About PET. Phoslock Environmental Technologies Limited (ASX: PET) specialises in water treatment products to remediate polluted lakes, rivers, canals and drinking water reservoirs. PET is headquartered in Sydney and has an office, factory and warehouse in Changxing, China. The Company is represented by licensees, distributors and agents in numerous other countries including HydroScience in Brazil.

PET's main manufactured product is Phoslock®, a lanthanum modified bentonite (LMB) that permanently binds excess phosphorus in the water column and sediments and thus prevents the formation of blue green algae or cyanobacteria. Phoslock is certified for use in drinking water in North America, Europe, Brazil, Australia, and China.
