Q&A

Australia – drivers of Platform growth

Industry trends favouring emerging platforms

Dominance of institutional incumbents diminishing post Banking Royal Commission.

- Top 7 financial institutions hold 83% market share of platform FUA¹
- Market share losses likely as financial advisers shift to a conflict-free independent model
- In 2019, the Top 7 lost 28% advisers²

A shift of advice from Wraps to Managed Accounts also favouring emerging platforms.

Emerging specialist platform providers' (SPPs) market share predicted to grow from 7% to 12% in 5 years³.

Upgraded to 5th generation platform

Praemium – a compelling offer

Sustainable platform pricing below industry peers:

- Lowest transactional fees⁴
- Best return on cash for investors⁴

Praemium's Integrated Managed Accounts platform now able to address the overall \$887 billion platform market¹

¹ Plan for Life media release, September 2019

² Bell Potter, Australian Super and Adviser Landscape, December 2019

³ UBS Global Research, Australian Diversified Financials, May & Nov 2019

⁴ UBS Global Research, Nov 2019 (comparison to AMP, IFL, CBA, NAB, WBC, MQG, NWL, HUB)

⁵ Citi, Australian Wealth Platforms, Nov 2019 (SPP: Specialist Platform Provider)

PPS bps includes platform revenue + recoveries

VMAAS – a complete administration service

Providing full administration, including:

- Mail processing
- Account reconciliation
- Corporate action elections and processing
- Billing and fee generation
- Quarterly reporting
- Annual tax statements
- Optional year-end SMSF accounting, audit and lodgment

Built on Praemium's unique portfolio capabilities:

- Automatically reconstructs all portfolios' tax position after ATO rulings
- Complex corporate actions with history from 1985, CGT optimisation and tax reporting
- Performance benchmarking supported by an unmatched range of market indices
- Handles the most complex investments including international and stapled securities
- Automates AMIT rules for managed funds
- Broad investment range: all ASX-listed and 5,000 int'l equities, 700 local and int'l bonds, funds, options, fixed interest

Ability to tailor solutions for small to large clients, combined with our fully integrated managed accounts platform

VMAAS FUA now over \$10 billion

International – drivers of Platform growth

UK market structural challenges

Over 70% of platform FUA sits on platforms that don't have their own technology.

Those platforms are underpinned by 3 tech providers (soon to be 2).

Increasing awareness of Praemium

"Praemium has taken giant steps towards more mainstream acceptance. Firms which look closely will find lots to challenge them, some very well-designed kit and a rapidly evolving proposition. Praemium is firmly on our 'one to watch' list for 2020."¹

Major upgrade in Sep 2019

Issues from tech over-concentration:

- Several re-platforming project failures have caused huge disruption
- Could lead to risk-averse behaviour
- And hence, innovation stalemate

Managed Accounts gaining acceptance:

- Advisers are seeking efficiency gains by outsourcing to discretionary fund managers (DFMs)
- However, traditional wrap platform architecture not well suited to real-time portfolio management

Praemium's next-gen platform can better serve the UK advice market:

- *Proprietary tech* leveraging global platform experience
- Praemium named Best Discretionary Platform
- Strong support from DFM firms
- Advanced digital capabilities, including industry-first AI to assist adviser client retention

Poised for growth:

- A 40% increase in the number of DFMs on Praemium's platform in 2019
- Platform upgrade has expanded the available market to include wrap/advisory (non-managed accounts)
- Praemium platform and financial advice software active in UK, UAE, RSA, Singapore and Hong Kong

Key strategic initiatives implemented in 2019

Completed major upgrade:

- Australia live in February
- International live in September

Invested in sales and marketing:

- Marketing campaigns to promote advanced tech
- Engagement with 3rd-party ratings agencies such as Investment Trends, lang cat, Defaqto and Adviser Ratings
- Began plan to double sales FTE

Grew VMA's full admin service (VMAAS) FUA:

- \$387 million by end 2018
- \$10 billion by end 2019

International platform underwent a step change in momentum:

- Gross inflows for 2019 were 81% higher than 2018
- Awarded Schroders' Leading Platform for Discretionary Management and International Adviser's Global Investment Platform of the Year

Will underpin growth in 2020

A bigger business development resource for 2020:

- The expanded Australia sales team is in place
- Recruiting for the UK and in key offshore markets is underway
- Brand awareness activities to continue to raise our profile

Praemium's next-gen digital platform to help drive adviser efficiencies:

- *Insights* AI predictive models to improve client retention
- Fully digital asset transfer capability to accelerate asset transitions
- Digital client acceptance to speed up client on-boarding

Advisers adopting Praemium's next-gen platform to improve the client experience:

- Market-leading reporting
- Real-time portfolio management and auto-rebalancing
- AI *Insights* to improve adviser-client communications and engagement
