About Red Mountain Mining Limited

Red Mountain Mining (ASX: RMX) is primarily a gold explorer and project acquisition company which listed on the ASX in September 2011. The Company's strategy is to unlock the potential of 'under-developed' gold and polymetallic projects in the greater Asian region by introducing Australian mining methods and improving efficiencies to gain significant production and exploration upside.

The Company holds direct and indirect interests in tenements in the Philippines that contain significant gold resources and several high-quality copper-gold prospects.

Total Mineral Resources at Batangas at a 0.85 g/t Au lower cut off include Indicated Resources of 2.76 million tonnes @ 2.3 g/t Au, 208,000 oz Au and Inferred Resources of 3.02 million tonnes @ 2.1 g/t Au, 200,000 oz Au for a total of 5.78 million tonnes at 2.2 g/t Au, 408,000oz Au (announced January 30th 2013, 2004 JORC). The Company is focussed on upgrading the Batangas resources through discovery of new, high grade, gold zones at Lobo (e.g. Japanese Tunnel, Pica, West Drift, Ulupong). The Company will continue exploration with the objective of increasing the size and grade of the Mineral Resources at Batangas and complete a scoping study to demonstrate the potential viability of a gold mining and processing project. Other gold opportunities will be reviewed on a continuous basis.

Competent Person Statement

The information in this report relating to Mineral Resources is based on information compiled by Mr Jon Dugdale who is a Fellow of the Australasian Institute of Mining and Metallurgy and has sufficient exploration experience which is relevant to the various styles of mineralisation under consideration to qualify as a Competent Person as defined in the 2004 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Dugdale is a full time employee and Managing Director of Red Mountain Mining Ltd. Mr Dugdale takes responsibility and consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
