

QUARTERLY ACTIVITIES REPORT FOR THE PERIOD ENDED 31 MARCH 2025

29 April 2025

Peako Limited (ASX: PKO) (**Peako** or **the Company**) is pleased to provide its Quarterly Activities Report for the three months to 31 March 2025.

East Kimberley Tenements

Peako's exploration is currently centered on its ground-holding (**Figure 1**) in the East Kimberley region of Western Australia.

The geological diversity within Peako's tenement package has driven exploration across a wide range of commodities. Primarily, exploration within parts of the Koongie Park Formation has returned demonstrable base (Cu-Pb-Zn) and precious (Ag, Au) metals mineralisation of a volcanogenic massive sulphide (VMS) type, with exploration results within the Eastman Intrusive Complex returning significant PGE (Au-Ni-Cu-Co) mineralisation more akin to Magmatic Ni-Cu (mafic/ultramafic) intrusive systems.

Figure 1. Peako's East Kimberley tenement package

Peako did not complete any field exploration work during the period due to the wet season and not being able to access its tenements during this time. The Company is continuing to assess opportunities to create value across its East Kimberley tenement package.

Corporate

Business Development

Peako continues to review new project opportunities, primarily precious and base metals, both in Australia and overseas, to complement its Eastman Project and to drive value to shareholders. Discussions and due diligence are on-going with several opportunities, but no decisions have been made at this stage.

Capital Raising

On 31 January 2025 the Company issued 392,600,427 fully paid ordinary shares (**Shares**) pursuant to tranche 2 of a capital raising previously announced on 28 November 2024 and following shareholder approval sought at a general meeting of shareholders held on 17 January 2025. The total amount raised from the issue of shares was approximately \$1.18 million. The Company also issued 304,633,537 unlisted options exercisable at \$0.0075 (0.75 cents) on or before 28 February 2025 (**Options**).

Small Shareholder Facility

During the period Peako announced that it had established a small shareholding sale facility for shareholders whose holding of fully paid ordinary shares in the Company has a market value of less than A\$500 at 7.00pm Melbourne time on 24 January 2025.

The Sale Facility allowed shareholders who held less a Small Parcel Holding to sell their Shares cost effectively without incurring brokerage or other transaction costs, while also assisting the Company to reduce the costs associated with servicing smaller shareholdings.

The final number of Shares sold under the Sale Facility was 14,493,734 held by 640 shareholders. The company received 67 valid share retention forms from shareholders, holding 2,504,825 Shares, who chose to retain their Shares. The Shareholders whose Shares were sold through the Sale Facility will receive \$0.0026 per share (in accordance with the Previous Announcement dated 28 January 2025). Payments to Shareholders whose shares were sold under the Sale Facility have been processed. The sale proceeds will be paid in Australian Dollars by direct credit to the relevant recipients.

This announcement is approved by the Board of Peako Limited
