

QUARTERLY ACTIVITIES REPORT AND APPENDIX 4C

Melbourne, Australia – 31 July 2026: Percheron Therapeutics Limited (ASX: PER) ('the Company'), an international biotechnology company focused on the development of novel therapies for oncology and rare diseases, is pleased to provide an update on the Company's continuing progress during the quarter ended 30 June 2026.

Key Points

- **HMBD-002 granted provisional International Non-Proprietary Name (pINN) by World Health Organization.** Following confirmation in 1H CY2027, the drug will formally be known as 'minperstobart'.
- **Manufacture of new batch of drug substance completed.** The material will be placed in vials and is then anticipated to be released for use in a new clinical trial in September 2026.
- **Non-renounceable entitlement offer raised \$2.2 million to progress HMBD-002 program.** Eligible shareholders were able to subscribe for two new shares for every five shares held, at an offer price of \$0.005, with the shortfall placed substantially to new investors.
- **HMBD-002 abstracts presented at premier international scientific conferences for presentation in April and May 2026.** The Company presented posters at the American Association for Cancer Research (AACR) Annual Meeting in San Diego, CA, held from 17-22 April 2026, and the American Society of Clinical Oncology (ASCO) Annual Meeting in Chicago, IL, held from 29 May – 2 June 2026.

"We have made good progress over the second calendar quarter," commented Percheron CEO, Dr James Garner. "Our primary focus continues to be on returning HMBD-002 to the clinic during the second half of the year. In the meantime, however, it has been gratifying to see the very positive reception that our latest data has received at the AACR and ASCO conferences. We have taken the opportunity afforded by those meetings to discuss the drug at length with clinicians, researchers, and potential future partners, and we have been greatly encouraged by their enthusiasm. The feedback we have received has been extremely helpful in shaping the future trajectory of the program. Finally, the designation of HMBD-002 as minperstobart provides a symbolic transition for the drug, as it moves into mid-stage clinical development."

HMBD-002 granted pINN of 'minperstobart' by WHO

On 26 May 2026, the Company announced that the World Health Organization (WHO) had selected 'minperstobart' as the provisional international non-proprietary name (pINN) for HMBD-002. Subject to a confirmation process, the name will be finalised in 2H CY2027.

Drugs usually begin development with a code number, which is provided by the company that is developing them. HMBD-002 is an example of such a code number. As a drug moves through clinical development, it receives an INN, which is chosen by WHO and, in the United States, by the United States Adopted Name Council (USAN). This name is common to any drug product using the same active pharmaceutical ingredient. Finally, at the time of commercial launch, drugs receive a brand name, which is chosen by the sponsor company.

Manufacture of new batch of drug substance completed

On 17 June 2026, the Company announced that it had received a completed Certificate of Analysis (CoA) for a new batch of HMBD-002 drug substance. The Company will now arrange for the material to be placed in vials for use in a future clinical trial, with release of final product expected in September 2026.

\$2.2 million raised in Entitlement Offer to progress HMBD-002 program

As noted in the prior Quarterly Activities Report as post-period event, the Company conducted a non-renounceable entitlement offer to eligible shareholders through March and April 2026, under a prospectus filed with the Australian Securities and Investments Commission. Under the offer, eligible shareholders were able to subscribe for two new shares for every five shares held, at an offer price of \$0.005. Every two shares issued under the offer were accompanied by one unlisted option, with a strike price of \$0.01, and expiry two years from the date of issue.

In total, 376 eligible holdings subscribed for new shares under the entitlement offer. On its conclusion, the shortfall was placed to new sophisticated and institutional investors. Blue Ocean Equities and Cygnet Capital served as joint lead managers to the transaction. The entitlement offer raised approximately \$2.2 million before associated costs.

The Company intends to apply the funds raised to progress the development of HMBD-002, which it plans to take into a clinical trial in 2H CY2026, and for working capital purposes.

HMBD-002 posters presented at international scientific conferences

The Company presented a summary of the key results from the phase I study of HMBD-002 in patients with advanced cancer at the American Association for Cancer Research (AACR) Annual Meeting, which was held in San Diego, CA, from 17-22 April 2026.

The study was conducted in 48 patients with advanced cancer, at six leading cancer centres in the United States. It showed HMBD-002 to be generally safe and well-tolerated, both as monotherapy and in combination with Keytruda (pembrolizumab). A number of patients showed indications of potential clinical benefit.

In addition, the Company presented new preclinical data from a collaboration with QIMR Berghofer at the American Society of Clinical Oncology (ASCO) Annual Meeting, which was held in Chicago, IL, from 29 May – 2 June 2026.

QIMR Berghofer is one of the leading independent medical research institutes in Australia, with a focus on cancer, infectious disease, and mental health. It employs more than 1,000 staff across a wide range of disciplines, and houses more than 60 laboratories.

The QIMR data traced patterns of VISTA expression in patients with triple-negative breast cancer (TNBC), which is intended to inform a future clinical trial in that indication. The project was led by Professor Sudha Rao, a leading expert on the use of immunotherapy in cancer.

Financial Position

As noted in the accompanying unaudited quarterly cashflow report (Appendix 4C), the Company closed the quarter ending 30 June 2026 with a cash balance of \$4.05 million, compared to \$3.10 million at the end of the previous quarter.

Net cash outflows from operating activities for the quarter were \$1.05 million, of which \$0.43 million represented research and development expenditure, with the balance substantially reflecting the Company's corporate overheads.

The accompanying unaudited quarterly cashflow report shows a figure of 3.9 quarters for the Company's forecast runway. The Company notes that this calculation assumes steady-state expenditure that is similar quarter-to-quarter.

The Company made payments to related parties of the entity as disclosed in Item 6 of the Appendix 4C amounting to approximately \$0.21 million. These payments represent salaries, directors' fees, and consulting fees on normal commercial terms.

About Percheron Therapeutics Limited

Percheron Therapeutics Limited [ASX: PER | US OTC: PERCF] is a publicly listed biotechnology company focused on the development and commercialisation of novel therapies for oncology and rare diseases. The company's lead program is HMBD-002, a monoclonal antibody targeting the immune checkpoint regulator, VISTA. HMBD-002 has completed a phase I clinical trial in patients with advanced cancer, which has shown the drug to be generally safe and well tolerated, and Percheron aims to commence further clinical trials in CY2026. For further information, please see our website at www.PercheronTx.com, or email info@PercheronTx.com.

This announcement has been authorized for release to the Australian Securities Exchange by the Board of Directors.

(Name of body or officer authorising release – see note 4)

Notes

1. This quarterly cash flow report and the accompanying activity report provide a basis for informing the market about the entity's activities for the past quarter, how they have been financed and the effect this has had on its cash position. An entity that wishes to disclose additional information over and above the minimum required under the Listing Rules is encouraged to do so.
2. If this quarterly cash flow report has been prepared in accordance with Australian Accounting Standards, the definitions in, and provisions of, *AASB 107: Statement of Cash Flows* apply to this report. If this quarterly cash flow report has been prepared in accordance with other accounting standards agreed by ASX pursuant to Listing Rule 19.11A, the corresponding equivalent standard applies to this report.
3. Dividends received may be classified either as cash flows from operating activities or cash flows from investing activities, depending on the accounting policy of the entity.
4. If this report has been authorised for release to the market by your board of directors, you can insert here: "By the board". If it has been authorised for release to the market by a committee of your board of directors, you can insert here: "By the [name of board committee – eg Audit and Risk Committee]". If it has been authorised for release to the market by a disclosure committee, you can insert here: "By the Disclosure Committee".
5. If this report has been authorised for release to the market by your board of directors and you wish to hold yourself out as complying with recommendation 4.2 of the ASX Corporate Governance Council's *Corporate Governance Principles and Recommendations*, the board should have received a declaration from its CEO and CFO that, in their opinion, the financial records of the entity have been properly maintained, that this report complies with the appropriate accounting standards and gives a true and fair view of the cash flows of the entity, and that their opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.
