About Cavendish Hydrogen ASA | cavendishh2.com

Cavendish Hydrogen ASA is a leading hydrogen fueling company that specializes in the development, production, marketing, sales and service of equipment for fueling hydrogen into on-road vehicles. The company operates globally with offices in Denmark, California (the U.S), South Korea and Austria. The ongoing focus of the company is to develop its product portfolio to meet the expected market expansion for long-distance heavy-duty trucking.

This information is subject to the disclosure requirements pursuant to section 5-12 of the Norwegian Securities Trading Act.
