ONGAVA PROJECT FLY-THROUGH AVAILABLE ON WEBSITE

Sabre Resources has today released a fly-through information video describing current and upcoming work at the Ongava lead-zinc-copper-vanadium project in Namibia.

The video is initially available for download as a low resolution WMV file from Sabre's website (www.sabresources.com). Larger, higher quality files will be available from the website in coming weeks. Should anyone require a higher quality movie in the interim, please contact Sabre to arrange delivery in either electronic form or as a CD.

A screenshot of the Ongava fly-through.

Yours faithfully,

Norman Grafton
Company Secretary
Sabre Resources Ltd

For further information please contact:

Dr Matthew Painter – General Manager, Exploration or
Norman Grafton – Company Secretary

Competent Person Declaration

The information in this report that relates to Exploration Results, Mineral Resources or Ore Reserves is based on information compiled by Dr Matthew Painter of Sabre Resources Ltd, who is a member of The Australasian Institute of Geoscientists. Dr. Painter has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as a Competent Person as defined in the 2004 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resource and Ore Reserves". Dr Painter consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.
