the Company") to provide summary information about the Company and its associated entities and their activities current as at the date of this document. The information contained in this document is of general background and does not purport to be complete. It should be read in conjunction with Neometals' other periodic and continuous disclosure announcements lodged with the Australian Securities Exchange, which are available at www.asx.com.au.

Forward-looking information: This document includes certain statements, opinions, projections, forecasts and other forward-looking information which, while considered reasonable by Neometals, are inherently subject to significant uncertainties and contingencies. Many known and unknown factors could cause actual events or results to differ materially from estimated or anticipated events or results included in this document. Recipients of this document are cautioned that forward-looking statements are not guarantees of future performance – they must make their own independent investigations, consideration and evaluation of the opportunity to invest in the Company. By accepting this document, recipients agree that if they proceed further with their investigations, consideration or evaluation of the opportunity to invest in the Company, they will make and rely solely upon their own investigations and enquiries and will not in any way rely upon this document.

Any statements, opinions, projections, forecasts and other forward-looking information contained in this document do not constitute any commitments, representations or warranties by Neometals and its associated entities, directors, agents and employees, including any undertaking to update any such information. Except as required by law, and only to the extent so required, directors, agents and employees of Neometals shall in no way be liable to any person or body for any loss, claim, demand, damages, costs or expenses of whatsoever nature arising in any way out of, or in connection with, the information contained in this document.

Financial data: All figures in this document are in Australian dollars (AUD) unless stated otherwise.

Not financial product advice: This document is for information purposes only and is not financial product or investment advice, nor a recommendation to acquire securities in Neometals. It has been prepared without taking into account the objectives, financial situation or needs of individuals. Before making any investment decision, prospective investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs and seek legal and taxation advice appropriate to their jurisdiction.

Investment risk: An investment in securities in Neometals is subject to investment and other known and unknown risks, some of which are beyond the control of Neometals. The Company does not guarantee any particular rate of return or the performance of Neometals. Investors should have regard to the risk factors outlined in this document.

Competent Persons Statement:

The information in this document that relates to, "Barrambie Mineral Resource Estimates", "Barrambie Pre Feasibility Study Results", "Mt Marion Mineral Resource Estimates" and "ELi Lithium Downstream Feasibility Results" is extracted from ASX Releases set out below. The Company confirms that it is not aware of any new information or data that materially affects the information included in the ASX Releases set out below, and in the case of estimates of mineral resources, that all material assumptions and technical parameters underpinning the estimates in those ASX Releases continue to apply and have not materially changed.

6/12/2013	Barrambie - Amended JORC 2012 Mineral Resource Estimate
25/08/2015	Barrambie Pre Feasibility Study Results
11/7/2016	Positive Lithium Downstream Processing Results
27/10/2016	Mt Marion Mineral Resource Upgrade

The Company confirms that all the material assumptions underpinning the production target and the forecast financial information derived from the production targets in the Barrambie Pre-feasibility Study and ELi Lithium Downstream Feasibility Study continue to apply and have not materially changed.

All the right elements

Current Strategy

Nm

Grow market cap from maximising returns from existing operations, increasing margins via higher value (downstream) products and developing growth options.

Mine, process, sell globally relevant minerals with strong market fundamentals

Commercialise proprietary processing Technologies

Build strong Human and Financial Capability

Leverage Project Acquisition and Development Capacity

- Increased Mt Marion production plan 60% to 50kt LCE
- Advanced project to add value to offtake rights with LiOH MOU
- Secured rights to, and advanced the commercialisation of, Neomet Process with Sedgman
- Attracted senior mining executives Mike Tamlin to COO, Ms Streltsova and Mr Ritchie to board
- Cash and investments now ~ A\$78M, no debt

Long-term Strategy

43.1% and Operator
Mineral Resources Ltd
(ASX:MIN)

Neometals

Globally Significant Resource & Production – 400,000t concentrates containing 50kt LCE

Neometals

Strong Operating Partner

Li

- ✓ Australia's largest contract minerals processor
- ✓ Operate mine-to-port on BOO basis
- ✓ No upfront capital cost to NMT
- ✓ Certainty of construction and production timing
- ✓ Minimum production levels (~50ktpa LCE)
- ✓ Fixed rate mining and processing costs

Neometals

Li + Ti = Nm

Strong Offtake Partner

- ✓ China's leading, most profitable lithium producer
- ✓ Life-of-Mine, Take-or-pay Offtake Agreement
- ✓ At Market Price with floor price protection
- ✓ US\$20M Letter of Credit (100% payment on shipping)
- ✓ Ability for MIN/Neometals to take equity share of production after 3 years.

Neometals

Lithium Concentrate Prices

Li

Chinese Spodumene Imports 2014 - 2016: From Australia
(6% Li₂O)

Neometals

Flythrough

Li

Crushing - Fully Commissioned

Li

Beneficiation – Coarse Circuit complete

Li

- ✓ Site works commenced Nov'15
- ✓ World's largest hard rock concentrator built from scratch in <12 months despite +40 days lost to rain.

Beneficiation – Stockpiling Finished Product

Project milestones

Li

Neometals

Li + Ti = Nm

Downstream processing

Kalgoorlie Lithium Refinery Project

Strategy – increase margin through downstream processing

Strong demand – constrained supply

Li

LiOH: Lithium hydroxide, Li_2CO_3 : Lithium carbonate. Demand: Forecast Source: signumBOX Price: Industrial Minerals 21 July 2016

Neometals

New Commercialisation Plan

Li

- Locate plant in Goldfields to minimise transport, 7t concentrates needed for 1t of Lithium Hydroxide
- Utilise local workforce, reagents and energy infrastructure
- Use Conventional Sulfate/Caustic Flowsheet used by leading Chinese Converters
- Remove technology risk – speed to market
- NMT/MIN to contribute offtake, nominally ~ 25:75 split

Downstream processing

ELi Process

Neometals 70%

Mineral Resources 30%

Neometals

Adapted Patented Technology for production of LiOH from LiCl

Neometals

ELi levels playing field for hard rock converters

Lithium Industry Competitive Cost Position
2016 Cash Costs for Lithium Hydroxide
(US\$ per tonne)

Source: Global Lithium LLC (costs), Industrial Minerals (price), Neometals Management (ELi cost)

Neometals

ELi potentially slashes brine-based LiOH opex vs Li₂CO₃ causticising

Relative LiOH Conversion Costs from LiCl Brine
(US\$ per tonne LiOH.H₂O) - Argentina basis
ELi Process = Base 100

Business model is to licence to existing brine producers in return for royalty stream:

- De-risks ELi for own use later
- Quicker cashflow
- Higher P/E multiple

Licenced low-cost Technology

Ti

Relative Standard-Plant Cash Operating Costs
(US\$ per tonne TiO_2 delivered basis)
Neometals PFS = Base 100

Disclaimer: The TZMI costs (NA, EU, China) are for standard plant models in each location. They are not specific costs, neither are they averages of the costs for a location. Q4 2014
TZMI information and Neometals scoping and pre-feasibility studies performed separately and may not be like-for-like analysis

Neometals

Utilising Neomet Process

Ti

Competitors

Neometals

- ✓ Mini-pilot scale testing in Canada – 2014/15
- ✓ High purity +99% TiO₂
- ✓ PFS Completed by Sedgman – August 2015

Neometals

Commercialisation Plan

Ti

(*) Subject to Board Approval

Neometals

Technology Licensing

Neomet Process

Neometals - 25% of royalty revenues

Neometals

Patented Neomet Process

Nm

Commodity agnostic – developed in Canada for Ni-laterites, used commercially for treating refractory copper-gold concentrates, adapted for titanium concentrates.

Neometals

Low-cost acid regeneration

Nm

Acid Regeneration Plant - Process Flow Diagram

Business model is to licence to new/existing metal producers in return for royalty stream.

Advantages

- Recovers full strength HCl +32% vs 18%
- Almost no HCl loss
- Benign tailings

Neometals

Sedgman Alliance

Nm

Note 1: The licence and royalty relationship may be managed through the EPC Contractor pending project and Client requirements

Note 2: The Principal Contractor will interface with the client directly and manage all delivery functions relating to the project (eg engineering, procurement and construction)

Neometals

Third-party ore test-work underway
