

ASX Announcement

21 November 2025

POLARX COMMENCES TRADING ON OTCQB MARKET

PolarX Limited (ASX:PXX) ("the Company") is pleased to announce that it has commenced trading on the OTCQB Market in the United States ("OTCQB") under the ticker "PXXXF".

The secondary listing is part of the Company's strategy to broaden its US investor base and improve access for North American investors to trade the Company's shares. This aligns with the Company's existing US presence, which comprises its Alaska Range Copper Gold Project in Alaska and the Humboldt Range Gold Project in Nevada.

The Company's primary listing will remain the Australian Securities Exchange and it will continue to trade under the existing code PXX. There has been no change to the Company's capital structure in connection with then OTCQB listing.

Authorised for release by the Board.
