Update - 31 Dec 2015 Interim Report

Optiscan Imaging Limited has completed the 31 Dec 2015 Interim Report (covering the period 1 July 2015 to 31 Dec 2015). A copy of the Appendix 4D is now available via the ASX.

You will note that the report includes commentary on Optiscan's short, medium and long-term goals and plans for the company's future. The report also provides an update on the status of Optiscan's cooperation agreement with Carl Zeiss Meditech.

Update – Capital Raise

Having completed the 31 Dec 2015 Interim Report, we are now in a position to finalise progress on our capital raising. We will make a further announcement in this regard shortly.

About Optiscan

Optiscan is an Australian company that has developed and patented miniaturised confocal microscopes, and is a global leader in the development and application of microscopic imaging technologies for medical markets.
