6 December 2017

NEOMETALS ADMITTED TO NASDAQ INTERNATIONAL DESIGNATION

Neometals Ltd (ASX:NMT) ("**NMT**" or "**the Company**") is pleased to advise that it has been admitted to the Nasdaq International Designation.

NMT's' Level 1 American Depositary Receipts ("**ADRs**") – RDRUY:OTC have traded in the U.S. over the counter ("**OTC**") market since 2010. With the ADRs meeting the requisite program standards, Nasdaq Inc has now admitted the Company to the Nasdaq International Designation.

The Nasdaq International Designation program was launched in December 2015, for non-U.S. based companies that have level 1 ADRs or shares that trade in the OTC market. The program establishes a unique partnership with Nasdaq that provides member companies with a full service offering that includes investor relations tools and services, and Nasdaq's robust visibility offering which allows for greater access to US investors, potentially increasing the liquidity of the Company's securities. The Nasdaq International Designation is home to a diverse range of companies in innovative industries across the globe. The program members hail from Australia, Japan, Germany, Brazil, Canada, the U.K., and the Netherlands. In the past year, members of the program were invited to the Nasdaq MarketSite with the opportunity to amplify their brand activities through different channels.
