## **SA Housing Trust selects Objective solution for electronic document and records management**

The South Australian Housing Trust has selected Objective Corporation (ASX:OCL) for an Electronic Document and Records Management solution (EDRMS) to be used throughout the enterprise.

The Housing Trust provides public housing and housing-related services to the people of South Australia through a network of 17 regional offices across the State. Services include the provision of public housing, private rental assistance as well as housing programs that cater for young people and customers with special needs.

Objective will enable the Housing Trust to facilitate the effective capture, storage and retrieval of the explicit knowledge that exists throughout its state-wide network of offices. It will eliminate silos of information throughout the Housing Trust and provide access to a central information repository that will be used by 700 users, enterprise-wide on a daily basis.

Objective will support the Housing Trust's business practices and its compliance with the requirements of the South Australian State Records Act 1997 and the Freedom of Information Act 1991.

Tony Walls, CEO Asia Pacific, Objective Corporation said:  
"Objective's capacity to provide a single, comprehensive solution together with our experience in managing information over complex multi-agency sites was instrumental in meeting the Trust's requirements."

**-ends-**

### **Objective Corporation**

Objective Corporation (ASX:OCL) develops, markets, tailors and supports its own Enterprise Content Management (ECM) software solutions. Working with large, information intensive organisations including government departments and top 1000 corporations, Objective Corporation has established itself as one of the leaders in the ECM market, where its solutions have been consistent winners against international competition. Its solutions are open and integrate with existing applications and infrastructure, delivering clear outcomes and a measurable return on the client's investment.
