## EASTERN EYRE PROJECT: DEED OF ACCESS GRANTED

### HIGHLIGHTS

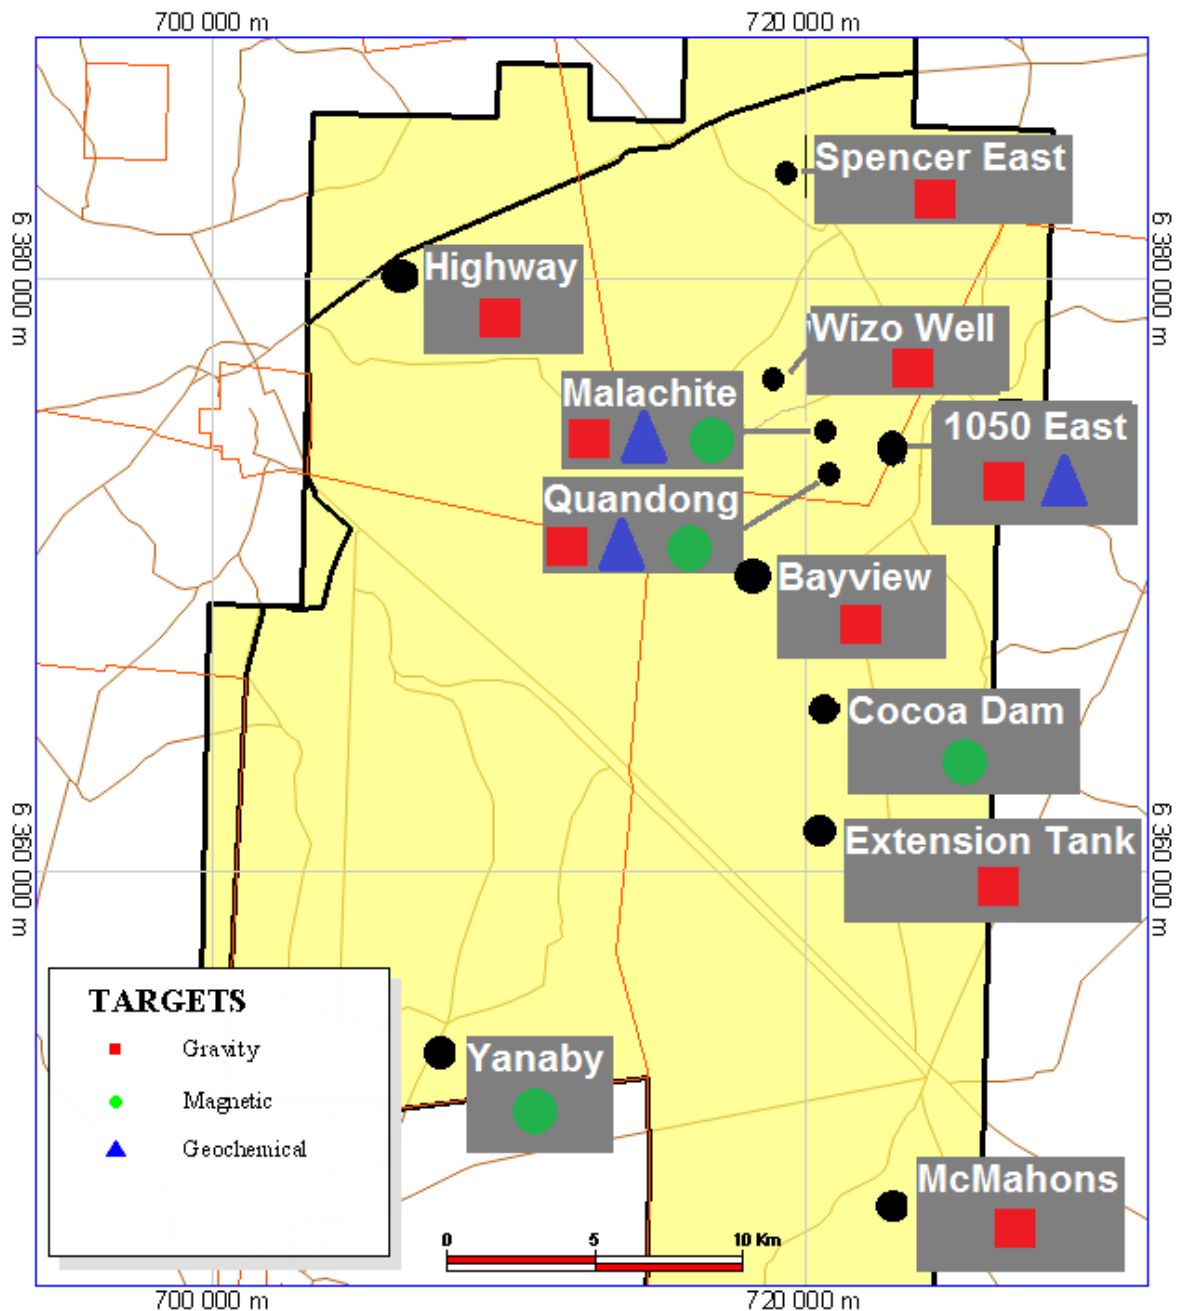

- Deed of Access granted by Department of Defence permitting Renaissance to conduct mineral exploration on EL 5012
- EL 5012 forms part of Renaissance's 100%-owned Eastern Eyre Project, located within the Olympic Dam iron-oxide, copper-gold-uranium (IOCGU) belt, where Renaissance has identified multiple untested targets prospective for large, IOCGU-style mineralisation
- Renaissance to progress immediately with final regulatory approvals with Department of Defence and South Australian mines department in anticipation of commencing drilling early next quarter

**Figure 1. Olympic Dam IOCGU belt, showing location of Renaissance's Eastern Eyre Project in relation to significant mineral deposits**

Renaissance Uranium Limited (ASX: RNU) is pleased to announce the execution of a Deed of Access (Exploration) with the Commonwealth of Australia, represented by the Department of Defence, concerning Exploration Licence (EL) 5012. EL 5012 forms part of Renaissance's 100%-owned Eastern Eyr Project, located within the southern portion of the Olympic Dam IOCGU belt, where Renaissance has identified multiple untested targets prospective for large, IOCGU-style mineralisation. See Figure 2 and Renaissance ASX releases dated 4 March 2013 and 15 January 2013. EL 5012 is situated west of the Department of Defence's Cultana Training Area and forms part of proposed extensions to the training area. As a condition to gaining access to EL 5012 for the purpose of exploration, Renaissance has agreed to conform to the Department of Defence's exploration protocols contained within the Deed of Access. With the deed executed, Renaissance is now proceeding with final regulatory approvals with the Department of Defence and South Australia's Department of Manufacturing, Innovation, Trade, Resources and Energy (DMITRE) in anticipation of commencing drilling early next quarter.
