Financial results overview.

1H26 financial snapshot.

Continued growth in Home Loans reflecting the Group's strategic focus on core capabilities. Controlled growth in Asset Finance to maximise risk adjusted returns.

Decrease in impairment expense reflecting the Group's focus on arrears management and collections as well as provision releases associated with the acquisition discount unwind on the Westpac Auto Portfolio.

Operating profit growth driven by higher loan balances, higher margins and higher fee income.

NPAT improved HoH reflecting improvement in operating profit, despite impairment expenses.

Portfolio margin.

- ✓ **Group margin:** widened 15bps on 1H25 primarily due to shift in portfolio mix as the higher margin Asset Finance portfolio increased in proportion following the acquisition of the Westpac Auto portfolio.
- ✓ **Home Loan margin:** widened 5bps on 1H25 following a pricing campaign in 1H25 to stimulate application volumes and broker engagement. Margin remained broadly flat with 2H25 despite increased settlement volumes.
- ✓ **Asset Finance margin:** compressed 15bps on 1H25 due to the dilutive impact from acquiring the Westpac Auto portfolio. Margin widened 22bps on 2H25 primarily due to the run-off of the Westpac Auto portfolio.

Environmental, social and governance.

As an ASX-listed entity funding Australian communities, Resimac integrates Environmental, Social and Governance (ESG) considerations across all aspects of our business. We recognise that responsible business practices have far-reaching impacts, and our ESG approach is a key consideration for customers, investors, shareholders, employees and suppliers.

Resimac is in the process of implementing FY26 mandatory climate-related financial disclosures under AASB standards, including climate scenario analysis, risk and opportunity review and strengthened governance and data systems to support disclosure quality and consistency.

Our ESG initiatives are overseen by a people-led ESG Committee, with representation from across the business, reinforcing shared ownership and accountability.

The ESG Committee aligns its focus with the United Nations Sustainable Development Goals, concentrating on:

Good Health and Wellbeing

Ensure healthy lives and promote wellbeing for all at all ages.

Quality education

Ensure inclusive and equitable quality education and promote lifelong learning opportunities for all.

Climate action

Take urgent action to combat climate change and its impacts.

Key ESG pillars.

Resimac's overarching Environmental, Social and Governance purpose comprises the following key pillars:

Sustainability

We integrate sustainability considerations across our business, aiming to reduce environmental impact while delivering long-term value for our people, customers, partners, investors and communities.

Community

We actively support our communities through a combination of employee volunteering and financial contributions. Our people regularly volunteer with The Station and provide ongoing support to programs such as Food Ladder, Go Foundation and Sanctuary Housing, creating meaningful and lasting social impact.

Accountability

We are committed to ethical and sustainable business practices, with a focus on continually enhancing governance processes, climate risk oversight and supply chain alignment with our principles.

Environmental.

We are committed to conducting our business in an environmentally responsible manner and to reducing our environmental footprint over time.

Building on earlier initiatives, Resimac has supported large-scale land restoration and biodiversity projects through prior partnerships, including the planting of more than 46,000 trees to support healthier, more resilient ecosystems.

We remain committed to supporting community forestry initiatives that contribute to climate sustainability and positive environmental outcomes.

An RFP process is underway to appoint a suitable tree-planting partner for CY2026.

Social.

Our people are our greatest investment. We prioritise engagement, health, safety and inclusion through our Diversity, Equity and Inclusion (DEI) Committee, which celebrates diverse cultures and perspectives across the organisation.

We are committed to creating a workplace where people are respected and valued.

We invest in human capital through our remuneration framework, DEI policies, workplace health and safety programs, and community initiatives. Our people actively support our communities through volunteering, community funding and customer advocacy, helping deliver meaningful and lasting social impact.

Governance.

Resimac's governance structure incorporates a compliance and risk framework and a three-lines-of-defence model, supporting regulatory adherence and effective risk mitigation to protect our stakeholders, including people, customers and shareholders.

In FY26, governance responsibilities were enhanced to support the implementation of climate-related disclosures under AASB standards, with climate-related risks and reporting overseen through established governance committees and management accountability frameworks.

Our ESG Framework, which details our sustainability objectives and initiatives, is publicly available on our website.

Charitable partnerships aligned with our ESG goals.

Good Health and Wellbeing

Sanctuary Housing: Resimac provides financial and volunteer support to assist women and children escaping domestic violence and homelessness.

The Station: We provide weekly volunteering support to this Sydney-based welfare service, which offers mental health support, meals, laundry, showers and housing assistance.

City 2 Surf: Our teams participate in the annual City2Surf event, raising funds for a charitable partner.

Quality Education

GO Foundation: Resimac supports the Go Foundation in its work to provide scholarships and create pathways to education for Aboriginal and Torres Strait Islander students.

Food Ladder: Resimac funds hydroponic greenhouses in schools through Food Ladder, embedding experiential STEM, agricultural and nutritional education in remote and disadvantaged communities. This program has delivered measurable improvements in student engagement, attendance and foundational skills.

Climate Action

Community forestry initiatives: Resimac has previously supported community forestry initiatives through Carbon Positive. Following the conclusion of that partnership at the end of CY2025, an RFP is underway to appoint a new tree-planting partner for CY2026, reflecting our ongoing commitment to environmental sustainability and ecosystem restoration.

Food Ladder: Through hydroponic greenhouses, Food Ladder reduces reliance on long-distance food supply chains in remote communities, lowers transport emissions and supports climate-resilient local food production.

Forward looking statements in this presentation are based on Resimac's current views and assumptions, and involve known and unknown risks and uncertainties, many of which are beyond Resimac's control and could cause actual results, performance or events to differ materially from those expressed or implied. These forward looking statements are not guarantees or representations of future performance, and should not be relied upon as such.

This presentation has not been subject to auditor review and all dollar values are in Australian dollars (\$AUD), unless otherwise stated.

This presentation should be read in conjunction with all information which Resimac has lodged with the Australian Securities Exchange ('ASX'). Copies of those lodgements are available from either the ASX website asx.com.au or Resimac's website resimac.com.au.

This presentation does not constitute an offer to sell, or a solicitation of an offer to buy, any securities in the United States. Any such securities have not been, and will not be registered under the U.S. Securities Act of 1933 (Securities Act), or the securities laws of any state or other jurisdiction of the United States, and may not be offered or sold, directly or indirectly, in the United States or to, or for the account or benefit of, persons in the United States, unless they have been registered under the Securities Act (which Resimac has no obligation to do or to procure), or are offered and sold in a transaction exempt from, or not subject to, the registration requirements of the Securities Act.
