What will the Royal Commission mean for the industry?

Positive impact for Netwealth

- Further acceleration of advisers and dealer groups exiting larger institutions and selecting new platforms.
- Increase in number of IFAs who have been switching from Institutional platforms to SPPs.
- Institutions opening up their Approved Product Lists to SPPs and partnering with a platform to be their approved SPP option.
- Institutional Platforms exiting wealth and outsourcing their platform manufacturing to a SPP.
- Banning of rebates - a large part of market is subject to pre FOFA Grandfathered Rebates.
- Regulators placing more onus on platforms to regulate all compliance obligations.
- More regulation on trustees, operators and custodians, adding additional compliance burden to providers, particularly with legacy products.

As the best rated platform for functionality and service, NWL is in a prime position to benefit from this opportunity e.g. NWL products have been added to the approved product list (APL) of Godfrey Pembroke Limited

FY2018 Annual General Meeting

NWL is well positioned to offer White Label solutions, but would not act as a Private Label administrator¹.

By banning rebates, a major obstacle to advisers switching platforms will be removed. Less than 3.5 % of NWL's FUA is subject to rebates.

NWL has a strong compliance regime and is developing sophisticated technology solutions to meet increased regulatory demands.

Pricing competition is set to continue but don't believe every thing you read in newspaper...

Comparing investment platforms fees is complex as they are all structured differently

No platform is the cheapest or most expensive across all clients, the cost to client depends on account size, level of trading activity, investment asset classes, balance of cash held and number of accounts in family group.

- NWL seeks not to be the cheapest provider in the market but rather seeks to offer the most value by providing the best service and functionality, at a competitive price.
- NWL has a range of products competitively priced to meet all segments of the market from simple to low cost investment options through to complex offerings for the high net worth segment of the market.
- NWL has a superior offering with better functionality⁽¹⁾, better reporting and better business management tools.

- NWL has superior administration and service than our competitors and the highest net promoter score in the industry⁽²⁾.
- NWL has highly competitive pricing for larger practices.
- NWL continues to win new tenders against all of the incumbents as well as the SPP's.

Outlook

Best in class technology and client service

- Industry change (structural and regulatory) to accelerate and significantly increase the size of Netwealth's addressable market.
- We expect pricing competition to continue. Netwealth's superior service and platform functionality, combined with our competitive pricing, places us in a very strong position to compete and succeed.
- Netwealth will continue to innovate and increase our investment in technology, sales, marketing and client service, to capitalise on the current market opportunities.
- The recent market correction has had an adverse effect on Netwealth's revenues but the effect is significantly reduced due to our fee caps and sliding fee scales. Estimated that a 10% decline in the price of equities would have approximately a 3% negative impact on our annualised admin fee revenue.
- We expect our FY2019 net inflows to increase from FY2018 levels.
- NPAT growth is forecast to be driven by growth of FUA, disciplined pricing, efficient cost management and new sources of incremental revenue.
- We expect the ongoing benefits of scale, continued improvements to operational processes and automated technology, will offset any pricing compression and re-investment costs, with our EBITDA margin % in FY2019, expected to remain at a similar level to FY2018.
- "Heine Shareholders" have confirmed they have no current intention to sell any of their holdings.

Questions from the floor

Formal business

Item 1

Consideration of Netwealth Annual Reports

To receive and consider the Financial Report, Directors' Report and Auditor's Report for the financial year ended 30 June 2018.

The Financial Report, Directors' Report and Auditor's Report (the "Reports") for the year ended 30 June 2018 will be laid before the AGM. There is no requirement for a formal resolution on this item. However, the Chairman will allow reasonable opportunity for shareholders to ask questions and make comments on the operations and management with regard to the Reports. Shareholders will also be given a reasonable amount of time to ask the appointed Auditor representative questions about the content and conduct of the audit.

Address by Chairman of the Remuneration Committee - Davyd Lewis

- **Short term incentives** are generally limited to the sales and distribution team and the Joint Managing Directors. Netwealth will pay a discretionary cash bonus to an employee if the employee has made an exceptional contribution.
- **Long term incentives**, the Board recognises the importance of suitably incentivising key staff. Our objective is to meet our compliance, governance and growth targets and to retain our talent.
- The Board Remuneration Committee under Davyd's leadership has adopted a new LTI scheme.
