

ASX Announcement

2 April 2026

US Agents.....Early Success and more in the Pipeline

The ASX Release yesterday is more accurate than the video link below on the same topic. However, this probably is more entertaining and easier to consume.

Since recording the video, a colleague pointed out that I say there might be \$300m to the bottom line whereas I should have said circa \$300m to Revenue. Either way the prospects for the remainder of CY 26 are exciting.

This release has been authorised by David Williams, Chairman.
