

ASX Announcement
(ASX:RAN)

14 August 2017

24,000 pallets ordered

Range International Limited ('Range International' or 'Company'), manufacturer of Re>Pal™ recycled plastic pallets, is pleased to advise that we have received a large order from China for 24,000 pallets. This is a testament to our ability to produce our Re-Pal™ pallets in high volume to meet customers' needs.

The customer has confirmed a recurring monthly order of at least 11,000 of our NP (Nestable Pallet) which is a strong endorsement of our ability to compete with wooden pallets on superior durability, functionality and price across different markets.

Our sales team is focused on developing high volume, recurring customers as our production ramps up.

Mark Daniel
Chairman/Interim CEO

About Range International:

Range is a manufacturer of plastic pallets. Our ThermoFusion™ technology allows Range to make plastic pallets from 100% recycled plastic at a price that is competitive with wood pallets. Range currently has production lines operating in Indonesia and sells its pallets under the brand Re>Pal™. Range is scaling up its operations in Indonesia. In the medium term, the Company's goal is to establish a global production footprint and sales distribution network.
