ASX / MEDIA RELEASE **9 OCTOBER 2009**

DIRECTOR APPOINTMENT

Redbank Copper Limited (ASX: RCP) advises of changes to its Board, with non-executive director Bernie Siddall stepping down and appointment of new director Keith Vuleta.

Mr Siddall, aged 68, has stepped down from the Board, effective today, to reduce his increasing work load.

Redbank Chairman Dr James Searle said the Board, on behalf of shareholders, would like to thank Mr Siddall for his contribution to the Company, and wished him well for the future.

Redbank is pleased to announce the appointment of Mr Keith Vuleta to the position of non-executive director, effective immediately.

Mr Vuleta has been a Chartered Accountant for more than 20 years. He has a strong financial management background with ASX-listed companies, working as Finance Director, Chief Financial Officer and Company Secretary for public companies in the mining, engineering and financial services industries. Mr Vuleta has also worked for Ernst and Young.

He is currently Chief Financial Officer for Stirling Resources (ASX: SRE), and non-executive director of Matilda Zircon (ASX: MZI).

Dr Searle said Mr Vuleta would add additional financial and resource management depth to the Board, as it moved forward with the development of its high grade copper project in the Northern Territory.

About Redbank Copper

Redbank Copper is an Australian based ASX-listed resource company (ASX: RCP) focused on the development of the Redbank Copper Mine in the north east of the Northern Territory.

The project is located in the Redbank Mineral Field in the NT, where the Company holds a substantial ground position. The region hosts significant economic copper mineralisation and is highly prospective for copper, cobalt, phosphate, manganese and uranium.

The Company acquired the Redbank Copper Mine in 2005, and had been generating some cash flow from the treatment of high grade oxide stockpiles to produce a high quality concentrate. The tenement package included numerous advanced copper targets.

In December 2007, Redbank secured an exploration joint venture with Glencore International, one of the world's largest commodity suppliers. The Company has also signed an off-take agreement with Glencore for the life of mine, based on marked based spot prices of copper.
