COMPANY ANNOUNCEMENT

MedicVision Receives Order From Prince Of Wales Hospital For Surgical Simulators

17th November 2005: Premier Bionics' wholly owned subsidiary Medic Vision Ltd is pleased to announce it has received an initial order from the Prince of Wales Hospital for its surgical simulation products. The Prince of Wales Hospital is a leading health facility based in Hong Kong and is the main teaching hospital for the Chinese University of Hong Kong. The value of the contract is HK\$2,600,000 (approx. A\$460,000). Products will be delivered to the hospital within the next 2 weeks.

Ross Horley, CEO of Medic Vision commented that "we are very pleased to receive this order as it further strengthens our relationship with a major teaching hospital for the provision of simulators for medical and surgical skills training. The simulators will be located in the Skills Training Centre that Medic Vision designed".

Background on Premier Bionics

Premier Bionics was formed in December 2001 to invest in advanced, Australian-based research in medical devices and diagnostics. The company listed on the Australian Stock Exchange (ASX: PBI) in May 2002 and listed on the AIM in November 2005 (AIM:PBI).

Premier Bionics' first investment was PulmoSonix Pty Ltd, a company formed to develop technology developed at Monash University's Ritchie Centre in the area of respiratory medicine using acoustics. Pulmosonix technology focuses on the development of respiratory products covering sleep apnea disorders, chronic obstructive pulmonary disease and chronic lung disease. Premier Bionics' second investment was made in April 2005 with the acquisition of Medic Vision Limited.
