COMPANY ANNOUNCEMENT

07 July 2004

Reward Minerals Ltd advises that it has obtained the services of Gorey and Cole to commence drilling at the Company's Jervois Copper - Base Metals project in the Northern Territory. The programme is expected to commence next week.

The programme will include RC drilling with diamond core tails at the Green Parrot, Marshall-Reward and Bellbird zones of mineralization. Additional RC drill holes will test EM anomalies at Rockface and Bellbird North - areas which have received little attention in the past.

Results will be made available immediately they come to hand.
