1. CHAIRMAN'S LETTER

Dear Fellow Shareholder,

Notwithstanding another tumultuous year on the global markets, your Company has continued to grow its asset base while maintaining a prudent approach to exploration and corporate expenditure. Peel Exploration Ltd has carried on with the systematic investigation of its existing projects while remaining vigilant to new opportunities. In this regard Peel has secured an option to acquire 100% of the advanced Apollo Hill gold project in the Goldfields of Western Australia.

To continue with the advancement of your Company's assets, the board of directors is pleased to be able to offer this 1-for-2 pro-rata entitlement issue to Shareholders.

Dependent on whether Peel acquires the Apollo Hill gold project or not, two different expenditure scenarios are planned. Please see details in Section 5. Under scenario 1, the bulk of funds raised will be applied to exploration at the Apollo Hill gold project with the balance of funds to be used to explore Peel's other project areas, and for working capital. Under scenario 2, the bulk of funds raised will be applied to the May Day and Attunga project areas with the balance used at Peel's other project areas, and for working capital.

Peel's board of directors believes that the Company's current asset base offers excellent exploration and development potential, while the potential acquisition of the Apollo Hill gold project offers significant leverage to an increasingly valuable commodity.

I would therefore encourage you as Shareholders to participate in what we as a Board consider to be an attractively priced entitlement issue.

Yours sincerely

Important notes

Shareholders should read this document in its entirety and, if in doubt, should consult their professional advisers.

This Prospectus is dated 22 September 2010 and a copy of this Prospectus was lodged with the ASIC on that date. The ASIC and ASX take no responsibility for the content of this Prospectus.

The expiry date of the Prospectus is 13 months after the date the Prospectus was lodged with ASIC (**Expiry Date**). No Shares will be allotted or issued on the basis of this Prospectus after the Expiry Date.

Applications for Shares offered pursuant to this Prospectus can only be submitted on an original Entitlement and Acceptance Form which accompanies this Prospectus.

This Prospectus does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Failure to comply with these restrictions may violate securities laws. Applicants who are resident in countries other than Australia should consult their professional advisers as to whether any governmental or other consents are required or whether any other formalities need to be considered and followed.

The Offer to New Zealand investors are regulated offers made under Australian and New Zealand law. In Australia, this is Chapter 8 of the Corporations Act and the Corporations Regulations 2001. In New Zealand, this is Part 5 of the *Securities Act 1978* and the *Securities (Mutual Recognition of Securities Offerings – Australia) Regulations 2008*.

The Offer and the content of the Prospectus are principally governed by Australian rather than New Zealand law. In the main, the Corporations Act sets out how the Offer must be made.

There are differences in how securities are regulated under Australian law.

The rights, remedies, and compensation arrangements available to New Zealand investors in Australian securities may differ from the rights, remedies, and compensation arrangements for New Zealand securities.

Both the Australian and New Zealand securities regulators have enforcement responsibilities in relation to the Offer. If you need to make a complaint about the Offer, please contact the Securities Commission, Wellington, New Zealand. The Australian and New Zealand regulators will work together to settle your complaint.

The taxation treatment of Australian securities is not the same as for New Zealand securities.

If you are uncertain about whether this investment is appropriate for you, you should seek the advice of an appropriately qualified financial adviser.

The Offer may involve a currency exchange risk. The currency for the Shares is not New Zealand dollars. The value of the Shares will go up or down according to changes in the exchange rate between that currency and New Zealand dollars. These changes may be significant. If you expect the Shares to pay any amounts in a currency that is not New Zealand dollars, you may incur significant fees in having the funds credited to a bank account in New Zealand in New Zealand dollars.

As noted in the Prospectus at Section 4.6, the Company will apply to the ASX for quotation of the Shares offered under this Prospectus. If quotation is granted, the Shares offered under this Prospectus will be able to be traded on the ASX. If you wish to trade the Shares through that market, you will have to make arrangements for a participant in that market to sell the Shares on your behalf. As the ASX does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the securities and trading may differ from securities markets that operate in New Zealand.

No person is authorised to give information or to make any representation in connection with this Prospectus which is not contained in the Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

ELECTRONIC PROSPECTUS

Any person accessing the electronic version of this Prospectus for the purpose of making an investment in the Company must be an Australian resident and must only access the Prospectus from within Australia.

The Corporations Act prohibits any person passing onto another person an Entitlement and Acceptance Form unless it is attached to a hard copy of this Prospectus or it accompanies the complete and unaltered version of this Prospectus. Any person may obtain a hard copy of this Prospectus free of charge by contacting the Company.

4. DETAILS OF THE OFFER

4.1 Offer

By this Prospectus, the Company offers for subscription approximately 22,002,959 new Shares pursuant to a pro-rata non-renounceable entitlement issue to Shareholders of 1 new Share for every 2 Shares held on the Record Date at an issue price of \$0.07 per Share. Fractional entitlements will be rounded up to the nearest whole number.

Based on the capital structure of the Company (and assuming no existing Options are exercised prior to the Record Date), the maximum number of Shares to be issued pursuant to the Offer is approximately 22,002,959. The Offer will raise approximately \$1,540,207.10 prior to costs assuming that the Offer is fully subscribed. The purpose of the Offer and the use of funds raised are set out in Section 5 of this Prospectus.

Holders of existing Options will not be entitled to participate in the Offer. The Company currently has 31,553,000 Options on issue as at the date of this Prospectus, which Options may be exercised by the Option holder prior to the Record Date in order to participate in the Offer.

4.2 How to accept the Offer

Your acceptance of the Offer must be made on the Entitlement and Acceptance Form accompanying this Prospectus. Your acceptance must not exceed your Entitlement as shown on that form. If it does, your acceptance will be deemed to be for the maximum Entitlement.

You may participate in the Offer as follows:

- (a) if you wish to accept your Entitlement in full:
 - (i) complete the Entitlement and Acceptance Form, filling in the details in the spaces provided; and
 - (ii) attach your cheque for the amount indicated on that relevant Entitlement and Acceptance Form; or
- (b) if you only wish to accept part of your Entitlement:
 - (i) fill in the number of Securities you wish to accept in the space provided on the Entitlement and Acceptance Form; and
 - (ii) attach your cheque for the appropriate application monies (at \$0.07 per Share); or
- (c) if you do not wish to accept all or part of your Entitlement, you are not obliged to do anything.

All cheques must be drawn on an Australian bank or bank draft made payable in Australian currency to “**Peel Exploration Ltd – Trust Account**” and crossed “Not Negotiable”.

Your completed Entitlement and Acceptance Form and cheque must reach the Company’s share registry no later than 5:00pm WST on the Closing Date.

The Offer is non-renounceable. Accordingly, a Shareholder may not sell or transfer all or part of their Entitlement.

4.3 Minimum subscription

There is no minimum subscription.

4.4 Underwriting

The Offer is not underwritten.

4.5 Shortfall Offer

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall. Shareholders who wish to apply for Shares above their Entitlement can complete the Shortfall Application Form attached to the back of this Prospectus and return it, together with a cheque for the value of those Shortfall Shares (at \$0.07 per Share) to the Company.

The offer of the Shortfall is a separate offer pursuant to this Prospectus. The issue price of any Shares offered pursuant to the Shortfall Offer shall be \$0.07 being the price at which the Entitlement has been offered to Shareholders pursuant to this Prospectus. The Shortfall shall be placed at the discretion of the Company. The Company reserves the right to allot to an applicant a lesser number of Shortfall Shares than the number for which the applicant applies, or to reject an application, or to not proceed with placing the Shortfall.

4.6 ASX listing

Application for official quotation by ASX of the Shares offered pursuant to this Prospectus will be made within 7 days after the date of this Prospectus. If approval is not obtained from ASX before the expiration of 3 months after the date of issue of the Prospectus, (or such period as modified by the ASIC), the Company will not issue any Shares and will repay all application monies for the Securities within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant official quotation to the Shares is not to be taken in any way as an indication of the merits of the Company or the Securities now offered for subscription.

4.7 Allotment of Shares

Shares issued pursuant to the Offer will be allotted as soon as practicable after the Closing Date. The Company will allot the Shares on the basis of a Shareholder's Entitlement. Where the number of Shares issued is less than the number applied for, or where no allotment is made, surplus application monies will be refunded without any interest to the applicant as soon as practicable after the Closing Date.

Pending the allotment and issue of the Shares or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

4.8 Overseas Shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Securities these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Securities will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

Shareholders resident in New Zealand should consult their professional advisers as to whether any government or other consents are required, or other formalities need to be observed, to enable them to exercise their Entitlements under the Offer.

4.9 Taxation implications

The Directors do not consider that it is appropriate to give Applicants advice regarding the taxation consequences of applying for Securities under this Prospectus, as it is not possible to provide a comprehensive summary of the possible taxation consequences. The Company, its advisers and officers, do not accept any responsibility or liability for any taxation consequences to Applicants. Potential Applicants should, therefore, consult their own professional tax adviser in connection with the taxation implications of the Securities offered pursuant to this Prospectus.

4.10 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing share certificates. The Company will apply to ASX to participate in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Investors who do not wish to participate through CHES will be issuer sponsored by the Company. Because the sub-registers are electronic, ownership of securities can be transferred without having to rely upon paper documentation.

Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Shares allotted to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

4.11 Privacy

If you complete an application for Shares, you will be providing personal information to the Company (directly or by the Company's share registry). The Company collects, holds and will use that information to assess your application, service your needs as a Shareholder, facilitate distribution payments and corporate communications to you as a Shareholder and carry out administration.

The information may also be used from time to time and disclosed to persons inspecting the register, bidders for your securities in the context of takeovers, regulatory bodies, including the Australian Taxation Office, authorised securities brokers, print service providers, mail houses and the Company's share registry.

You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules. You should note that if you do not provide the information required on the application for Shares, the Company may not be able to accept or process your application.

6. RIGHTS AND LIABILITIES ATTACHING TO THE SHARES

6.1 Terms of Shares

The following is a summary of the more significant rights and liabilities attaching to Shares to be issued pursuant to this Prospectus. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights and liabilities attaching to Shares are set out in the Company's Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

6.1.1 General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution of the Company.

6.1.2 Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for each Share held, but in respect of partly paid shares shall have a fraction of a vote equivalent to the proportion which the amount paid up bears to the total issue price for the share.

6.1.3 Dividend rights

The Directors may from time to time declare and pay or credit a dividend in accordance with the Corporations Act. Subject to any special right as to dividends attaching to a share, all dividends will be declared and paid according to the proportion which the amount paid on the Share is to the total amount payable in respect of the Shares (but any amount paid during the period in respect of which a dividend is declared only entitles the Shareholder to an apportioned amount of that dividend as from the date of payment). The Directors may from time to time pay or credit to the Shareholders such interim dividends as they may determine. No dividends shall be payable except out of profits. A determination by the Directors as to the profits of the Company shall be conclusive. No dividend shall carry interest as against the Company.

The Directors may from time to time grant to Shareholders or any class of shareholders the right to elect to reinvest cash dividends paid by the Company by subscribing for Shares in the Company on such terms and conditions as the Directors think fit. The Directors may, at their discretion, resolve in respect of any dividend which it is proposed to pay or to declare on any Shares of the Company, that holders of such Shares may elect to forgo their right to the whole or part of the proposed dividend and to receive instead an issue of Shares credited as fully paid to the extent and on the terms and conditions of the Constitution. The Directors may set aside out of the profits of the Company such amounts as they may determine as reserves, to be

applied at the discretion of the Directors, for any purpose for which the profits of the Company may be properly applied.

6.1.4 Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution, divide among the Shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders. The liquidator may, with the authority of a special resolution, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

6.1.5 Transfer of Shares

Generally, Shares in the Company are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act and the Listing Rules.

6.1.6 Future increase in capital

The allotment and issue of any new Shares is under the control of the Directors of the Company. Subject to restrictions on the issue or grant of securities contained in the Listing Rules, the Constitution and the Corporations Act (and without affecting any special right previously conferred on the holder of an existing share or class of shares), the Directors may issue Shares as they shall, in their absolute discretion, determine.

6.1.7 Variation of rights

Under Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

7. RISK FACTORS

Applicants should consider the risk factors described below, together with information contained elsewhere in this Prospectus, before deciding whether to apply for Shares. Potential Applicants should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.1 Operating risks

The current and future operations of the Company, including exploration, appraisal and possible production activities may be affected by a range of factors, including:

- (a) adverse geological conditions;
- (b) limitations on activities due to seasonal weather patterns and cyclone activity;
- (c) unanticipated operational and technical difficulties encountered in geophysical surveys, drilling and production activities;
- (d) mechanical failure of operating plant and equipment;
- (e) industrial and environmental accidents, industrial disputes and other force majeure events;
- (f) unavailability of aircraft or drilling equipment to undertake airborne electromagnetic and other geological and geophysical investigations;
- (g) unexpected shortages or increases in the costs of labour, consumables, spare parts, plant and equipment; and
- (h) inability to obtain necessary consents or approvals.

7.2 Native Title and title risks

Both the *Native Title Act* 1993 (Cth), related State Native Title legislation and Aboriginal Land Rights and Aboriginal Heritage legislation may affect the Company's ability to gain access to prospective exploration areas or obtain production titles.

Compensatory obligations may be necessary in settling Native Title claims if lodged over any tenements acquired by the Company. The existence of outstanding registered Native Title claims means that the grant of a tenement in respect of a particular tenement application may be significantly delayed or thwarted pending resolution of future act procedures in the Native Title Act. The level of impact of these matters will depend, in part, on the location and status of the tenements acquired by the Company. At this stage it is not possible to quantify the impact (if any) which these developments may have on the operations of the Company.

7.3 Environmental risks and regulations

The Company's projects are subject to Commonwealth and State laws and regulations regarding environmental matters and the discharge of hazardous wastes and materials. As with all mining projects, these projects would be expected to have a variety of environmental impacts should development proceed.

The Company intends to conduct its activities in an environmentally responsible manner and in accordance with applicable laws and industry standards. Areas disturbed by the Company's activities will be rehabilitated as required by the conditions attaching to the Tenements.

7.4 Economic risks

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and future production activities, as well as on its ability to fund those activities.

7.5 Market conditions

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities and in particular, resources stocks. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

7.6 Security investments

Applicants should be aware that there are risks associated with any securities investment. Securities listed on the stock market, and in particular securities of mining and exploration companies have experienced extreme price and volume fluctuations that have often been unrelated to the operating performances of such companies. These factors may materially affect the market price of the securities regardless of the Company's performance.

Exploration in itself is a speculative endeavour, while mining operations can be hampered by force majeure circumstances and cost overruns for unforeseen events.

7.7 Legislative changes, Government policy and approvals

Changes in government regulations and policies may adversely affect the financial performance of the Company. For example, any increased rentals under the Mining Act may impact on the Company's actual financial statements. The Company's capacity to explore and mine, in particular the Company's ability to explore and mine any reserves, may be affected by changes in government policy, which are beyond the control of the Company.

7.8 Future capital requirements

The Company's ongoing activities will require substantial expenditures. There can be no guarantee that the funds raised through the Offer will be sufficient to successfully achieve all the objectives of the Company's overall business strategy. If the Company is unable to continue to use debt or equity to fund expansion after the substantial exhaustion of the net proceeds of the Offer, there can be no assurances that the Company will have sufficient capital resources for that purpose, or other purposes, or that it will be able to obtain additional fundraising on terms acceptable to the Company or at all. Any additional equity financing may be dilutive to shareholders and any debt financing if available may involve restrictive covenants, which may limit the Company's operations and business strategy.

The Company's failure to raise capital if and when needed could delay or suspend the Company's business strategy and could have a material adverse effect on the Company's activities.

7.9 Reliance on key personnel and employees

The Company's prospects depend in part on the ability of its executive officers, senior management and key consultants to operate effectively, both independently and as a group. To manage its growth, the Company must attract and retain additional highly qualified management, technical, sales and marketing personnel and continue to implement and improve operational, financial and management information systems. Investors must be willing to rely to a significant extent on management's discretion and judgement, as well as the expertise and competence of outside contractors.

In addition, Western Australia is currently experiencing a shortage of skilled labour including those skills utilised in the mining industry. The Company cannot guarantee that its mining and exploration activities will not be negatively affected by an inability to employ appropriately skilled staff.

7.10 General risks

The value of the Company's Securities are affected by a number of general factors which are beyond the control of the Company and its Directors.

Factors such as inflation, currency fluctuation, interest rates, supply and demand and industrial disruption have an impact on operating costs, commodity prices, local and international economic conditions and general investor sentiment.

The Company's share price can be afflicted by these factors which are beyond the control of the Directors.

7.11 Contractors and service providers

The Directors are unable to predict the risk of financial failure, default, insolvency or other managerial failure by any of the contractors used by the Company in any of its activities, or insolvency or other managerial failure by any of the other service providers used by the Company for any activity.

7.12 Strategic alliances

The Company may in the future seek to enter into strategic alliances with other parties, some of which may be corporations much larger than the Company. There is a risk in managing strategic alliances and partnerships with large corporations.

Should other participants in any strategic alliance not act in the best interests of the Company, this may have a material adverse effect on the Company's operations.

The Directors are unable to predict the risk of financial failure or default by a participant in any strategic alliance to which the Company may become a party.
