Another convenience store replenishment deal

- **New contract signed with Total Logistics Solutions and One Half Outsourcing**
- **Extends supply services to another convenience store provider**
- **Appoints agent for smaller transport operators segment**

25 January 2018: SmartTrans Holdings Limited (ASX: SMA) ('SmartTrans', 'the Company') is pleased to announce its software-as-a-service (SaaS) Telematics Supply Chain division has signed a new contract with Total Logistics Solutions (TLS) and One Half Outsourcing (OHO).

Total Logistics Solutions is an innovative transport provider that services diverse customer needs. The TLS deal will provide transport solutions to TLS' existing large multi-national service station convenience stores customer, the work is in replenishment of consumer goods shelf inventory. TLS also services other substantial retailers. TLS also operates long distance line haul services between Australian capital cities.

This deal complements two other large multi-national service station convenience store replenishment contracts that SmartTrans currently service.

The deal begins with a 30-vehicle fleet, and scales up. TLS manage a large fleet of over 140 vehicles. One Half Outsourcing, provides business services to the broader transport industry. OHO will operate as a commissioned sales agent to these transport providers.

Total Logistics Solutions Founding Director George Kara said: "With the SmartTrans application, we will bring greater efficiency, fleet scheduling and management into our business. Our goal is to provide the best possible service outcomes while being efficient and safe at all times. One Half Outsourcing is pleased to have been appointed an agent for transport fleets. We speak the language of the trucking operator. I'm confident that the SmartTrans solution will be well accepted by this cost-conscious segment of the industry."

SmartTrans Managing Director Brendan Mason said: "Our investment in the growth and development in the SaaS Telematics Supply Chain division is being realised with this new stable, recurring and revenue generating contract. Working with TLS provides complementary work in the area of convenience store replenishment and the ability to reach smaller transport operators."

SmartTrans continues to make positive progress with the acquisition of Resource Connect. An update will be posted shortly.
