

ASX ANNOUNCEMENT

08 April 2019

Expansion of China Payments partnerships & processing

Highlights

- **OpenDNA partners with Novatti for Alipay and Wechat Pay processing**
- **New channel for retail, education and tourism payments for Chinese consumers**
- **B2B partnerships continue to grow**

Novatti Group Limited (ASX: NOV, “Novatti”) is pleased to announce that OpenDNA Limited (ASX:OPN) has selected Novatti to provide processing for Alipay and Wechat Pay for its RooLife portal. The RooLife portal enables purchase of products and services in Australia and extends the capability for RooLife to process payments directly in Australian Dollars, optimising OpenDNA’s position with foreign exchange movement for goods and services purchased within Australia.

The service will optimise transactions between RooLife’s merchants and customers in Australia, delivering fast settlement via an Australian domestic funds transfer to the merchant’s Australian account in AUD from WeChat and Alipay payment transaction made by Chinese when in Australia.

Novatti’s China Payments modules will be added to OpenDNA’s RooLife e-Commerce platform and hyper-personalisation AI engine, providing additional customer profiling and valuable insights into Chinese residents, tourists and business travellers’ purchasing habits, creating additional opportunities for sales of products.

OpenDNA CEO, Mr Bryan Carr, commented, “We are delighted to partner with Novatti and the China Payments business to service the large and growing market for purchases made using the most widely-used payment methods in China – WeChat and Alipay.”

Novatti CEO, Peter Cook noted “OpenDNA bring a very innovative service to the market and with significant analytics and value add. Novatti is pleased to be their selected Chinese payments processing partner. This B2B agreement is one of many we aim to bring to market, the majority of which will provide per transaction fees that will be dependent on the number of transactions. We are focussed on growing our number of B2B partners.”

Strategic Consideration

Novatti continues to create B2B processing partnership agreements with other innovative payments companies and financial institutions and in particular for the processing of cross border payments and allied services. Over the last year this includes agreements with ePay Australia and IncentiaPay Limited (ASX:INP) for the extension of Novatti’s processing of Alipay and Wechat Pay payments.

- ePay Australia announced on 20 December 2018 that the ePay app is available on the CBA Albert terminals for processing of Alipay payments¹.
- ePay Australia announced on 3 April 2019 that GM Cabs is using an ePay solution for Alipay processing.²
