

SHAREHOLDER WEBINAR

Podium Minerals Limited (ASX: POD, 'Podium' or 'the Company') is pleased to announce that it will conduct a shareholder webinar on Tuesday, 2 May 2023 at 10:00am AWST / 12:00pm AEDST.

A webinar will be held on **Tuesday, 2 May 2023** to update shareholders on the Company and its share purchase plan, which opened on Thursday, 13 April 2023.

Following the presentation from Podium's Managing Director and CEO, Sam Rodda, investors will be invited to ask questions within the webinar platform.

Shareholders are invited to join Managing Director, Sam Rodda using the below link for a presentation and Q&A session.

The presentation will cover:

- The value proposition of Podium - why you should participate in the share purchase plan;
- Details of the \$3.0 million share purchase plan; and
- The intended use of funds, focused on key project activities that will drive feasibility studies.

ABOUT PODIUM MINERALS LIMITED

Podium Minerals Limited (ASX: POD) has a vision to be a global preferred supplier of critical minerals that delivers a sustainable future for everyone. The significant scale and grade of the Parks Reef Resource provides Podium with the opportunity to develop an emerging and responsible Australian critical metals mining industry.

The Parks Reef Project is a 15km long 5E Platinum Group Metals (PGM - platinum, palladium, rhodium, iridium and gold) deposit which also contains base metals (copper, nickel and cobalt) mineralisation. The resource commences near surface and has been delineated to continue to a vertical depth of at least 500m. The resource remains open at depth and shows consistency with near surface geology.

The location of Parks Reef in a mining friendly jurisdiction in Western Australia, provides a unique opportunity to secure an alternative and reliable PGM supply to meet the increasing global demand for decarbonisation technologies such as auto catalysts and hydrogen energy/fuel cell catalysts.

A successful and highly motivated technical and development team is accelerating Podium's strategy to prove and develop a high-value, long-life Australian PGM producer.
