Dear Sirs

Appointment of a Project Manager, Skaergaard, Greenland

The Company is pleased to announce the appointment of Dr Karen Hanghøj to the position of Project Manager, Skaergaard effective full time from 1 November 2007.

Dr Hanghøj has extensive experience in Greenland and direct working knowledge of the Company's Skaergaard gold and platinum group metals (pgm) project through her previous contract positions with Galahad Gold Plc and Platinova Resources Ltd. Currently, Dr. Hanghøj is an Associate Research Scientist with the Lamont Doherty Earth Observatory at Columbia University.

Dr Hanghøj has over ten season's field experience in Greenland and has completed comprehensive laboratory work at University of Copenhagen, Stanford University, University of Lund, Sweden and WHOI/Marine Biological Laboratories, Woods Hole. She has also contributed to over thirty scientific abstracts and publications, many relating to pgm's.

Executive Chairman of Platina Resources Mr Rob Mosig said today "with Dr Hanghøj's contribution added to the extensive Greenland experience of our Technical Director Dr John Ferguson, the Company now has the necessary team in place to oversee the next exploration and development stages for Skaergaard".

"One of Dr Hanghøj's first undertakings will be to co-ordinate and participate in a field trip to the Skaergaard intrusion, Greenland in August 2007 and to commence organising Platina's 2008 field programme as soon as practicable." he said.

For any further information regarding Dr Hanghøj's appointment or any of the company's projects please contact admin@platinaresources.com.au
