**Independent Directors of realestate.com.au confirm their advice.
REJECT the News Limited offer.**

On 5 September 2005, News Limited declared its unsolicited offer for realestate.com.au unconditional and announced the extension of its offer until 14 October 2005.

Your Independent Directors note that News Limited has not raised its offer price of \$2.00 per share. As previously advised, the Independent Directors of realestate.com.au continue to unanimously recommend that realestate.com.au shareholders REJECT the News Limited offer.

The Target's Statement contains the Independent Directors detailed reasons for recommending rejection of the News Limited offer. The Independent Directors still stand by these reasons which include:

- the Independent Directors believe the News Offer is too low and doesn't reflect fair value;
- Lonergan Edwards & Associates, the Independent Expert, says the offer is neither fair nor reasonable and has valued realestate.com.au at between \$2.48 and \$2.73 per share;
- share market trading since announcement of the News Limited offer also indicates the News Limited offer is too low. The volume weighted average price of realestate.com.au shares traded between announcement of the News Limited offer and 11 August 2005 was \$2.16. On 12 August 2005, the company provided market guidance on FY2005 financial performance and its FY 2006 budget. From the time of provision of that guidance to 5 September 2005, the volume weighted average price has been \$2.40;
- comparison with the prices of similar online companies also indicates the News Limited offer price is too low; and
- realestate.com.au is the clear leader in its market with a strong growth history and potential. Earnings before tax grew 119% in FY2005 and are budgeted to grow 158% in FY2006 (excluding extraordinary items and takeover costs). Management has an excellent track record of delivering on its budgets and PKF, the investigating accountant, has noted that nothing has come to its attention which causes it to believe the FY2006 budget itself is unreasonable.

The Target's Statement, including copies of both the Independent Experts report and the Investigating Accountants report, has been mailed to shareholders on 29 August 2005.
