

ASX / MEDIA ANNOUNCEMENT

23 JULY 2010

Appointment of new Director

Redbank Copper (ASX: RCP) is pleased to announce the appointment of Marty Adams as non-executive director.

Mr. Adams has thirty years' experience in the Australasian mining industry. Holding a degree in Mining Engineering from Melbourne University and an MBA from Deakin University, he has held a range of operational and senior management positions in open pit and underground operations and has extensive experience in gold, copper, mineral sands, iron ore and lead/zinc projects.

Mr. Adams' experience includes 17 years with Normandy Mining Limited, including three years as General Manager of Normandy's Tennant Creek gold and copper operations. He was recently the Project Manager for Hillgrove Resources Limited's Kanmantoo Copper Project, where he oversaw the successful completion of its feasibility studies and permitting activities.

He is currently also the Chief Executive Officer of Australian Zircon NL, non-executive director of Matilda Zircon Limited and Managing Director of Stirling Resources Limited.

Redbank Copper Chairman Ian Price said Mr Adams' appointment adds significant resource management experience to the Board.

"We are very pleased to welcome Mr Adams to the Board as Redbank continues developing its high grade copper project in the Northern Territory" Mr Price said.

About Redbank Copper

Redbank Copper is an Australian based ASX-listed resource company (ASX: RCP) focused on the development of the Redbank Copper Mine in the north east of the Northern Territory.

The project is located in the Redbank Mineral Field in the NT, where the Company holds a substantial ground position. The region hosts significant economic copper mineralisation and is highly prospective for copper, cobalt, phosphate, manganese and uranium.

The Company acquired the Redbank Copper Mine in 2005. The tenement package included an established resource base, numerous advanced copper targets and processing infrastructure. Redbank has an exploration program underway to expand its resource base, and is developing the project toward recommencement of production, in line with the Mine Study released in September 2009.

Redbank also has an exploration joint venture with Glencore International, one of the world's largest commodity suppliers. The Company has also signed an off-take agreement with Glencore for the life of mine, based on marked based spot prices of copper. Additional information is available at www.redbankcopper.com.au
