NEXTGEO EXPANDS ITS RANGE OF OFFSHORE SERVICES. TRENCHING WORK FOR THE BOURI GAS UTILISATION PROJECT HAS BEEN COMPLETED THROUGH A STRATEGIC PARTNERSHIP

Naples, June 15th, 2026 – Next Geosolutions ("**NextGeo**" or the "**Company**"), one of the leading international players in marine geoscience and offshore construction support services for the energy sector and listed on Euronext Growth Milan market, announces the completion of post-lay trenching work as part of the [Bouri Gas Utilisation Project \(BGUP\)](#).

This initiative marks a further step forward in the Group's development, expanding the range of solutions offered to customers through the integration of trenching services, in line with the growth strategy outlined in recent market announcements.

Within BGUP, operational activities are carried out in support of the installation operations led by Saipem, thanks to the contribution of Rana Subsea and the collaboration, for trenching activities, with Pharos Offshore Group, the supplier of the specialist technologies used. The initiative reflects NextGeo's approach, based on the integration of expertise and strategic industrial partnerships to enhance the value offered across the offshore services chain.

Alessandro Buffa, CEO of Rana Subsea, commented: *"With this initiative, we are reaffirming our ability to meet the highest industry standards in trenching as well – a new service now included in the range of solutions NextGeo offers its clients, including through collaboration with strategic partners. At RANA Subsea, we are particularly proud to contribute, through our engineering and operational expertise, to strengthening the Group's position in highly complex projects."*

This press release is available in the Investor/Financial Press Releases section of the website <https://www.nextgeo.eu/>. Please also note that, for the dissemination of regulated information, the Company uses the eMarket SDIR circuit managed by Teleborsa S.r.l.

ABOUT NEXTGEO GROUP

Next Geosolutions ("NextGeo") is a leading international group providing marine geoscience investigation and offshore infrastructure support services for the energy industry, with a strong focus on renewable energy. Founded in late 2014 and part of the Marnavi Group – the largest Italian shipowner operating globally in the offshore sector – NextGeo offers engineering consulting, high-end survey and turnkey solutions, leveraging deep expertise and operational excellence in the offshore domain. With a modern fleet of DP2-class vessels (owned or operated within the Group) and a multicultural team of over 550 qualified professionals, the Company delivers a broad range of services including geophysical and geotechnical marine surveys, environmental and archaeological investigations, UXO identification and clearance, and integrated offshore construction support. In 2025, NextGeo reported a production value of €267.3 million and a net profit of €49.9 million.
