Directors' Report

The Directors present their report together with the financial statements of Santos Finance Ltd (the "Company") for the financial year ended 31 December 2024 and the auditor's report thereon.

1. Directors

The names of the Directors in office at the date of this report are:

Kevin Thomas Gallagher

Vicki McFadden

Appointed 17/10/2024

Keith Spence

Guy Cowan

Resigned 17/10/2024

Unless otherwise stated above, the Directors have held their office at all times since the beginning of the financial year. There were no other persons who acted as directors at any time during the financial year.

2. Principal activities

The principal activity of the Company during the financial year was to provide centralised finance activities for the Santos Limited Group. No significant change in the nature of this activity has occurred during the year.

3. Review and results of operations

During the year, the Company continued to manage external borrowings for the Santos Limited Group and provide funding for the parent entity and its controlled entities. The net profit for the financial year after providing for income tax was \$245,253,133 (2023: \$677,592,844).

4. Significant changes in the state of affairs

There were no significant changes in the state of affairs of the Company during the financial period.

5. Dividends

No dividends have been paid or declared during the financial year and no dividends have been recommended by the Directors.

6. Events subsequent to the reporting date

No matter or circumstance has arisen since 31 December 2024 that has significantly affected, or may significantly affect the Company's operations, the results of those operations, or the Company's state of affairs in future financial years.

7. Likely developments

With respect to likely developments in the operations of the Company in future financial years, it is expected that the Company will continue its principal activity as set out above.

Further information about likely developments in the operations of the Company and the expected results of those operations in future financial years has not been included in this report because disclosure of the information would be likely to result in unreasonable prejudice to the Company.

8. Indemnification

Rule 12 of the Company's Constitution provides that the Company indemnifies each person who is or who has been an "officer" of the Company against any liability to another person (other than the Company or a related body corporate) arising from their position as such officer, unless the liability arises out of conduct involving a lack of good faith. Rule 12 also provides for an indemnity in favour of an officer or auditor (Ernst & Young) in relation to costs incurred in defending proceedings in which judgment is given in their favour or in which they are acquitted or the Court grants relief.

For the purpose of Rule 12, "officer" has the meaning given in Rule 12.1 but limited to such officers appointed from the date that the Company became a subsidiary of Santos Limited.

Directors' Report

The Company purchases Directors' and officers' liability insurance in respect of current and former Directors and other officers of the Company, which insures against certain liabilities (subject to exclusions). Due to confidentiality obligations, we are unable to disclose any further details about the premium or insurance.

9. Rounding

Australian Securities and Investments Commission Corporations (Rounding in Financial/Director's Report) Instrument 2016/191 applies to the Company. Accordingly, amounts have been rounded off to the nearest thousand dollars, unless otherwise indicated.

10. Proceedings on behalf of the Company

There are no current proceedings on behalf of the Company.

11. Environmental regulation

The Company is subject to various environmental regulations under Commonwealth, State and Territory legislation. Application legislation and requisite environmental licenses are specified in the EHS Compliance Database, which forms part of the Santos Limited consolidated Group's overall Environmental Management System. Compliance performance is monitored on a regular basis and in various forms, including environmental audits conducted by regulatory authorities and by the Company, either through internal or external resources.

During the financial year, the Company received no fines in regards to environmental regulations and the Directors are not aware of any significant breaches during the period covered by their report.

12. Auditor's independence declaration

The auditor's independence declaration is set out on page 5 and forms part of the Directors' Report for the financial year ended 31 December 2024.

This Directors report is made out in accordance with a resolution of the Directors.

Auditor's independence declaration to the directors of Santos Finance Ltd

As lead auditor for the audit of the financial report of Santos Finance Ltd for the financial year ended 31 December 2024, I declare to the best of my knowledge and belief, there have been:

- a. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit;
- b. No contraventions of any applicable code of professional conduct in relation to the audit; and
- c. No non-audit services provided that contravene any applicable code of professional conduct in relation to the audit.

Notes to the Financial Statements

for the year ended 31 December 2024

Note 1 Accounting policies

Note 1.1 Corporate information

The financial report ("Financial Report") for Santos Finance Ltd ("the Company") for the year ended 31 December 2024 was authorised for issue in accordance with a resolution of the Directors on 27 March 2025.

Santos Finance Ltd is a company limited by shares, incorporated and domiciled in Australia. The immediate and ultimate parent of the Company is Santos Limited, incorporated in Australia and listed on the Australian Securities Exchange (ASX) and on Papua New Guinea's National Stock Exchange (PNGX).

The Company is a for-profit entity for the purpose of preparing the financial statements.

The Company's registered office is:

Ground Floor Santos Centre,
60 Flinders Street,
Adelaide, SA, 5000

Note 1.2 Material accounting policies

Note 1.2.1 Statement of compliance

The financial report is a general purpose financial report which has been prepared in accordance with the requirements of the *Corporations Act 2001* (Cth), Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board ('AASB'). The financial report complies with Australian Accounting Standards as issued by the Australian Accounting Standards Board and International Financial Reporting Standards ('IFRS') as issued by the International Accounting Standards Board ('IASB').

Note 1.2.2 Basis of preparation

This financial report has been prepared:

- on a historical cost basis, except for derivative financial instruments which are measured at fair value;
- using a presentation currency of United States dollars ("US\$" or "USD"); and
- rounded to the nearest thousand dollars, unless otherwise stated, in accordance with the *ASIC Corporations (Rounding in Financial/Directors' Report) Instrument 2016/191*.

Note 1.2.3 Going concern

Santos Limited and its wholly-owned subsidiaries ("the Santos Group" or "the Group") have planned to fund the ongoing activities of the Company through twelve months from the date of signing the financial statements. Santos Limited has the financial capacity to finance the activities of the Company through existing inter-company loan arrangements if necessary. Accordingly, the Company should be able to pay its debts as and when they fall due in the normal conduct of its business activities.

The financial statements have been prepared on a going concern basis, which contemplates continuity of normal business activities and the realisation of assets and liabilities in the ordinary course of business.

Note 1.2.4 Changes in accounting policies

(a) Changes in accounting policies and disclosures

The Company applied the following amendment to accounting standards applicable for the first time for the financial year beginning 1 January 2024:

- Amendments to AASB 101 – *Classification of Liabilities as Current or Non-current*

These amendments have not had a significant or immediate impact on the Company's annual financial statements

Notes to the Financial Statements

for the year ended 31 December 2024

(b) New standards and interpretations not yet adopted

A number of new standards, amendments to standards and interpretations are effective for annual reporting periods beginning on or after 1 January 2025 and have not been applied in preparing these financial statements. The Company's assessment of the impact of these new standards, amendments to standards and interpretations is set out below.

i) AASB 2024-2 Amendments to AASB 7 and AASB 9 – *Classification and Measurement of Financial Instruments*

Description	The amendments clarify the following: - That a financial liability is derecognised on the 'settlement date', being when the related obligation is discharged, cancelled, expires or the liability otherwise qualifies for derecognition. - How to assess the contractual cash flow characteristics of financial assets that include environmental, social and governance linked features. - The treatment of non-recourse assets and contractually linked instruments. - Requirements for additional disclosures for financial assets and liabilities with contractual terms that reference a contingent event.
Impact on Company financial report	Management has not yet assessed the impact of this amendment on the Company's results or disclosures.
Application of standard	1 January 2026

Several other amendments to standards and interpretations will apply on or after 1 January 2025, and have not yet been applied, however they are not expected to impact the Company's annual financial statements.

(c) Australian sustainability reporting standards

The Australian Accounting Standards Board ("AASB") issued the final Australian Sustainability Reporting Standards ("ASRS") in September 2024, following a consultation period relating to the draft ASRSs (Exposure Draft ED SR1) that ended in March 2024.

The climate-related financial disclosures legislation – Treasury Laws Amendment (Financial Market Infrastructure and Other Measures) Act 2024 received Royal Assent in early September 2024. The Act mandates relevant entities to disclose their climate-related plans, financial risks and opportunities, in accordance with ASRS made by the AASB.

The first ASRS were also issued in September 2024 by the AASB and comprise:

- ASRS 1 *General Requirements for Disclosure of Climate-related Financial*
- ASRS 2 *Climate-related Financial Disclosures*

Per this Act an exemption to this reporting standard is given to subsidiary entities, where their parent entity elects to prepares a publicly disclosed sustainability report for the consolidated group, which includes the operations of the subsidiary entity. As the ultimate parent entity of this Company, Santos Limited, will be applying this standard for the period commencing 1 January 2025, the Company is expecting to apply the relevant exemption.

Notes to the Financial Statements

for the year ended 31 December 2024

Note 1.2.5 Summary of material accounting policies

(a) Foreign currency

Both the functional and presentation currency of the Company is United States Dollars.

Transactions and balances

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rate ruling at the date of the transactions. Monetary assets and liabilities denominated in foreign currencies are retranslated at the foreign exchange rate ruling at the reporting date. Foreign exchange gains and losses are presented in the income statement on a net basis within other income or other expenses.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

(b) Financial instruments

Derivative financial instruments

The Company uses derivative financial instruments to hedge its exposure to changes in foreign exchange rates, commodity prices and interest rates arising in the normal course of business. The principal derivatives that may be used are forward foreign exchange contracts, foreign currency swaps, interest rate swaps and crude oil price swap and option contracts. Their use is subject to a comprehensive set of policies, procedures and limits approved by the Board of Directors. The Company does not trade in derivative financial instruments for speculative purposes.

Derivative financial instruments are recognised initially at fair value. Subsequent to initial recognition, derivative financial instruments are stated at fair value. Where derivatives qualify for hedge accounting, recognition of any resultant gain or loss depends on the nature of the item being hedged; otherwise the gain or loss on re-measurement to fair value is recognised immediately in the income statement.

Embedded derivatives

Derivatives embedded in other financial instruments or other host contracts are treated as separate derivatives when their risks and characteristics are not closely related to those of the host contract and the host contracts are not measured at fair value with changes in fair value recognised in the income statement. Derivatives embedded in contracts where the host is a financial asset in the scope of the standard are never bifurcated. Instead the hybrid financial instrument as a whole is assessed for classification.

(c) Hedging

The Company's accounting policy for fair value and cash flow hedges are as follows:

Notes to the Financial Statements

for the year ended 31 December 2024

Types of hedges	Fair value hedges	Cash flow hedges
What is it?	A derivative or financial instrument designated as hedging the change in fair value of a recognised asset or liability.	A derivative or financial instrument designated to hedge the exposure to variability in cash flows attributable to a particular risk associated with an asset, liability or forecast transaction.
Recognition date	At the date the instrument is designated as a hedging instrument.	At the date the instrument is designated as a hedging instrument.
Measurement	Measured at fair value.	Measured at fair value.
Changes in fair value	The gains or losses on both the derivative or financial instrument and hedged asset or liability attributable to the hedged risk are recognised in the income statement immediately. The gain or loss relating to the effective portion of interest rate swaps hedging fixed-rate borrowings is recognised in the income statement within finance costs, together with the loss or gain in the fair value of the hedged fixed-rate borrowings attributable to interest rate risk. The gain or loss relating to the ineffective portion is recognised in the income statement within other income or other expenses. If the hedge no longer meets the criteria for hedge accounting, the adjustment to the carrying amount of a hedged item, for which the effective interest method is used, is amortised to the income statement over the period to maturity using a recalculated effective interest rate. Movements in fair value of liabilities designated at fair value through profit or loss ("FVTPL") due to changes in the Company's own credit risk are recorded in the own credit reserve through OCI and do not get recycled to the income statement.	Changes in the fair value of derivatives designated as cash flow hedges are recognised directly in other comprehensive income and accumulated in equity in the hedging reserve to the extent that the hedge is effective. Ineffectiveness is recognised on a cash flow hedge where the cumulative change in the designated component value of the hedging instrument exceeds on an absolute basis the change in value of the hedged item attributable to the hedged risk. In hedges of foreign currency purchases this may arise if the timing of the transaction changes from what was originally estimated. To the extent that the hedge is ineffective, changes in fair value are recognised immediately in the income statement within other income or other expenses. Amounts accumulated in equity are transferred to the income statement or the Statement of Financial Position, for a non-financial asset, at the same time as the hedged item is recognised. When a hedging instrument expires or is sold, terminated or exercised, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the underlying forecast transaction occurs. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately transferred to the income statement.

Hedge effectiveness is determined at the inception of the hedge relationship, and through periodic prospective effectiveness assessments to ensure that an economic relationship exists between the hedged item and hedging instrument. The Company enters into hedge relationships where the critical terms of the hedging instrument match exactly with the terms of the hedged item, and so a qualitative assessment of effectiveness is performed. If changes in circumstances affect the terms of the hedged item such that the critical terms no longer match exactly with the critical terms of the hedging instrument, the Company uses the hypothetical derivative method to assess effectiveness.

Hedge of monetary assets and liabilities

When a derivative financial instrument is used to hedge economically the foreign exchange exposure of a recognised monetary asset or liability, hedge accounting is not applied and any gain or loss on the hedging instrument is recognised in the income statement.

Notes to the Financial Statements

for the year ended 31 December 2024

(d) Receivables

Receivables are initially recognised at fair value. Subsequent measurement is determined through consideration of the business model for managing the receivable and its contractual cash flow characteristics. Receivables are subsequently measured at amortised cost if they are held within a business model where the objective is to collect contractual cashflows which are solely payments of principal and interest ("SPPI").

Other financial assets, being intercompany receivables, are classified as amortised cost and are assessed for impairment at each reporting date using the expected credit loss model as prescribed by AASB 9. The Company initially assesses the receivables using the 12-month expected credit loss model, however when certain criteria are met, the Company assesses the receivables under the lifetime expected credit loss model.

The expected credit loss impairment model reflects the present value of all cash shortfalls related to default events either:

- over the following twelve months; or
- over the expected life of a receivable depending on credit deterioration from inception.

The carrying amount of the receivable is reduced through the use of an allowance account. Changes in the allowance account are recognised in the income statement.

The impairment model measures credit loss allowances using a three-stage approach based on the extent of credit deterioration since origination:

- Stage 1 - Where there has not been a significant increase in credit risk ("SIR") since initial recognition of a receivable, an amount equal to 12 months expected credit loss is recorded.
- Stage 2 - When a financial asset experiences a SIR subsequent to origination but is not considered to be in default, it is included in Stage 2. This requires the computation of expected credit loss based on the probability of default over the remaining estimated life of the financial asset.
- Stage 3 - Financial assets that are considered to be in default are included in this stage. Similar to Stage 2, the allowance for credit losses captures the lifetime expected credit losses.

(e) Cash and cash equivalents

Cash and cash equivalents comprise cash balances and short-term deposits that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and generally have an original maturity of three months or less.

(f) Impairment

The carrying amounts of the Company's non-financial assets, other than deferred tax assets, are reviewed at each reporting date to determine whether there is any indication of impairment. Where an indicator of impairment exists, a formal estimate of the recoverable amount is made.

An impairment loss is recognised in the income statement whenever the carrying amount of an asset exceeds its recoverable amount.

Calculation of recoverable amount

The recoverable amount of an asset is the greater of its fair value less costs to sell and its value in use. In assessing value in use, an asset's estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where an asset does not generate cash flows that are largely independent from other assets or groups of assets, the recoverable amount is determined for the cash-generating unit to which the asset belongs.

Reversals of impairment

An impairment loss is reversed if there has been an increase in the estimated recoverable amount of a previously impaired asset. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined if no impairment loss had been recognised.

Notes to the Financial Statements

for the year ended 31 December 2024

(g) Interest-bearing loans and borrowings

Interest-bearing borrowings are recognised initially at fair value, net of transaction costs incurred. Subsequent to initial recognition, interest-bearing borrowings are stated at amortised cost with any difference between cost and redemption value being recognised in the income statement over the period of the borrowings on an effective interest basis.

Fixed rate notes that are hedged by an interest rate swap are recognised at fair value.

(h) Trade and other payables

Trade and other payables are recognised when the related goods or services are received, at the amount of cash or cash equivalent that will be required to discharge the obligation, gross of any settlement discount offered. Trade payables are non-interest bearing and are settled on normal terms and conditions.

(i) Share capital

Ordinary share capital

Ordinary share capital is classified as equity.

Dividends

Dividends are recognised as a liability at the time the Directors resolve to pay or declare the dividend.

Transaction costs

Transaction costs of an equity transaction are accounted for as a deduction from equity, net of any related income tax benefit.

(j) Interest income

Interest income is recognised in the income statement as it accrues, using the effective interest rate method.

(k) Finance costs

Finance costs comprise interest paid or payable on borrowings calculated using the effective interest rate method. Finance costs are recognised in the income statement in the period in which they are incurred.

(l) Goods and Services Tax (GST)

Revenues, expenses and assets are recognised net of the amount of goods and services tax ("GST"), except where the amount of GST incurred is not recoverable from the Australian Taxation Office ("ATO"). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of the expense.

Receivables and payables are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the ATO is included as a current asset or liability in the Statement of Financial Position.

The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

(m) Taxation

Income tax

Income tax on the profit or loss for the year comprises current and deferred tax. Income tax is recognised in the income statement except to the extent that it relates to items recognised directly in equity, in which case it is recognised in equity.

Current tax is the amount of income tax payable on the taxable profit or loss for the year, using tax rates enacted or substantively enacted at the reporting date, and any adjustment to tax payable in respect of previous years.

Notes to the Financial Statements

for the year ended 31 December 2024

Deferred tax is recognised in respect of temporary differences between the carrying amount of assets and liabilities for financial reporting purposes and the appropriate tax bases. The following temporary differences are not provided for: the initial recognition of assets or liabilities that affect neither, accounting nor taxable profit, and differences relating to investments in subsidiaries to the extent it is probable that they will not reverse in the foreseeable future. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the reporting date.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Santos Limited is the head entity in the tax-consolidated group, under Australian taxation law, of which Santos Finance Ltd is a member. Current tax expense/income, deferred tax liabilities, and deferred tax assets arising from temporary differences of the members of the tax-consolidated group are allocated among the members of the tax-consolidated group using a "stand-alone taxpayer" approach in accordance with Interpretation 1052 Tax Consolidation Accounting and are recognised in the separate financial statements of each entity. Current tax liabilities and assets and deferred tax assets arising from unused tax losses and tax credits of the members of the tax-consolidated group are recognised by Santos Limited (as head entity in the tax-consolidated group).

Santos Limited and the other entities in the tax-consolidated group have entered into a tax funding agreement. Tax contribution amounts payable under the tax funding agreement are recognised as payable or receivable from Santos Limited and each member of the tax-consolidated group. Where the tax contribution amount recognised by each member of the tax-consolidated group for a particular period under the tax funding agreement is different to the aggregate of the current tax liability or asset and any deferred tax asset arising from unused tax losses and tax credits in respect of that period assumed by Santos Limited, the difference is recognised as a contribution to (or distribution from) Santos Limited.

Santos Limited and the other entities in the tax-consolidated group have also entered into a tax sharing agreement pursuant to which the other entities may be required to contribute to the tax liabilities of Santos Limited in the event of default by Santos Limited or upon leaving the tax-consolidated group.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current income tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

International Tax Reform – Pillar Two Model Rules

The Organisation for Economic Co-operation and Development ("OECD")/G20 Inclusive Framework on Base Erosion and Profit Shifting ("BEPS") published the Pillar Two model rules to address the tax challenges arising from the digitalisation of the global economy in December 2021. Specifically, the BEPS Pillar Two model rules are designed to ensure large multinational enterprises pay a minimum level of tax on the income arising in each of the jurisdictions in which they operate, imposing an additional tax on profits where the effective tax rate in that jurisdiction falls below the minimum rate of 15 per cent.

The ultimate parent of the Company, Santos Limited ("the Group"), as a large multinational enterprise, is subject to the BEPS Pillar Two model rules globally from 1 January 2024 after the enactment of legislation to give effect to the model rules in Australia in December 2024.

Based on current information available, the Group does not expect the application of the rules to have a material current tax impact on the Group's financial position.

The Group has applied the temporary mandatory relief under AASB 2023-2 from deferred tax accounting for the impacts of the additional tax at 31 December 2024.

Notes to the Financial Statements

for the year ended 31 December 2024

Note 1.2.6 Critical accounting estimates & judgements

Significant accounting judgements, estimates and assumptions

The carrying amounts of certain assets and liabilities are often determined based on management's judgement regarding estimates and assumptions of future events. The reasonableness of estimates and underlying assumptions is reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods. The key judgements, estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amount of certain assets and liabilities within the next annual reporting period are:

Impairment of receivables from related entities

The Company assesses whether receivables from related entities are impaired on an annual basis. This requires an estimation of the expected credit loss impairment using a model that reflects the present value of all cash shortfalls related to default events either (i) over the following twelve months or (ii) over the expected life of a receivable depending on credit deterioration from inception. The carrying amount of the receivables from related entities is disclosed in note 15.

Financial reporting impacts of climate change and sustainability matters

In preparing the Financial Report, management has considered the impact of climate change and current climate-related legislation.

Geo-political factors and the energy transition is expected to bring volatility in commodity prices. This may result in scenarios of lower prices through demand destruction and, conversely, structurally higher commodity prices through demand and supply dynamics. In accordance with IFRS, the Company's financial statements are based on reasonable and supportable assumptions that represents the Company's current best estimate of the range of economic conditions that may exist in the foreseeable future. The Company's has considered the Australian Government's emissions reduction target and the amendments to the Safeguard Mechanism.

The potential impacts of climate change and sustainability-related matters have been considered in the significant judgements and key estimates in areas in the Financial Report, including:

- asset carrying values (exploration and evaluation assets, oil and gas assets) through determination of valuations considered for impairment and consideration of asset useful lives
- restoration obligations, including the timing of such activities
- deferred taxes, primarily related to asset carrying values and restoration obligations.

The Company continues to monitor climate-related policy and its impact on Financial Report.

Notes to the Financial Statements

for the year ended 31 December 2024

Note 2 Segment information

The Company is a wholly-owned subsidiary of Santos Limited. The sole business of the Company is to raise debt to fund Santos Limited and its consolidated entities (the "Santos Limited Group") to fund their investment programs and to manage cash generated from the Santos Limited Group operations.

During the year interest income of \$1,167,337,000 (2023: \$1,324,842,000) was generated from one major related party customer, Santos Limited and its controlled entities. The Company's interest revenue is generated solely from loans receivable and cash balances originated within Australia.

The calculation of the Company's tax charge involves a degree of estimation and judgement in respect of certain items for which the ultimate tax determination is uncertain.

The Company recognises deferred tax assets only to the extent that it is probable that future taxable profits will be available against which the asset can be utilised within the tax consolidated group, based on the forecast of future taxable profits in the group. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

Note 10 Loans and borrowings

This note provides information about the contractual terms of the Company's interest-bearing loans and borrowings.

	Dec 2024	Dec 2023
	\$'000	\$'000
Non-current		
Loans payable to related entities	7,830,391	5,723,546
Bank loans - unsecured	1,585,000	450,000
Long-term notes	3,232,197	3,228,393
Total non-current	12,647,588	9,401,939

The Company's weighted average interest rate on interest-bearing liabilities was 6.57% as at 31 December 2024 (2023: 5.43%)

All interest-bearing loans and borrowings are unsecured and guaranteed by Santos Limited.

Details of major credit facilities

(a) Bank loans - unsecured

Syndicated and bilateral bank loans

		Dec 2024	Dec 2023	Dec 2024	Dec 2023
	Currency	Effective interest rate	Effective interest rate	\$'000	\$'000
Years at maturity					
Various - 2025 to 2030	USD	6.21%	6.99%	1,585,000	450,000

Syndicated and bilateral bank loans bear a floating interest rate Term bank loans bear interest at the relevant interbank reference rate plus a margin. The principal outstanding at 31 December 2024 is \$1,585,000,000 (2023: \$450,000,000). The facility limit is \$4,165,000,000 (2023: \$3,065,000,000).

(b) Long-term notes

Regulation-S Bonds

The Company has the following notes on issue:

		Dec 2024	Dec 2023	Dec 2024	Dec 2023
	Currency	Effective interest rate	Effective interest rate	\$'000	\$'000
Year of maturity					
2027 and 2029	USD	4.74%	4.74%	1,393,837	1,388,942

Both bonds bear a fixed interest rate. The principal outstanding at 31 December 2024 is \$1,400,000,000 (2023: \$1,400,000,000).

Notes to the Financial Statements

for the year ended 31 December 2024

Rule 144A/Regulation-S bond

The Company has the following notes on issue:

Year of maturity	Currency	Dec 2024	Dec 2023	Dec 2024	Dec 2023
		Effective interest rate	Effective interest rate	\$'000	\$'000
2031 and 2033	USD	5.20%	5.20%	1,838,360	1,839,451

The bonds bear a fixed interest rate. The principal outstanding at 31 December 2024 is \$1,850,000,000 (2023: \$1,850,000,000).

Note 11 Issued capital and reserves

Issued capital

	Dec 2024	Dec 2023	Dec 2024	Dec 2023
	Number of shares	Number of shares	\$'000	\$'000
Issued capital balance	2,334,470,555	2,334,470,555	1,951,510	1,951,510

As at 31 December 2024, Santos Finance Limited had 2,334,470,555 fully paid ordinary shares on issue (2023: 2,334,470,555).

The issued shares do not have a par value and there is no limit on the authorised share capital of the Company. During the year no shares were issued (2023: Nil).

Capital risk management

The Company's objectives when managing capital are to safeguard its ability to continue as a going concern allowing returns to shareholders and benefits for other stakeholders to be maintained and to retain an efficient capital structure. In order to optimise the capital structure, the Company may adjust dividend distribution policy, draw or repay debt or undertake other corporate initiatives consistent with its strategic objectives.

The Company aims to minimise the weighted average cost of capital whilst retaining appropriate financial flexibility and ensure ongoing access to a range of debt and equity markets in order to meet the Santos Ltd Group objectives.

Nature and purpose of reserves

Hedging reserve

The hedging reserve comprises the effective portion of the cumulative net change in the fair value of cash flow hedging instruments related to hedged transactions that have not yet occurred.

Own credit risk reserve

The own credit risk revaluation reserve comprises the cumulative changes in the fair value of the financial liabilities designated as part of a fair value hedge relationship which is attributable to changes in the Company's own credit risk.

Other reserves

Other reserves represent capital distributions arising from the difference between the fair value of non-interest bearing intercompany loans with Santos Ltd Group subsidiaries and the principal amount of those loans.

Notes to the Financial Statements

for the year ended 31 December 2024

Note 12 Dividends

No dividends have been paid or declared during the financial year and no dividends have been proposed or declared by the Directors after the reporting date.

Note 13 Financial risk management

Exposure to foreign currency risk, interest rate risk, commodity price risk, credit risk, and liquidity risk arises in the normal course of the Company's and the Santos Limited Group's business. The Company's overall financial risk management strategy is to seek to ensure that the Company is able to fund its corporate objectives and meet its obligations to stakeholders. Derivative financial instruments may be used to hedge exposure to fluctuations in foreign exchange rates, interest rates and commodity prices.

The Company uses various methods to measure the types of financial risk to which it is exposed. These methods include sensitivity analysis in the case of foreign exchange, interest rate and commodity price risk, and ageing and credit rating concentration analysis for credit risk.

Financial risk management is carried out by a central treasury department ("Treasury") which operates under the Santos Ltd Board-approved policies. The policies govern the framework and principles for overall-risk management for the Santos Ltd Group and covers specific financial risks, such as foreign exchange risk, interest rate risk and credit risk, approved derivative and non-derivative financial instruments, and liquidity management.

(a) Foreign currency risk

Foreign exchange risk arises from commercial transactions and valuations in assets and liabilities that are denominated in a currency that is not the entity's functional currency.

The Company is exposed to foreign currency risk principally through foreign currency borrowings. In order to economically hedge foreign currency risk, the Company from time to time may enter into forward foreign exchange, foreign currency swap and foreign currency option contracts. Forward exchange contracts in place as of 31 December were procured to hedge the foreign currency capital and operating expenditure for the Santos Ltd Group.

At 31 December 2024, the Group had open forward foreign exchange contracts to buy A\$1.8 billion and sell US\$ (2023: A\$1.3 billion). These contracts had been designated in cash flow hedge relationships.

Sensitivity to foreign currency movement

Based on the Company's net financial assets and liabilities at 31 December 2024, the estimated impact of a ± 15 cent movement in the Australian dollar exchange rate (2023: ± 15 cent) against the US dollar, with all other variables held constant is \$158,981,337 (2023: \$139,522,084) on post-tax profit.

(b) Market risk

Interest rate risk

The Company's interest rate risk arises from its loans and borrowings and cash held. Loans and borrowings issued at variable rates expose the Company to cash flow interest rate risk. Loans and borrowings issued at fixed rates expose the Company to fair value interest rate risk.

The Company has adopted the Santos Ltd Group policy of maintaining an appropriate mix between fixed and floating rate borrowings and by the use of interest rate swap contracts. Hedging is evaluated regularly to align with the Group policy, interest rate outlook and risk appetite, ensuring the most cost-effective hedging strategies are applied.

Sensitivity to interest rate movement

Based on the net debt position as at 31 December 2024, it is estimated that if the US secured overnight financing rate ("SOFR") changed by $\pm 0.50\%$ (2023: $\pm 0.50\%$), with all other variables held constant, the impact on post tax profit is \$26,054,182 (2023: \$19,962,413).

Notes to the Financial Statements

for the year ended 31 December 2024

This assumes that the change in interest rates is effective from the beginning of the financial year and the net debt position and fixed/floating mix is constant over the year. However, interest rates and the debt profile of the Company are unlikely to remain constant and therefore the above sensitivity analysis will be subject to change.

Commodity price risk exposure

The Santos Ltd Group is exposed to commodity price fluctuations through the sale of petroleum products and other oil price-linked contracts. The Company may enter into Brent crude oil price swap and option contracts to manage the Santos Ltd Group's commodity price risk. Hedging is evaluated regularly to align with the Santos Ltd Group's policy, pricing outlook and risk appetite, ensuring the most cost-effective hedging strategies are applied. As at 31 December 2024, the Company had nil barrels of open Brent crude oil price zero cost collar option contracts (2023: 18 million barrels).

(c) Credit risk

Credit risk represents the potential financial loss if counterparties fail to complete their obligations under financial instrument or customer contracts. The Company employs credit policies which include monitoring exposure to credit risk on an ongoing basis through management of concentration risk and ageing analysis. Management follows Board-approved credit policies and the exposure to credit risk is monitored on an ongoing basis.

The Company considers the probability of default upon initial recognition of the asset and whether there has been a significant depreciation in credit quality on an ongoing basis throughout each reporting period. A significant decrease in credit quality is defined as a debtor being greater than 30 days past due in making a contractual payment. The Company applies the general approach to providing for expected credit losses prescribed by AASB 9, as outlined in Note 1.2.5(d).

A default on a financial asset is when the counterparty fails to make contractual payments within 60 days of when they fall due.

Financial assets are written off when there is no reasonable expectation of recovery. The Company categorises a loan or receivable for write-off when a debtor fails to make contractual repayments greater than 120 days past due. Where loans or receivables have been written off, the Company continues to engage in enforcement activity to attempt to recover the receivable due. Where recoveries are made, these are recognised in the income statement.

The Company controls credit risk by setting minimum creditworthiness requirements for counterparties which, for banks and financial institutions, are based upon their long-term credit rating.

At the reporting date there were no significant concentrations of credit risk within the Company and financial instruments are spread amongst a number of financial institutions in order to minimise the risk of counterparty default.

The maximum exposure to financial institution credit risk is represented by the sum of all cash deposits plus accrued interest, bank account balances and fair value of derivative assets. The Santos Ltd Group's counterparty credit policy limits this exposure to commercial and investment banks, according to approved credit limits based on the counterparty's credit rating. The minimum credit rating is A- from Standard & Poor's, subject to approved exceptions.

All non-current loans extended to Santos Group's subsidiaries have a term to maturity greater than 12 months with none repayable on demand. The Santos Ltd Group entities are not considered low credit risk since none hold external investment grade credit ratings, the benefit from credit enhancements and adverse changes in economic and business conditions in the longer term may reduce the ability of the borrower to fulfil its obligations. Management has considered the impact of factors such as commodity price, foreign exchange and interest rate fluctuations on the future cash flows of each entity and has determined that credit risk has increased since the origination of the loan.

The Company measures expected credit losses for Stage 2 and Stage 3 loans from related entities using projected cash flows within each entity. This assessment considers factors similar to the indicators of impairment for exploration and evaluation assets, and oil and gas assets, used by the Group as they impact the projected cash flows within each entity. These projected net cash flows are compared against the principal and interest payments owed to the Company by the related entity in order to estimate the credit loss allowance provision.

During the year ended 31 December 2024, a net impairment reversal of \$75,000,225 was recognised (2023: \$97,805,028) on receivables from related entities.

Notes to the Financial Statements

for the year ended 31 December 2024

(d) Liquidity risk

The Company adopts a prudent liquidity risk management strategy in line with the Santos Ltd Group's Board-approved policy. It seeks to maintain sufficient liquid assets and available committed credit facilities to meet short-term to medium-term liquidity requirements of the Santos Limited Group. The Company's objective is to maintain flexibility in funding to meet ongoing operational requirements, exploration and development expenditure, and other corporate activities of the Santos Limited Group.

The following table analyses the contractual maturities of the Company's financial liabilities, and financial assets held to manage liquidity risk. The relevant maturity groupings are based on the remaining period to the contractual maturity date, at the reporting date. The contractual maturity of related entity payables will differ from actual payment dates which are managed centrally by Santos Limited Group in accordance with the funding strategy referred to in Note 1.2.3. The amounts disclosed in the table are the contractual undiscounted cash flows comprising principal and interest repayments.

(e) Fair values

Fair value is the price that would be received to sell an asset or the price that would be paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability; or
- in the absence of a principal market, in the most advantageous market for the asset or liability that is accessible by the Group.

The financial assets and liabilities of the Company are all initially recognised in the Statement of Financial Position at their fair value in accordance with the accounting policies in note 1.2.5(c). The receivables, payables, interest bearing liabilities and other financial assets and liabilities which are not subsequently measured at fair value, are carried at amortised costs which approximates their fair value.

The following summarises the significant methods and assumptions used in estimating the fair values of financial instruments:

Derivatives

The fair value of interest rate swaps is calculated by discounting estimated future cash flows based on the terms of maturity of each contract and using market interest rates for a similar instrument at the reporting date. The fair value of forward foreign exchange contracts is determined by discounting future cash flows using market interest rates and translating the amounts into US dollars using the spot rate at the reporting date. The fair value of Brent crude options

Notes to the Financial Statements

for the year ended 31 December 2024

is determined using an option pricing model, which takes into consideration the price of the option, the strike price, the time until expiration, implied volatility and a risk-free rate.

Financial liabilities

Fair value is calculated based on the present value of future principal and interest cash flows, discounted at the market rate of interest at the reporting date. Where these cash flows are in a foreign currency the present value is converted to US dollars at the foreign exchange spot rate prevailing at reporting date.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

- Level 1: quoted (unadjusted) prices in active markets for identical assets and liabilities.
- Level 2: other techniques for which all inputs which have significant effect on the recorded fair value are observable, either directly or indirectly.
- Level 3: techniques which use inputs which have a significant effect on the recorded fair value that are not based on observable market data.

During the years ended 31 December 2024 and 31 December 2023, there were no transfers between level 1 and level 2 fair value measurements, and no transfers into or out of level 3 fair value measurements.

All of the Company's financial instruments were valued using the Level 2 valuation technique.

(f) Financial instruments

The Company classifies its financial instruments in the following categories: financial assets at amortised cost, financial assets at FVTPL, financial assets at fair value through other comprehensive income ("FVOCI"), financial liabilities at amortised cost and derivative instruments. The classification depends on the purpose for which the financial assets were acquired, which is determined at initial recognition based upon the business model of the Company.

Financial assets at amortised cost

The Company classifies its financial assets at amortised cost if the asset is held with the objective of collecting contractual cash flows and the contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest. These include amounts owing from related entities and bank term deposits. Bank term deposits are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are financial assets at amortised cost and are included in current assets, except for those with maturities greater than 12 months after the balance sheet date.

Derivative instruments

Derivative financial instruments entered into by the Company for the purpose of managing its exposures to changes in foreign exchange rates and interest rates arising in the normal course of business qualify for hedge accounting. The principal derivatives that may be used are forward foreign exchange contracts, cross currency interest rate swaps and interest rate swaps. Their use is subject to a set of policies, procedures and limits approved by the Board of Directors. The Company does not trade in derivative financial instruments for speculative purposes.

Notes to the Financial Statements

for the year ended 31 December 2024

The Company holds the following financial instruments:

	Dec 2024	Dec 2023
	\$'000	\$'000
Financial assets		
Financial liabilities at amortised cost		
Cash and cash equivalents	431,575	709,885
Trade and other receivables	5,931	464
Amounts owing from related parties	15,011,045	12,386,440
Joint venture receivables	46,856	13,460
Other	-	152,582
	15,495,407	13,262,831
Financial assets at FVTPL:		
Derivative financial instruments	-	132,956
	15,495,407	13,395,787
Financial liabilities		
Financial liabilities at amortised cost:		
Trade and other payables	52,658	47,876
Borrowings at amortised cost	4,817,197	3,678,393
Amounts payable to related parties	8,409,119	7,682,672
Joint venture payables	18,049	27,680
	13,297,023	11,436,621
Financial liabilities at FVTPL:		
Derivative financial instruments	46,628	-
	13,343,651	11,436,621

Notes to the Financial Statements

for the year ended 31 December 2024

The Company's financial instruments resulted in the following income, expenses, gains and losses recognised in the income statement:

	Dec 2024	Dec 2023
	\$'000	\$'000
Interest on cash and cash equivalents	25,553	29,561
Interest on amounts owing from related entities	1,167,337	1,315,522
Interest on amounts owing to related entities ¹	(547,725)	(472,043)
Interest on debt held at amortised cost	(268,560)	(157,428)
Fair value (loss)/gain on derivative financial instruments	(148,790)	105,526
Net impairment reversal on receivables from related entities	75,000	97,805
Net foreign exchange gain/(loss)	15,404	(2,191)
	318,219	916,752

¹ Amounts have been reclassified to ensure consistency with current period.

The effects of applying hedge accounting on the Company's financial position and performance are as follows:

	Dec 2024	Dec 2023
	\$'000	\$'000
Reserves - Own credit revaluation reserve		
Opening balance	(14,382)	(14,382)
Add: Fair value changes on financial liabilities designated at fair value due to own credit risk	-	-
Closing balance	(14,382)	(14,382)

Note 14 Commitments

The Company had no capital expenditure commitments as at 31 December 2024 (2023: Nil).

Note 15 Related parties

The parent entity and ultimate parent entity is Santos Limited, which is incorporated in Australia.

As at 31 December 2024, a credit loss allowance provision of \$2,175,952,735 has been recorded (2023: \$2,250,923,543) related to amounts owing from related parties. The changes to the provision during the year resulted in a net impairment gain of \$75,000,225 (2023: \$97,805,038 gain).

Notes to the Financial Statements

for the year ended 31 December 2024

	Dec 2024	Dec 2023
(a) Loans to related parties	\$'000	\$'000
Other financial assets		
Non-Interest-bearing loans and borrowings		
Amounts owing from other related parties	381,601	699,462
	381,601	699,462
Interest-bearing loans and borrowings		
Amounts owing from Santos Limited	891,869	185,191
Amounts owing from other related parties	13,737,575	11,501,787
	14,629,444	11,686,978
	15,011,045	12,386,440

Receivable related entity loans are denominated in USD and PGK, and where applicable, bear interest at SOFR plus a margin of 2.0% and 4.0% respectively (2023: SOFR plus a margin of 3.5% and nil respectively).

	Dec 2024	Dec 2023
(b) Loans from related parties	\$'000	\$'000
Other financial liabilities		
Non-Interest-bearing loans and borrowings		
Amounts owing to other related parties	578,728	1,959,126
	578,728	1,959,126
Interest-bearing loans and borrowings		
Amounts owing to Santos Limited	-	-
Amounts owing to other related parties	7,830,391	5,723,546
	7,830,391	5,723,546
	8,409,119	7,682,672

Payable related entity loans are denominated in USD and where applicable, bear interest at SOFR plus a margin of 0.2% (2023: SOFR minus a margin of 0.1%).

(c) Parent company guarantees

All interest-bearing borrowings and loans included in note 10, except for loans payable to related entities, are guaranteed by the Company's parent, Santos Limited.

Notes to the Financial Statements

for the year ended 31 December 2024

(d) Key management personnel compensation

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Company, directly or indirectly, including the Directors of the Company.

The names of the Directors in office at the date of this report are:

Kevin Gallagher

Vickki McFadden

Appointed 17/10/2024

Keith Spence

Guy Cowan

Resigned 17/10/2024

Unless otherwise stated above, the Directors have held their office at all times since the beginning of the financial year. There were no other persons who acted as directors at any time during the financial year. The Company employs no permanent staff. No remuneration was paid to key management personnel during 2024 (2023: nil).

Note 16 Contingencies

The Company had no contingent liabilities as at 31 December 2024 (31 December 2023: nil).

Note 17 Auditors remuneration

Audit fees are borne by the ultimate parent entity, Santos Limited.

Note 18 Events subsequent to reporting date

There are no events subsequent to 31 December 2024 that are material and unusual in nature to significantly affect the operation of the Company, the results of the operations, or the state of affairs of the Company in subsequent financial years.

Santos Finance Ltd
ABN 81 002 799 537

Consolidated Entity Disclosure Statement

for the year ended 31 December 2024

Disclosure of subsidiaries and their country of tax residency, as required by the Corporations Act 2001, does not apply to the Company as the Company is not required by accounting standards to prepare consolidated financial statements.

Santos Finance Ltd
ABN 81 002 799 537

Directors' Declaration

In the opinion of the Directors of Santos Finance Ltd (the "Company"):

- (a) The Company is not publicly accountable;
- (b) The financial statements and notes, as set out in these financial statements, are prepared in accordance with the basis of accounting described in Note 1, and other mandatory reporting requirements, so as to present fairly the financial position of the Company as at 31 December 2024 and its performance, as represented by the results of its operations for the financial year ended on that date;
- (c) the Consolidated Entity Disclosure Statement required by section 295(3A) of the Corporations Act is true and correct; and
- (d) There are reasonable grounds to believe that the Company will be able to pay its debts as and when they become due and payable.

In respect of the year ended 31 December 2024 the Company has:

- (a) Kept such accounting records as to correctly record and explain its transactions and financial position;
- (b) Kept its accounting records so that a true and fair financial report of the Company can be prepared from time to time; and
- (c) Kept its accounting records so that the financial report of the Company can be conveniently and properly audited or reviewed in accordance with the Corporations Act 2001.

Signed in accordance with a resolution of the Directors.

Director
Date: 27 March 2025

Independent auditor's report to the members of Santos Finance Limited

Opinion

We have audited the financial report of Santos Finance Limited (the Company), which comprises the statement of financial position as at 31 December 2024, the statement of profit or loss and other comprehensive income, statement of changes in equity and statement of cash flows for the year then ended, notes to the financial statements, including material accounting policies, the consolidated entity disclosure statement and the directors' declaration.

In our opinion, the accompanying financial report of the Company is in accordance with the *Corporations Act 2001*, including:

- a. Giving a true and fair view of the Company's financial position as at 31 December 2024 and of its financial performance for the year ended on that date; and
- b. Complying with Australian Accounting Standards and the *Corporations Regulations 2001*.

Basis for opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial report* section of our report. We are independent of the Company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information other than the financial report and auditor's report thereon

The directors are responsible for the other information. The other information is the directors' report accompanying the financial report.

Our opinion on the financial report does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial report, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial report or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the directors for the financial report

The directors of the Company are responsible for the preparation of:

- ▶ The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001*; and
- ▶ The consolidated entity disclosure statement that is true and correct in accordance with the *Corporations Act 2001*; and

for such internal control as the directors determine is necessary to enable the preparation of:

- ▶ The financial report (other than the consolidated entity disclosure statement) that gives a true and fair view and is free from material misstatement, whether due to fraud or error; and
- ▶ The consolidated entity disclosure statement that is true and correct and is free of misstatement, whether due to fraud or error.

In preparing the financial report, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters relating to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial report

Our objectives are to obtain reasonable assurance about whether the financial report as a whole is free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of this financial report.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ▶ Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- ▶ Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- ▶ Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- ▶ Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to

**Shape the future
with confidence**

events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.
