2016 Annual General Meeting

13kg of mixed plastic waste — this is how much is used in every Re>Pal™ pallet. That's 13kg of waste that doesn't end up in our oceans and on our beaches.

2016 Annual General Meeting Existing Tabanan Factory

2016 Annual General Meeting New Pasuruan Factory

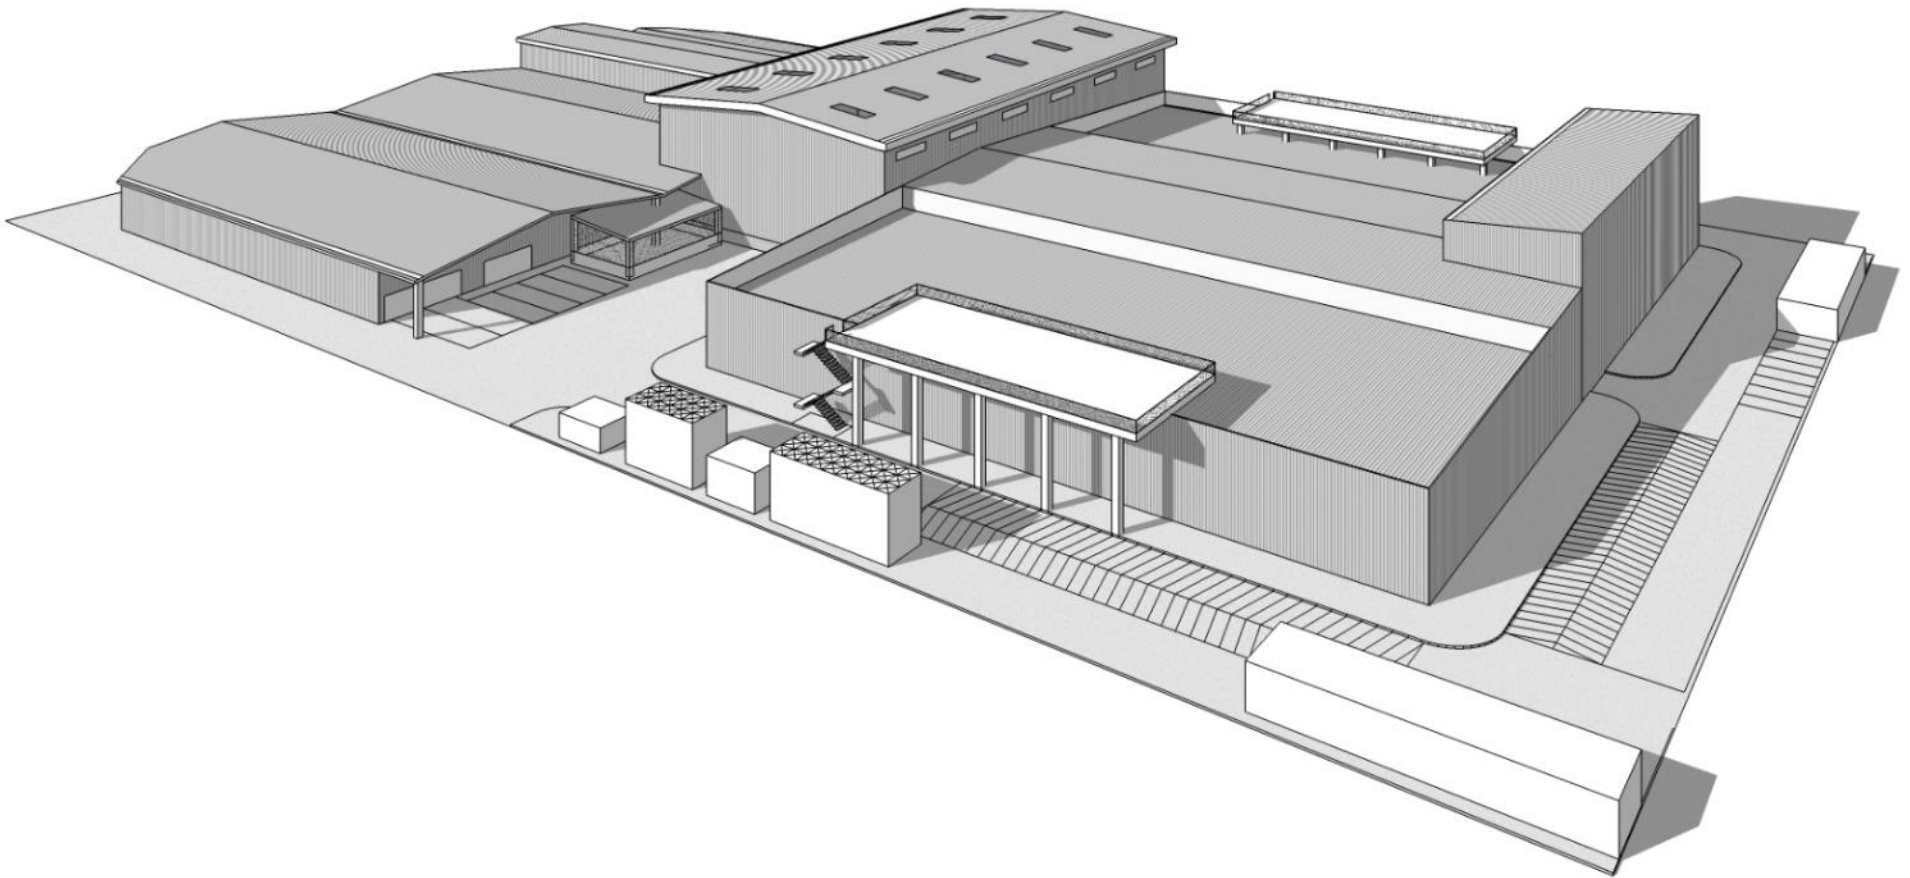

Situated in Pasuruan Industrial Estate Rembang (PIER), Surabaya, in a Bonded Zone.

2016 Annual General Meeting New Pasuruan Factory

2016 Annual General Meeting

New Pasuruan factory following renovations

A close-up, black and white photograph of a computer keyboard. The focus is on the triangular arrow keys. A bright, circular light flare is visible in the upper right corner, creating a soft glow over the keys. The text "Managing Director's Presentation" is overlaid in the center in a white, sans-serif font.

Managing Director's Presentation

Disrupting a major global industry

- Pallets are an integral facilitator of global trade
- Global pallet market estimated to exceed USD\$50 billion in annual sales by 2017 and growing at 5% per annum
- More than 5 billion pallets expected to be produced in 2017
- More than 90% of new pallets are wood
- Asia Pacific is the fastest growing region with forecast annual growth rate of 8.1% (~33% of the global market by 2017)

NEW PLANT IN EAST JAVA

Pasuruan

Located in Pasuruan East Java, in a bonded zone Industrial Estate, 61 km from Surabaya Port.

About 20 km to the existing express toll road to Surabaya, with a toll road extension to Pasuruan under construction.

The three factory buildings have a combined floor area of 10,080 m²

The facility allows for easy truck access along both sides of the buildings, with ample space to unload and load 40' trailers carrying ocean containers.

The lot is elevated 2 meters above the front access road, mitigating flooding risk

Hall 1: 5,544 m², The Main Production Area

Hall 2: 3,240 m², Finished Goods Storage

Hall 3: 1,296 m², Raw Material Storage & Preparation

Market Announcements

East Java Factory site
Acquisition completion

30 Aug 2016

10,000 SqM Factory Buildings, ~19,000 SqM Land Area

Able to accommodate 14 Production Lines, Raw-material Preparation and Finished Goods storage. An excellent match for our needs

Located in Pasuruan Industrial Estate, 61 KM south of Surabaya

Great progress and Critical path in enabling Range to transition to commercial scale production. General renovations in progress, including office premises, partial factory slab work and roof extension, provision of full power and telecommunication

Sales

Positive and encouraging engagement with large scale multinational customers. Now strengthened by our ability to demonstrate the path to large scale operations

Expansion across all major Asian countries, establishing sales forces and legal entities

Significant efforts deployed whilst ramping up production capabilities

Cement products warehouse handling – **Heavy Duty**

Double stacked products
Preparation for export – **Nestables**

Packed Food Products – **Heavy Duty**

Full utilization of export Ocean
Container capacity – **Nestables**

24 MTS of bagged products, ready for truck delivery – **Heavy Duty**

Fast Moving Consumer Goods
Preparation for export – **Nestables**

Expansion of Sales Team

- Expansion across all major Asian countries, establishing sales forces and legal entities
- Key appointments in South East Asia, China and the United Arab Emirates

Key inputs

- Key production input: waste plastic
 - Currently sourced through delivery by local contractors
 - Several international companies have approached Range searching for waste plastic disposal solutions
 - High likelihood that Range will engage with some of these companies to diversify its waste plastic supply
- Other key inputs: labour and power
 - Priced very competitively in Indonesia, especially in comparison to developed economies
 - Reliable access to labour and power a key criteria in Range's decision to expand into East Java

2016 Annual General Meeting

Formal Business

Item 1 – Re-election of Mark Daniel as a director

To consider, and if thought fit, to pass the following resolution as an ordinary resolution:

“That Mr Mark Daniel who retires by rotation in accordance with the Constitution of the Company and who, being eligible, offers himself for re-election, is re-elected as a Director of the Company.”
