JUNE 2016 QUARTERLY ACTIVITIES REPORT

HIGHLIGHTS

- With the increasing zinc price, there is increasing interest in the Company's Yukon Base Metal Project that hosts resources of:

12.6Mt at 5.3% zinc and 0.9% lead
- Continued to assess alternatives to advance the Yukon Base Metal Project
- Advanced discussions regarding multiple new business opportunities

During the June 2016 quarter Overland Resources Limited (ASX: OVR; "Overland" and the "Company") continued to assess alternative ways to advance and realise value from the Yukon Base Metal Project, where Measured, Indicated and Inferred Resources currently total 12.6 Mt at 5.3% zinc and 0.9% lead (see Table 1). With the global zinc price steadily increasing, and a positive outlook for this trend to continue, there is increasing interest in this asset.

The Company has also continued to evaluate numerous other business opportunities that provide potential alternatives to more rapidly realise significant returns for shareholders. The Company is advancing discussions regarding several opportunities.

Following Mr David Oestreich's resignation as a non-executive director, Mr Scott Robertson was appointed a non-executive director of the Company.

The Company remains well-funded, with approximately \$660,000 cash at bank at 30 June 2016.

Mike Haynes
Chairman

Table 1. JORC Code 2012 compliant resource estimate for the Yukon Base Metal Project

Deposit	Measured			Indicated			Inferred			Total		
	Tonnes	Zinc (%)	Lead (%)	Tonnes	Zinc (%)	Lead (%)	Tonnes	Zinc (%)	Lead (%)	Tonnes	Zinc (%)	Lead (%)

The information in this report that relates to Exploration Result is based on information compiled by Mr Hugh Alan Bresser who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Hugh Alan Bresser is a Director of Overland Resources Limited, he has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Hugh Alan Bresser consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

The information in this report that relates to Mineral Resources or Ore Reserves is based on information compiled by Mr Peter Ball who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Peter Ball is the Manager of Data Geo. Mr Peter Ball has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves'. Mr Peter Ball consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Caution Regarding Forward Looking Statements

This announcement contains forward looking statements which involve a number of risks and uncertainties. These forward looking statements are expressed in good faith and believed to have a reasonable basis. These statements reflect current expectations, intentions or strategies regarding the future and assumptions based on currently available information. Should one or more risks or uncertainties materialise, or should underlying assumptions prove incorrect, actual results may vary from the expectations, intentions and strategies described in this announcement. The forward looking statements are made as at the date of this announcement and the Company disclaims any intent or obligation to update publicly such forward looking statements, whether as the result of new information, future events or results or otherwise

Previous Reported Results

There is information in this announcement relating to previous Exploration Results. The Company confirms that it is not aware of any new information or data that materially affects the information included in the original market announcement(s), and that all material assumptions and technical parameters have not materially changed. The Company confirms that the form and context in which the Competent Person's findings are presented have not been materially modified from the original market announcement.
