REVIEW OF OPERATIONS

Motopia and its subsidiaries recorded a loss of \$744,568 for the financial year ended 30 June 2015 (2014: \$1,671,354) with an operating cash outflow of \$590,167 (2014: \$574,365).

On 11th November 2014, Raptor Global Corporation Ltd ("RGC") was appointed by Motopia to assist in a corporate re-structure and an optimisation of the Company's operations. Mr Marcus L'Estrange, the Managing Director of RGC, was appointed as a Non-Executive Director.

Since the appointment of RGC, the roadblocks to success that existed within the old structure of Motopia have been identified and removed.

Under the new company structure, revenues produced by 2SQL via the online platform flow directly to Motopia rather than to the CU2Global ("CU2G") sales arm. The CU2G sales arm will still operate and will look to make sales from using 2SQL 'on premise', however under re-structure Motopia has not only ceased funding CU2G, but is recouping funds loaned to CU2G, \$500,000 of which was repaid in April 2015 as per announcement on 29 April 2015. Motopia retains a shareholding in CU2G and continues its support of its on premise business model.

Following the recent Board changes and the completion of the 100% acquisition of ConvertU2 Technologies Pty Ltd ("CU2T") and Modac Group Pty Ltd ("Modac"), the board and RGC are of the opinion that Motopia is now in a position to establish itself as a premier conversion technologies business.

Motopia's aim is to migrate customer's software and data from legacy systems to current technology platforms, helping them unleash their data potential with new application systems regardless of if they are in the cloud or on premise.

Motopia's current proprietary platform technology is the ConvertU2online platform which hosts 2SQL Microsoft Access to Sequel Server (SQL) migration technology. This is the first commercialisation product with an extremely large market size, both domestically and internationally.

The 2SQL migration technology can be deployed in one of two ways, via:

1. On premise: data migration technology is deployed at the customer site; or
2. Online: through the Company's online portal www.convertU2online.com.

Motopia's new board is focused on delivering shareholder value through investment in new technologies and new businesses.

Changes at Motopia

Since November 2014, Motopia has:

- appointed Raptor Global Corporation to undertake a strategic review of the Company and its assets;
- undertook a significant restructure of the company's corporate and operational structures;
- partnered with Cirralto Pty Ltd (Cirralto) to provide sales and software support services;
- invested in developing an online platform to provide data migration tools, accessible from anywhere in the world;
- implemented a cloud platform model that provides Software as a Service (SaaS) revenue leverage to grow into the future;
- proceeded to acquire 100% of CU2T to develop additional data migration technologies beyond the existing access to SQL migration tool; and
- changed the board to better reflect the skillsets required to align with the Company's technology requirements;

This rapid and aggressive change has laid the foundation for a new vision and strategy to deliver shareholder value.

The Company intends to invest in the acquisition and development of specialised or custom system migration technologies to further enable customers to move the legacy data to commercial off the shelf software. This investment in future technologies will further grow the business offering and support diversified revenue streams.

Current Plans

Over the next few months Motopia will be making a series of announcements in relation to further corporate restructuring as it continues to build a framework to support its growth initiatives.

The first part of the plan was the successful deployment of the ConvertU2 platform. The 2SQL product is now being separated into its parts in conjunction with the intended acquisition of additional migration software to service two primary customer types:

1. The 2 million businesses moving to cloud financial systems over the next several years; and
2. The thousands of government departments and enterprise companies moving their Access, Oracle and legacy applications to the cloud

Motopia will focus on the below product distribution channels over the next 12 months to provide the required level of sales and support infrastructure:

- Direct Customer Engagement via the Convertu2online.com and direct sales team;
- Targeting Customers directly and via a channel of value added resellers ("VAR's") and telecommunications partners;
- Investment in new technologies; and
- The acquisition of sales and support oriented technology businesses.

Motopia has commenced building an indirect sales force to build and manage VAR partners who have customers with conversion needs. Firstly through the agreement with IT managed and cloud services provider Cirralto, who will provide valuable support and sales infrastructure to assist the Company roll out of the convertU2online platform for a range of migration solutions.

Motopia will also seek to enter into reseller agreements with third party cloud service and data migration vendors to further expand the reach of the Company's conversion technologies to become a premier data migration business.

Additionally, Motopia is actively targeting relationships with telecommunications and 'Infrastructure as a Service' providers with specific focus on partnering with telco's and Microsoft in its Azure business to identify areas where Motopia can deploy further investment in developing migration technology to access new markets and customers, thereby providing access to diversified and new revenue streams, supporting its future growth aspirations.

The Board will also seek out further acquisitions in technology and technology sales and support businesses to diversify Motopia's revenue streams and grow its share of technology and support services recurring revenue.

This will enable Motopia to have a solid platform of technologies and IT resources to underpin its growth and revenue initiatives for 2016. From this base Motopia will continue to drive customer acquisition, revenue and profit with new products, improved service delivery and business partnerships.

Marcus L'Estrange

Chairman

30 September 2015

DIRECTORS' REPORT

The Directors present their report on the Company and its controlled entities for the financial year ended 30 June 2015.

Directors

The names of Directors in office at any time during or since the end of the financial year are:

Mr Stephen Dale
(Chairman – Resigned 10 February 2015)
(Non-Executive Director)

Stephen Dale has business experience in telecommunications, logistics, retail furniture and saddlery ventures. Since 2003 he has been a Board member of Saddleworld Australia franchised retail group, having served as chairman and currently the deputy chairman. He has also served as a Board member of Assumption College Kilmore for 14 years. In addition, his current activities also include providing support services to the retail sector and development of a beef cattle breeding stud. He has had no other directorships of listed corporations in the last three years.

Mr Gernot Abl
(Non-Executive Director – Resigned 23 June 2015)

Gernot Abl holds Bachelors of Laws and Commerce (Accounting and Finance) from the University of Western Australia. In addition he has completed both the Securities Institute of Australia (SIA) and Company Director (CDC) courses.

Gernot has over 10 years of business strategy, operations and investment experience. Gernot has worked with small, medium and large enterprises across a diverse range of industries and brings specific capital raising, company restructuring and corporate strategic planning expertise to the board. Gernot currently also serves as a director of a number of private start-up companies. He has had no other directorships of listed corporations in the last three years.

Mr Lindsay Brown
(Non-Executive Director) (Resigned 15 August 2014)

Lindsay Brown is a Chartered Accountant with 37 years' experience, establishing his own practice in 1984. Lindsay offers client advice in matters relating to management, optimal company structures, strategic direction and taxation. He has been integral in establishing and developing a number of businesses across multiple sectors of industry. Lindsay also serves as a director of a number of private companies. He has had no other directorships of listed corporations in the last three years.

Mr Robert Parton
(Non-Executive Director – Resigned 15 June 2015)

Commencing his career in 1987, Robert Parton has developed extensive business management experience across the corporate advisory, property, cleantech and manufacturing sectors. He is experienced in project management, analysis and due diligence evaluation and is a qualified accountant with over 20 year's membership with CPA Australia. He has had no other directorships of listed corporations in the last three years.

Mr Marcus L'Estrange
(Chairman – Appointed 10 February 2015)
(Non-Executive Director – Appointed 12 November 2014)

Marcus L'Estrange is an Engineer with extensive experience in the IT industry as well as the Mining industry, the Oil and Gas industry, and the Environmental industry. He has been involved with the start-up of several successful companies within these sectors. He has a diverse range of skills as an engineer as well as in sales and marketing and business development.

Previously, Marcus helped to start up the Oil and Gas software company, Engenius Software. In the position of Engineering Sales Manager, over a period of 4 years he succeeded in selling their exploration software globally to the major Western Oil & Gas companies and the majority of offshore exploration companies, helping to grow the business on an international scale and he resided in the USA and Europe during this period. In a previous role as a Quality Assurance Engineer contracted to BHPB Petroleum, Marcus developed and implemented their Quality Assurance Purchase Order Databases for management of purchase orders relating to BHPB Petroleum offshore facilities. These databases were developed using MSAccess.

Marcus is a co-founder of Raptor Global Corporation Ltd. He is also a Director of Drilling Resource Partners Pty Ltd and a Non-Executive Director of River Rock Energy Ltd.

He has had no other directorships of listed corporations in the last three years.

Directors' Report (cont....)

Mr Adrian Floate

(Non-Executive Director – Appointed 16 June 2015)

Adrian Floate is an IT innovator who has been building software for 20 years. He has founded, built, and sold several technologies businesses and worked in Asia, Australia, the UK and US. Adrian has both private and public company experience at executive level. He is a business strategist that looks to overcome complex problems with software automation solutions. Adrian has worked in supply chain management systems since 1997 and has experience in manufacturing, wholesale distribution, retail and eCommerce.

Adrian's career includes designing and developing Bunning's BITS system EDI over IP network, the development and commercialisation of Australia's first SET payments gateway, the development and commercialisation of a Windows Mobile based email platform that predated the BlackBerry equivalent technology, designed the CAPLink EDI network for the automotive industry in conjunction with the Capricorn Society, co-founding the CLANG online car service portal and in more recent times leading the Appstablishment software team to create award mobile App's for business collaboration. He is the founder and Director of Cirralto who have been instrumental in providing online portal to utilise Motopia's conversion software to provide a global online service.

He has had no other directorships of listed corporations in the last three years.

Mr Shaun Melville

(Non-Executive Director – Appointed 29 June 2015)

Shaun Melville is a successful entrepreneur with significant experience at an executive level. He has worked as an IT consultant for Experis who are part of a group with over 3900 offices globally. Shaun was in charge of developing key relationships with Tier 1 and Tier 2 IT consultancies, vendors, and end users. Shaun has also worked as an IT Consultant/Head Hunter in London where he was the subject matter expert on LinkedIn. He was one of the first users of LinkedIn in Australia, and over 10 years he has developed a robust network of IT specialists numbering in the millions.

He is currently an Executive Director of Raptor Global Corporation Ltd, Non-Executive Director of Juggernaut IP, and Non-Executive Director of Golden Eagle Mining Ltd.

He has had no other directorships of listed corporations in the last three years.

Company Secretary

Mr Justyn Stedwell

Mr Stedwell has completed a Bachelor of Business & Commerce (Management & Economics) at Monash University, a Graduate Diploma of Accounting at Deakin University, a Graduate Diploma in Applied Corporate Governance with Chartered Secretaries Australia and a Graduate Certificate of Applied Finance with Kaplan Professional.

Justyn has over eight years' experience acting as a Company Secretary of ASX listed companies in a wide range of industries. He is currently also Company Secretary of ASX listed companies Axxis Technology Group Limited (ASX:AYG), Rhinomed Limited (ASX:RNO) Imugene Limited (ASX:IMU), Australian Natural Proteins Limited (ASX:AYB) and Rectifier Technologies Limited (ASX:RFT) He was previously the Company Secretary of Kazakhstan Potash Corporation (ASX:KPC).

Directors' Report (cont....)

The Lead Auditor's Independence Declaration for the year ended 30 June 2015 has been received and can be found on page 13.

Remuneration Report (audited)

The directors are pleased to present the 2015 remuneration report which sets out remuneration information for Motopia Limited's non-executive directors, executive directors and other key management personnel.

Key management personnel are those persons having authority and responsibility for planning, directing, and controlling the activities of the entity, directly or indirectly, including all directors.

The report contains the following sections:

- (a) Directors and key management personnel disclosed in this report
- (b) Use of remuneration consultants
- (c) Non-Executive and Executive remuneration policy and framework
- (d) Relationship between remuneration and Motopia Limited's performance
- (e) Voting and comments made at the company's 2014 Annual General Meeting
- (f) Details of remuneration
- (g) Service agreements

(a) Directors and key management personnel disclosed in this report

Non-Executive Directors (see pages 4-5)

Mr Stephen Dale	Non-Executive Director Resigned as Chairman 8 April 2015
Mr Gernot Abl	Resigned as Non-Executive Director 23 June 2015
Mr Lindsay Brown	Resigned as Non-Executive Director 15 August 2014

Mr Marcus L'Estrange	Appointed as Chairman 10 February 2015 Appointed as Non-Executive Director 12 November 2014
Mr Adrian Floate	Appointed as Non-Executive Director 16 June 2015
Mr Shaun Melville	Appointed as Non-Executive Director 29 June 2015

Other key Management Personnel

Mr Justyn Stedwell	Company Secretary
--------------------	-------------------

(b) Use of remuneration consultants

Motopia Limited did not use a remuneration consultant during the current financial year.

(c) Non-Executive and Executive remuneration policy and framework

In determining non-executive and executive remuneration, the board aims to ensure that remuneration practices are:

- competitive and reasonable, enabling the company to attract and retain key talent
- aligned to the company's strategic and business objectives and the creation of shareholder value transparent, and
- acceptable to shareholders.

The executive remuneration framework has two components:

- Primary benefits – salary/fees and bonuses
- Post-employment benefits including superannuation.

Equity including share options was granted as performance bonuses or in lieu of services.

Other benefits include additional consulting fees.

Directors' Report (cont....)

Remuneration Policy

The remuneration of all Executives and Non-executive Directors, Officers and Employees of the Company is determined by the Board.

The Company is committed to remunerating Senior Executives and Executive Directors in a manner that is market-competitive and consistent with best practice including the interests of shareholders. Where possible/relevant remuneration packages are based on fixed and variable components determined by the Executives' position, experience and performance and may be satisfied via cash or equity.

Non-executive Directors are remunerated out of the maximum aggregated amount approved by shareholders and at a level that is consistent with industry standards. Non-executive Directors do not receive performance based bonuses and prior Shareholder approval is required to participate in any issue of equity. No retirement benefits are payable, other than statutory superannuation, if applicable.

(d) Relationship between remuneration and Motopia Limited's performance

Remuneration Policy versus Company Financial Performance

The Company's Remuneration Policy is not directly based on performance, rather on industry practice.

The Company's primary objective was licensing and distribution of mobile content.

Performance-based Remuneration

The purpose of a performance-based bonus is to reward individual and team based on performance in line with Company objectives. Consequently, performance-based remuneration is paid to an individual where the individual's performance clearly contributes to a successful outcome for the Company. This is regularly measured by key performance indicators (KPIs).

The Company uses a number of KPIs to determine achievement, depending on the role of the Executive being assessed.

These include:

- successful contract negotiations
- successful revenue generation
- achievement of project milestones within budget and on time

In the current period no performance based remuneration was awarded by the Company.

	2015	2014	2013	2012	2011

30 September 2015

DECLARATION OF INDEPENDENCE BY ALEX SWANSSON TO THE DIRECTORS OF MOTOPIA LIMITED

As lead auditor of Motopia Limited for the year ended 30 June 2015, I declare that, to the best of my knowledge and belief, there have been:

1. No contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the audit; and
2. No contraventions of any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Motopia Limited and the entities it controlled during the period.

Alex Swansson
Partner

BDO East Coast Partnership

Melbourne, 30 September 2015

CORPORATE GOVERNANCE

Introduction

Motopia Limited (“Motopia” or the “Company”) is an Australian Securities Exchange (ASX) listed entity.

The Company aims to maximise returns to its investors by capital appreciation and when profitable, via a declaration of dividends to each shareholder in proportion to their interest in the Company.

The Board of Directors is responsible for establishing the corporate governance framework of the Company and establishing appropriate Corporate Governance policies and procedures having regard to the ASX Corporate Governance Council (CGC) published guidelines as set out in its “Corporate Governance Principles and Recommendations” (Revised Principles, 3rd Edition). The Board of Directors continues to review the framework and practices to ensure they meet the interests of shareholders.

This Corporate Governance Statement is structured with reference to the CGC’s published guidelines containing 8 key principles. The charters and policies described in this Corporate Governance Statement represent a concise version of those charters and policies that have been, or will be adopted by the Board of Directors in line with the CGC’s recommendations.

The Board of Directors has adopted the best practice recommendations as outlined by the CGC to the extent that is deemed appropriate considering the current size and operations of Motopia. Therefore, where the Board considers that the cost of implementing a recommendation outweighs any potential benefits, those recommendations have not been adopted.

The Company’s Corporate Governance charters and policies can be found on the Company’s website, www.motopia.com

PRINCIPLE 1: LAY SOLID FOUNDATIONS FOR MANAGEMENT AND OVERSIGHT

ROLE OF THE BOARD AND MANAGEMENT

The Board of Directors of Motopia together with management is collectively experienced in the management of listed companies.

The Board is responsible for providing strategic guidance and for contributing to the development of the corporate strategy and performance objectives, including the implementation of a business strategy, the annual budget and financial plan, monitoring the Company’s financial performance and ensuring that appropriate management is in place to achieve these objectives. The Board monitors risk, compliance and financial reporting. The Board is responsible for approving and monitoring the progress of major capital expenditure, capital management and acquisitions and divestitures of assets. It is the role of senior management to manage the Company in accordance with the direction and delegations of the Board and the responsibility of the Board to oversee the activities of management in carrying out these delegated duties.

The Board may delegate to its sub-committees, an officer of a group company, or any other person in authority to perform any of its functions and exercise any of its powers, in the ordinary course of business. This includes the day to day administration of its assets, including ensuring that assets are adequately insured where necessary; that detailed market investigations and effective due diligence is carried out on proposed investments, acquisitions or joint ventures; that capital required to develop the Company’s intellectual property, proposed investments or acquisitions as well as general working capital requirements is adequate; and that there is effective risk management, financial management and compliance management of the Company’s assets.

BOARD APPOINTMENTS

The Company undertakes comprehensive reference checks prior to appointing a director, or putting that person forward as a candidate to ensure that person is competent, experienced, and would not be impaired in any way from undertaking the duties of director. The Company provides relevant information to shareholders for their consideration about the attributes of candidates together with whether the Board supports the appointment or re-election.

The terms of the appointment of a non-executive director, executive directors and senior executives are agreed upon and set out in writing.

COMPANY SECRETARY

The Company Secretary is accountable directly to the Board, through the Chairman, on all matters to do with the proper functioning of the Board, including agendas, Board papers and minutes, advising the Board on governance matters, monitoring that Board policies and procedures are followed, communication with regulatory bodies and the ASX and statutory and other filings.

DIVERSITY

At this stage, the Board does not consider it relevant to establish a diversity policy as the Company has no employees, but instead has administrative and technical services provided to it by consultants.

The Company does not have a diversity policy and therefore has not set any measurable objectives for achieving gender diversity. There are no employees in the organisation and there are no women in senior management positions. There are currently no women on the Board of Directors.

BOARD AND KMP PERFORMANCE

The Board considers the ongoing development and improvement of its own performance, the performance of individual directors and Board Committees as critical to effective governance.

The Board has adopted a self-evaluation process to measure its own performance. The performance of the Board and individual directors is reviewed at least every three years by the Board as a whole. This process includes a review in relation to the composition and skills mix of the Directors of the Company.

Performance reviews involve analysis based on key performance indicators. The criteria for evaluating performance, is aligned with the financial and non-financial objectives of the Company. The Board will consider the outcome of each review and develop a series of actions to guide and monitor improvement. Due to the number of Board changes occurring at the end of the financial year a formal Board review did not occur during the year. The Board intends to conduct a Board review in the 2016 financial year.

When applicable, the Board assesses the performance of KMP against qualitative and quantitative key performance indicators relevant to each KMP. The Board currently utilises the services of consultants to manage the Company's operational activities and the performance of Company consultants was reviewed during the financial year.

INDEPENDENT ADVICE

Directors collectively or individually have the right to seek independent professional advice at the Company's expense, up to specified limits, to assist them to carry out their responsibilities. All advice obtained is made available to the Full Board.

PRINCIPLE 2: STRUCTURE THE BOARD TO ADD VALUE

STRUCTURE AND COMPOSITION OF THE BOARD

The skills, length of service, experience and expertise relevant to the position of director held by each director in office at the date of the annual report and throughout the 2015 financial year is included in the Directors' Report.

The Board assesses whether a director is independent in accordance with the CGC's independence guidelines. The Board does not consist of a majority of independent directors with one of four current directors being independent. Due to the size of the Company, its financial resources and the nature of its operations, the Board does not consider it appropriate to have a majority of independent directors or an independent Chairman at this time. As the Company grows the Board intends to increase the ratio of independent directors on the Board.

NOMINATION OF DIRECTORS

The Board is responsible for the nomination and selection of directors. A separate Nomination Committee has not been formed. The Board considers that at this stage in the Company's development, no benefits or efficiencies are to be gained by delegating this function to a separate committee.

Directors are appointed based on the specific skills required to effectively govern the company. The Board periodically assesses the competencies and experience of each Board member and the experiences and skills required at Board level to meet its operational objectives. The Board has not developed a formal Board skill matrix. The Board is satisfied with the skills and experience of each director and the current Board, the Board will consider developing a formal Board skills matrix during the 2016 financial year.

INDUCTION OF DIRECTORS AND PROFESSIONAL DEVELOPMENT

A new director induction program is in place and Directors are encouraged to engage in professional development activities to develop and maintain the skills and knowledge needed to perform their role as Directors effectively.

PRINCIPLE 3: ACT ETHICALLY AND RESPONSIBLY

CODE OF CONDUCT

The Board of Motopia is committed to its Code of Conduct.

The Code of Conduct aims to promote ethical and responsible decision making. The Code of Conduct requires all employees to exhibit honesty, loyalty, integrity, professionalism and trust in their dealings, both internally and externally. Motopia aims for good corporate governance and in summary, requires employees/directors to:

- avoid situations which may give rise to a conflict of interest;

- avoid situations where they may profit from their position with the Company and gain any benefit which competes with Motopia's business;
- comply with all laws and regulations and Company policies and procedures;
- not undertake activities inconsistent with their employment with Motopia;
- properly use Motopia's assets for legitimate business purposes; and
- maintain privacy and confidentiality in both Motopia's business and the information of all its stakeholders.

CONFLICTS OF INTEREST

The Board of Motopia is committed to good corporate governance and aims for continuous improvement in these practices. Motopia embraces high ethical standards and requires its employees to demonstrate both personal and corporate responsibility. Directors, officers and employees are required to safeguard the integrity of the Company and to act in the best interests of its stakeholders, generally shareholders.

There must be no conflict, or perception of a conflict, between the interests of any Motopia Director, officer or employee and the responsibility of that person to the Company and to the stakeholders. All Motopia Directors, officers and employees may never improperly use their position for personal or private gain for themselves, a family member, or any other person ("associates").

As a general rule, a conflict of interest, or the perception of a conflict, may arise if their duties involve any actual or potential business with a person, entity or organisation in which they or their associates have a substantial personal or financial interest. Accordingly, the following rules apply:

- Without prior Board approval, Directors, officers and employees may not act on behalf of Motopia in connection with any business or potential business involving any person, entity or organisation in which they or their associates have direct or indirect managerial influence (such as serving as an Executive Officer, Director, general partner or similar position or holding a substantial ownership or beneficial interest); and
- Where a potential conflict exists, this should be disclosed to the Chairman prior to any dealings taking place.

SHARE TRADING POLICY

The Company has a share trading policy that regulates the dealings by Directors, Officers and Consultants, in shares, options and other securities issued by the Company. The policy has been formulated to ensure that Directors, Officers, Employees and Consultants who work on a regular basis for the Company are aware of the legal restrictions on trading in Company securities while in possession of unpublished price-sensitive information.

PRINCIPLE 4: SAFEGUARD INTEGRITY IN CORPORATE REPORTING

AUDIT COMMITTEE

The Board has assumed the responsibilities normally delegated to the Audit and Risk Committee as set out in the Company's Audit and Risk Committee Charter. Due to the size of the Company, the Board does not believe it is necessary to establish a separate Audit and Risk Committee structure.

In fulfilling the responsibilities of the Audit and Risks Committee, the Board:

- Receives regular reports from management;
- Meets with the external auditors at least twice a year and reviews any significant disagreements between the auditors and management irrespective of whether they have been resolved;
- Review of the audit plan with the external auditors and evaluates the effectiveness of the external audit; and
- Fulfills all obligations of the Audit and Risk Committee as set out in the Company's Audit and Risk Committee Charter.

CHAIRMAN & COMPANY SECRETARY DECLARATIONS

The Chairman (the Company does not have a CEO) and Company Secretary (the Company does not have a CFO) have provided the Board with a declaration that, in their opinion, the financial records of the entity have been properly maintained and that the financial statements comply with the appropriate accounting standards and give a true and fair view of the financial position and performance of the entity and that the opinion has been formed on the basis of a sound system of risk management and internal control which is operating effectively.

EXTERNAL AUDITOR

The Company's external auditor attends each annual general meeting and is available to answer any questions with regard to the conduct of the audit and their report.

Prior approval of the Board must be gained for non-audit work to be performed by the external auditor. There are qualitative limits on this non-audit work to ensure that the independence of the auditor is maintained.

There is also a requirement that the audit partner responsible for the audit not perform in that role for more than five years.

PRINCIPLE 5: MAKING TIMELY AND BALANCED DISCLOSURE

Motopia's Continuous Disclosure Policy is designed to promote transparency and investor confidence and ensure that all interested parties have an equal opportunity to obtain information which is issued by Motopia. The Company is committed to complying with the continuous disclosure obligations contained in the listing rules of the Australian Securities Exchange (ASX) and under the Corporations Act, and ensuring that all shareholders and the market have an equal opportunity to obtain and review full and timely information about Motopia's securities.

The ASX defines continuous disclosure in its Listing Rules as "the timely advising of information to keep the market informed of events and developments as they occur". The Listing Rules and the Corporations Act require that a listed entity disclose to the market matters which a reasonable person would expect to have a material effect on the price or value of the entity's securities. A reasonable person is taken to expect information to have a material effect on the price or value of securities if it would, or would be likely to, influence persons who commonly invest in securities in deciding whether or not to subscribe for, buy or sell the securities.

The Board controls all of Motopia's communications with assistance from the Company Secretary in carrying out this responsibility. The Board as a whole are the only persons authorised to approve the release of material information to the market. The Company Secretary is responsible for administering this policy and is responsible for dealing with the ASX in relation to all listing rule issues.

The procedures which have been developed to comply with these rules include immediate reporting of any matter which could potentially have a material effect, via established reporting lines to the Chairman and/or the Company Secretary.

Disclosure of such price-sensitive information to the ASX must not be delayed and is disclosed, in the first instance, to the ASX. Material information must not be selectively disclosed (i.e. to analysts, the media or shareholders) prior to being announced to the ASX, and all media releases must be referred to the Board for approval prior to any release.

TRADING POLICY

Motopia's Share Trading Policy ensures that unpublished price sensitive information about the Company is not used in an unlawful manner. The main provisions of this policy are governed by:

- the specific requirements of the Corporations Act;
- a prohibition of short term trading in Motopia shares;
- when Directors and employees may trade in Motopia shares; and
- prior notification by Directors, officers and employees of their intention to deal in Motopia shares.

A summary of the Policy is as follows:

In accordance with the insider trading provisions of the Corporations Act, all of the Company's directors, officers and employees are prohibited from trading in the Company's shares while in possession of Inside Information concerning the Company.

Directors, officers and employees should never communicate any Inside Information to any other person, including family members and associates.

"Inside Information" means information that is not disclosed or generally available and, if it were disclosed or generally available, a reasonable person would expect it to have a material effect on the price or value of the Company's shares.

In addition directors, officers and employees are prohibited from trading in the Company's shares during:

- each period of 45 days immediately prior to the intended date upon which the Company releases its annual financial statements to the ASX;
- each period of 45 days immediately prior to the intended date upon which the Company releases its half year financial statements to the ASX;
- each period of 14 days immediately prior to the intended date upon which the Company holds its annual general meeting; and
- each period of 4 hours immediately after the date upon which the Company issues a price-sensitive ASX announcement.

No director, officer or employee may deal in Company shares at any time for short term gain, including buying and selling Company shares in a 3 month period, without the written approval of the Chairman or in the case of the Chairman the remaining Board members.

In order to ensure compliance with the Policy all directors, officers and employees must discuss any proposed dealing with the Chairman or the Company Secretary prior to trading Company shares at any time.

PRINCIPLE 6: RESPECT THE RIGHTS OF SHAREHOLDERS

Motopia's communication strategy is to promote effective communication with shareholders.

Motopia is committed to:

- ensuring that shareholders and the financial markets are provided with full and timely information about Motopia's activities in a balanced and understandable way;
- complying with continuous disclosure obligations contained in the applicable Australian Securities Exchange (ASX) Listing Rules and the Corporations Act in Australia; and
- communicating effectively with its shareholders and making it easy for shareholders to communicate with the Company.

To promote effective communication with shareholders and encourage effective participation at general meetings, information is communicated to shareholders:

- through the release of information to the market via the ASX;
- through the distribution of the Annual Report and Notices of Annual General Meetings;
- through shareholder meetings;
- through letters and other forms of communications directly to shareholders;
- by posting relevant information on Motopia's website; and
- by providing shareholders with a choice of information delivery options i.e. paper or electronic means.

The Company maintains information in relation to its corporate governance documents, Directors and senior executives, Board and committee charters, annual reports and ASX announcements on the Company's website.

The external Auditors attend the Annual General Meeting and are available to answer shareholders' questions about the conduct of the audit and preparation of the Auditor's Report.

PRINCIPLE 7: RECOGNISE AND MANAGE RISK

The Board of Motopia takes a proactive approach to the Company's risk management and internal compliance and control system. The Board implements and maintains risk management and internal control systems to manage the Company's material business risks. The Board reviews the Company's risk management framework at least annually to satisfy itself that it continues to be sound. A review of the Company's risk management framework occurred during the year.

The Board of Motopia is responsible for ensuring that risks and mitigation of these risks are identified on a timely basis and that the Company's objectives and activities are aligned with the risks and opportunities identified by the Board of Directors. An internal audit function has not been established as the Board considers that at this stage in the Company's development, no benefits or efficiencies are to be gained by delegating the tasks to a separate function.

The Company's risk management processes aimed at achieving the following:

- a culture of risk control and the management of risk throughout the Company;
- a culture of risk control that can easily identify risks as they arise and amend practices;
- the installation of practices and procedures in all areas of the business that are designed to minimise an event or incident that could have a financial or other effect on the business and its day to day management; and
- adoption of practices and procedures to minimise many of the standard commercial risks, i.e., taking out the appropriate insurance policies and ensuring compliance reporting is up to date.

Management reports to the Board on the effectiveness of the Company's management of its material business risks. In addition, the Board undertakes a review of all major activities to assess risk and the effectiveness of strategies implemented to manage risk. During the reporting period, management has reported to the Board as to the effectiveness of the Company's management of its material business risks.

The Company faces risks inherent to its business, including economic risks, which may materially impact the Company's ability to create or preserve value for security holders over the short, medium or long term. The Company has in place policies and procedures, including a risk management framework (as described in the Company's Risk Management Policy), which is developed and updated to help manage these risks. The Board does not consider that the Company currently has any material exposure to environmental or social sustainability risks

PRINCIPLE 8: REMUNERATE FAIRLY AND RESPONSIBLY

Given the size of the Board and the Company, the Board does not consider it appropriate to have a Remuneration Committee at this stage. The Board is responsible for the Company's remuneration policy and has adopted a Remuneration Policy which outlines processes by which the Board shall review officer and management remuneration.

The Company is committed to remunerating its officers and executives fairly and to a level which is commensurate with their skills and experience and which is reflective of their performance.

The Board will monitor and review:

- the remuneration arrangements for the Chief Executive Officer and other executive directors and set parameters within which the Chief Executive Officer will review arrangements for other senior executives;
- the remuneration policies, personnel practices and strategies of the Company generally;
- any employee incentive schemes;
- the remuneration arrangements for non-executive Directors;
- the size and composition of the Board and criteria for Board membership; and
- the membership of the Board and candidates for consideration by the Board.

The Company remunerates directors and key executives fairly and appropriately with reference to the skills and experience of the director/executive and employment market conditions. Any bonus or incentive payments made to directors and executives are based on the achievement of set financial and/or operational performance targets. Payment of equity-based remuneration is made in accordance with thresholds set in plans approved by shareholders. Participants in an equity based remuneration scheme are prohibited from entering into any transaction that would have the effect of hedging or otherwise transferring the risk of any fluctuation in the value of any unvested entitlement in the Company's securities to any other person.

The Company is committed to remunerating its staff, executives and consultants in a manner that is market-competitive and consistent with 'Best Practice' as well as supporting the interests of Shareholders. Senior Management may receive a remuneration package based on fixed and variable components, determined by their position and experience. Shares and/or Options may also be granted based on an individual's performance, with those granted to Directors subject to Shareholder approval.

Non-Executive Directors are paid their fees out of the maximum aggregate amount approved by Shareholders for the remuneration of Non-Executive Directors. Non-Executive Directors do not receive performance based bonuses and do not participate in Equity Schemes of the Company without prior Shareholder approval.

The Company has provided disclosure of a summary of its remuneration policies for the Company's officers in Directors' Report.

Payment of equity-based remuneration is made in accordance with thresholds set in plans approved by shareholders.

There is no scheme to provide retirement benefits other than statutory superannuation to non-executive directors. For details of the amount of remuneration, and all monetary and non-monetary components, for each of the five highest-paid executives during the year and for all directors, refer to the Directors' report.

CONSOLIDATED STATEMENT OF PROFIT OR LOSS AND OTHER COMPREHENSIVE INCOME

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Note 1 Corporate Information

The financial report of Motopia Limited ("the Company") for the year ended 30 June 2015 was authorised for issue in accordance with a resolution of the directors on 30 September 2015.

Motopia Limited is a company limited by shares, incorporated in Australia whose shares are publicly traded on the Australian stock exchange.

The nature of the operations and principal activities of the consolidated entity are described in the directors' report.

Note 2 Statement of Significant Accounting Policies

a. Basis of preparation

The financial report is a general purpose financial report, which has been prepared in accordance with the requirements of the Corporations Act 2001 and applicable Australian Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB'). This financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board ('IASB').

Motopia is a for-profit entity for the purposes of preparing the financial statements. The financial report has also been prepared on a historical cost basis, except for available for sale financial assets and financial assets and liabilities at fair value through profit or loss, which have been measured at fair value.

The financial report is presented in Australian dollars.

b. Going concern

For the year ended 30 June 2015, the consolidated entity has incurred a loss of \$744,568 (2014: \$1,671,354) and had cash outflows from operating activities of \$590,167 (2014: \$574,365). At 30 June 2015 the consolidated entity also had accumulated losses of \$43,104,535. The ability of the consolidated entity to continue as a going concern is dependent on a number of factors including the reliance on successfully achieving the forecast revenue targets and/or obtaining additional funding. These conditions indicate a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern.

The financial statements have been prepared on the basis that the consolidated entity is a going concern, which contemplates the continuity of normal business activity, realisation of assets and the settlement of liabilities in the normal course of business. To this end, the consolidated entity is expecting to fund ongoing obligations as follows:

1. Expected Cash inflow from migration technologies business

The Company intends to invest in the development of specialised system migration technologies to further enable customers to move the legacy data to commercial off the shelf software. This investment in future technologies will further grow the business offering and generate diversified revenue streams. This will enable Motopia to have a solid platform of technologies and IT resources to underpin its growth and revenue initiatives for 2016.

2. Capital Raisings

During the financial year ended 30 June 2015, the consolidated entity successfully completed capital raisings for approximately \$550,000. The company also raised \$242,862 in additional capital in August 2015. The company expects to be able to undertake additional capital raisings to ensure any future financial obligations are met.

3. Cost Reduction

The company continues to rigorously examine and review the consolidated entity cost structure going forward. Monthly running costs associated with the consolidated entity have been maintained at a reduced level.

Based on the above events occurring, directors believe the consolidated entity will continue as a going concern and that it is appropriate to adopt that basis of accounting in the preparation of the financial report.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

Should the consolidated entity be unable to continue as a going concern it may be required to realise its assets and discharge its liabilities other than in the normal course of business and at amounts different to those stated in the financial statements. The financial statements do not include any adjustments relating to the recoverability and classification of asset carrying amounts or the amount of liabilities that might result should the consolidated entity be unable to continue as a going concern and meet its debts as and when they fall due.

c. New, raised or Amending Accounting Standard Adopted

The consolidated entity has adopted all of the new, revised or amending Accounting Standards and Interpretations issued by the Australian Accounting Standards Board ('AASB') that are mandatory for the current reporting period.

Any new, revised or amending Accounting Standards or Interpretations that are not yet mandatory have not been early adopted.

Any significant impact on the accounting policies of the consolidated entity from the adoption of these Accounting Standards and Interpretations are disclosed below. The adoption of these Accounting Standards and Interpretations did not have any significant impact on the financial performance or position of the consolidated entity.

The following Accounting Standards and Interpretations are most relevant to the consolidated entity:

AASB 2012-3 Amendments to Australian Accounting Standards – Offsetting Financial Assets and Financial Liabilities

The consolidated entity has applied AASB 2012-3 from 1 July 2014. The amendments add application guidance to address inconsistencies in the application of the offsetting criteria in AASB 132 'Financial Instruments: Presentation', by clarifying the meaning of 'currently has a legally enforceable right of set-off'; and clarifies that some gross settlement systems may be considered to be equivalent to net settlement.

AASB 2013-3 Amendments to AASB 136 – Recoverable Amount Disclosures for Non-Financial Assets

The consolidated entity has applied AASB 2013-3 from 1 July 2014. The disclosure requirements of AASB 136 'Impairment of Assets' have been enhanced to require additional information about the fair value measurement when the recoverable amount of impaired assets is based on fair value less costs of disposals. Additionally, if measured using a present value technique, the discount rate is required to be disclosed.

AASB 2014-1 Amendments to Australian Accounting Standards (Parts A to C)

The consolidated entity has applied Parts A to C of AASB 2014-1 from 1 July 2014. These amendments affect the following standards: AASB 2 'Share-based Payment': clarifies the definition of 'vesting condition' by separately defining a 'performance condition' and a 'service condition' and amends the definition of 'market condition'; AASB 3 'Business Combinations': clarifies that contingent consideration in a business combination is subsequently measured at fair value with changes in fair value recognised in profit or loss irrespective of whether the contingent consideration is within the scope of AASB 9; AASB 8 'Operating Segments': amended to require disclosures of judgements made in applying the aggregation criteria and clarifies that a reconciliation of the total reportable segment assets to the entity's assets is required only if segment assets are reported regularly to the chief operating decision maker; AASB 13 'Fair Value Measurement': clarifies that the portfolio exemption applies to the valuation of contracts within the scope of AASB 9 and AASB 139; AASB 116 'Property, Plant and Equipment' and AASB 138 'Intangible Assets': clarifies that on revaluation, restatement of accumulated depreciation will not necessarily be in the same proportion to the change in the gross carrying value of the asset; AASB 124 'Related Party Disclosures': extends the definition of 'related party' to include a management entity that provides KMP services to the entity or its parent and requires disclosure of the fees paid to the management entity; AASB 140 'Investment Property': clarifies that the acquisition of an investment property may constitute a business combination.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

d. Basis of Consolidation

The consolidated financial statements comprise the financial statements of Motopia Limited and its subsidiaries ('the consolidated entity') as at 30 June each year. The financial statements of the subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies.

In preparing the consolidated financial statements, all intercompany balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full. Unrealised losses are eliminated unless costs cannot be recovered.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group and cease to be consolidated from the date on which control is transferred out of the Group.

The acquisition of subsidiaries is accounted for using the purchase method of accounting. The purchase method of accounting involves allocating the cost of the business combination to the fair value of the assets acquired and the liabilities and contingent liabilities assumed at the date of acquisition.

Minority interests not held by the Group are allocated their share of net profit after tax in the Statement of Profit or Loss and Other Comprehensive Income and are presented within equity in the consolidated statement of financial position, separately from parent shareholders' equity.

e. Operating Segments

Operating segments are presented using the "management approach", where the information presented is on the same basis as the internal reports provided to the Board of Directors and the Executive Management Team (the chief operating decision makers).

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with any of the Group's other components) whose operating results are regularly reviewed by the entity's chief operating decision makers to make decisions about resources to be allocated to the segments, assess its performance and for which discrete financial information is available.

A geographical segment is a distinguishable component of the entity that is engaged in providing products or services within a particular economic environment and is subject to risks and returns that are different than those of segments operating in other economic environments.

f. Foreign currency translation

Transactions in foreign currencies are initially recorded in the functional currency by applying the exchange rates ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies are retranslated at the rate of exchange ruling at the reporting date.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction.

Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

g. Cash and cash equivalents

Cash and cash equivalents in the Statement of Financial Position comprise cash at bank and in hand and short-term deposits with an original maturity of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

For the purposes of the Statement of Cash Flows, cash and cash equivalents consist of cash and cash equivalents as defined above, net of outstanding bank overdrafts. Bank overdrafts are included within interest-bearing loans and borrowings in current liabilities on the Statement of Financial Position.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

h. Trade and other receivables

Trade receivables, which generally have 14 - 30 day terms, are recognised and carried at original invoice amount less an allowance for any uncollectible amounts.

Collectability of trade receivables is reviewed on an ongoing basis. An allowance for doubtful debts is made when there is objective evidence that the Group will not be able to collect the debts. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation and default or delinquency in payments (more than 90 days overdue) are considered indicators that the trade receivable may be considered doubtful.

Bad debts are written off when identified as uncollectible.

i. Investments and other financial assets

Investments and other financial assets are measured at either fair value through profit or loss, or available-for-sale investments, as appropriate. When financial assets are recognised initially, they are measured at fair value, plus, in the case of investments not at fair value through profit or loss, directly attributable transactions costs. The Group determines the classification of its financial assets after initial recognition and, when allowed and appropriate, re-evaluates this designation at each financial year-end.

All regular way purchases and sales of financial assets are recognised on the trade date i.e. the date that the Group commits to purchase the asset. Regular way purchases or sales are purchases or sales of financial assets under contracts that require delivery of the assets within the period established generally by regulation or convention in the marketplace.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, as well as through the amortisation process.

j. Property, plant and equipment

Plant and equipment is stated at historical cost less accumulated depreciation and impairment. Historical cost includes expenditure that is directly attributable to the acquisition of the items.

Depreciation is calculated on a diminishing balance basis to write off the net cost of each item of plant and equipment over their estimated useful lives. The depreciation rates used are as follows:

Class of Fixed Asset	Depreciation Rate
Fixtures, fittings and equipment	30%

The carrying values of plant and equipment are reviewed for impairment at each reporting date, with recoverable amount being estimated when events or changes in circumstances indicate that the carrying value may be impaired.

The recoverable amount of plant and equipment is the higher of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

For an asset that does not generate largely independent cash inflows, recoverable amount is determined for the cash-generating unit to which the asset belongs, unless the asset's value in use can be estimated to be close to its fair value.

Impairment exists when the carrying value of an asset or cash-generating unit exceeds its estimated recoverable amount. The asset or cash-generating unit is then written down to its recoverable amount. For plant and equipment, impairment losses are recognised through profit or loss.

An item of property, plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in Statement of Profit or Loss and Other Comprehensive Income in the year the asset is derecognised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

k. Leases

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

Finance leases, which transfer to the Group substantially all the risks and benefits incidental to ownership of the leased item, are capitalised at the inception of the lease at the fair value of the leased property or, if lower, at the present value of the minimum lease payments.

Lease payments are apportioned between the finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are charged directly against income.

Capitalised leased assets are depreciated over the shorter of the estimated useful life of the asset or the lease term.

Leases where the lessor retains substantially all the risks and benefits of ownership of the asset are classified as operating leases. Operating lease payments are recognised as an expense through profit or loss on a straight-line basis over the lease term.

l. Goodwill and intangibles

i. Goodwill

Where an entity or operation is acquired in a business combination, the identifiable net assets acquired are measured at fair value. The excess of the fair value of the cost of the acquisition over the fair value of the identifiable net assets acquired is brought to account as goodwill. Goodwill is not amortised instead, goodwill is tested annually for impairment, or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less accumulated impairment losses. Impairment losses on goodwill are taken to profit or loss and are not subsequently reversed.

For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash-generating units, or groups of cash-generating units, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the Group are assigned to those units or groups of units.

Each unit or group of units to which the goodwill is so allocated

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- is not larger than a segment based on either the Group's primary or the Group's secondary reporting format determined in accordance with AASB 8 Operating Segments.

Impairment is determined by assessing the recoverable amount of the cash-generating unit (group of cash-generating units), to which the goodwill relates. When the recoverable amount of the cash-generating unit (group of cash-generating units) is less than the carrying amount, an impairment loss is recognised. When goodwill forms part of a cash-generating unit (group of cash-generating units) and an operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this manner is measured based on the relative values of the operation disposed of and the portion of the cash-generating unit retained.

ii. Intangible assets

Intangible assets acquired as part of a business combination, other than Goodwill, are initially measured at their fair value at the date of the acquisition. Intangible assets acquired separately are initially recognised at cost. Following initial recognition, intangible assets are subsequently measured at cost less any accumulated amortisation and any accumulated impairment. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is charged against profits in the year in which the expenditure is incurred.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

The useful lives of intangible assets are assessed to be either finite or indefinite. Intangible assets with finite lives are amortised over the useful life and assessed for impairment annually or whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life is reviewed at least at each financial year-end. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are accounted for by changing the amortisation period or method, as appropriate, which is a change in accounting estimate. The amortisation expense on intangible assets with finite lives is recognised in Statement of Profit or Loss and Other Comprehensive Income in the expense category consistent with the function of the intangible asset.

Gains or losses arising from de-recognition of an intangible asset are measured as the difference between the net proceeds and the carrying amount of the asset and are recognised in the Statement of Profit or Loss and Other Comprehensive Income when the asset is derecognised.

m. Trade and other payables

Trade payables and other payables are carried at amortised cost due to their short-term nature and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

n. Interest-bearing loans and borrowings

All loans and borrowings are initially recognised at cost, being the fair value of the consideration received net of issue costs associated with the borrowing.

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Amortised cost is calculated by taking into account any issue costs, and any discount or premium on settlement.

Gains and losses are recognised in the Statement of Profit or Loss and Other Comprehensive Income when the liabilities are derecognised and as well as through the amortisation process.

Where the terms of a financial liability are renegotiated and the entity issues equity instruments to a creditor to extinguish all or part of the liability (debt for equity swap), a gain or loss is recognised in profit or loss, which is measured as the difference between the carrying amount of the financial liability and the fair value of the equity instruments issued.

The fair value of a convertible note is determined using a market interest rate for an equivalent non-convertible note. This amount is recorded as a liability on an amortised cost basis until extinguished on conversion or maturity of the note. The remainder of the proceeds is allocated to the conversion option. This is recognised and included in shareholders' equity, net of income tax effects.

Borrowings are classified as current liabilities unless the group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting period.

o. Provisions and employee leave benefits

Provisions are recognised when the Group has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Group expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the Statement of Profit or Loss and Other Comprehensive Income net of any reimbursement. Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the reporting date. If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects the time value of money and the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

i. Wages, salaries, annual leave and sick leave

Liabilities for wages and salaries, including non-monetary benefits, annual leave and accumulating sick leave expected to be settled within 12 months of the reporting date are recognised in current liabilities in respect of employees' services up to the reporting date. They are measured at the amounts expected to be paid when the liabilities are settled.

Liabilities for non-accumulating sick leave are recognised when the leave is taken and are measured at the rates paid or payable.

ii. Long service leave

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

iii. Superannuation

Payments are made to employee defined contribution superannuation plans and are charged as expenses when incurred. The Company and its controlled entities have no legal obligation to cover any shortfall in the plan's obligation to provide benefits to employees on retirement.

p. Share-based payment transactions

i. Equity settled transactions:

The Group provides benefits in the form of share-based payments to all employees. To date however, only key management personnel of the Group have benefited from this plan. These KMP's render services in exchange for shares or rights over shares (equity-settled transactions). There is currently one plan in place to provide these benefits:

- the Employee Share Option Plan (ESOP), which provides benefits to key management personnel.

The cost of these equity-settled transactions with employees is measured by reference to the fair value of the equity instruments at the date at which they are granted. The fair value for options granted are determined by using the Black-Scholes model. In valuing equity-settled transactions, no account is taken of any performance conditions, other than conditions linked to the price of the shares of Motopia Limited (market conditions) if applicable. The cost of equity-settled transactions is recognised, together with a corresponding increase in equity, over the period in which the performance and/or service conditions are fulfilled, ending on the date on which the relevant employees become fully entitled to the award (the vesting date).

The cumulative expense recognised for equity-settled transactions at each reporting date until vesting date reflects:

- the extent to which the vesting date has expired and
- the Group's best estimate of the number of equity instruments that will ultimately vest. No adjustment is made for the likelihood of market performance conditions being met as the effect of these conditions is included in the determination of fair value at grant date.

The Statement of Profit or Loss and Other Comprehensive Income charge or credit for a period represents the movement in cumulative expense recognised as at the beginning and end of that period.

No expense is recognised for awards that do not ultimately vest, except for awards where vesting is only conditional upon a market condition.

If the terms of an equity-settled award are modified, as a minimum an expense is recognised as if the terms had not been modified. In addition, an expense is recognised for any modification that increases the total fair value of the share-based payment arrangement, or is otherwise beneficial to the employee, as measured at the date of modification.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

If an equity-settled award is cancelled, it is treated as if it had vested on the date of cancellation, and any expense not yet recognised for the award is recognised immediately. However, if a new award is substituted for the cancelled award and designated as a replacement award on the date that it is granted, the cancelled and new award are treated as if they were a modification of the original award, as described in the previous paragraph.

The dilutive effect, if any, of outstanding options is reflected as additional share dilution in the computation of earnings per share (see note 9).

q. Contributed Equity

Ordinary share capital is recognised at the fair value of the consideration received by the company. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received. Ordinary share capital bears no special terms or conditions affecting income or capital entitlements of the shareholders.

r. Revenue Recognition

Revenue is recognised to the extent that it is probable that the economic benefit will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable.

The following specific recognition criteria must also be met before revenue is recognised:

i. Interest

Revenue is recognised as the interest accrues (using the effective interest method, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument) to the net carrying amount of the financial asset.

ii. Other income

Other income is recognised when it is received.

s. Income tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Deferred income tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- when the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- when the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- when the deductible temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

The carrying amount of deferred income tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred income tax assets and liabilities are measured at the tax rates that are expected to apply to the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss. Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

Tax consolidation legislation

Motopia Limited and its wholly-owned Australian controlled entities have implemented the tax consolidation legislation as of 1 July 2006.

The head entity, Motopia Limited and the controlled entities in the tax consolidated group continue to account for their own current and deferred tax amounts. The Group has applied the "separate tax payer within the group approach" in determining the appropriate amount of current taxes and deferred taxes to allocate to members of the tax consolidated group.

In addition to its own current and deferred tax amounts, Motopia also recognises the current tax liabilities (or assets) and the deferred tax assets arising from unused tax losses and unused tax credits assumed from controlled entities in the tax consolidated group.

t. Goods and Service Tax (GST)

Revenues, expenses and assets are recognised net of the amount of GST except:

- when the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables, which are stated with the amount of GST included. The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the Statement of Financial Position.

Cash flows are included in the Statement of Cash Flows on a gross basis and the GST component of cash flows arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority, are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

u. Earnings per share

Basic earnings per share is calculated by dividing the net profit/loss attributable to members of Motopia Limited, excluding any costs of servicing equity (other than ordinary shares) by the weighted average number of ordinary shares outstanding during the financial year, adjusted for any bonus elements in ordinary shares issued during the financial year.

Diluted earnings per share is calculated as net profit/loss attributable to members of Motopia Limited, adjusted for:

- costs of servicing equity (other than dividends) and preference share dividends;
- the after tax effect of dividends and interest associated with dilutive potential ordinary shares that have been recognised as expenses; and
- other non-discretionary changes in revenues or expenses during the period that would result from the dilution of potential ordinary shares; divided by the weighted average number of ordinary shares and dilutive potential ordinary shares, adjusted for any bonus element.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

v. Critical accounting judgements, estimates and assumptions

The preparation of the financial statements requires management to continually make judgments, estimates and assumptions based on experience and other factors, including expectations of future events that may have an impact on the Group. All judgments, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the judgments, estimates and assumptions. Significant judgments, estimates and assumptions made by management in the preparation of these financial statements are outlined below:

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

(i) Impairment of goodwill and Intangibles

The Group tests annually or more frequently if events or changes in circumstances indicate impairment, whether goodwill and other intangibles have suffered any impairment, in accordance with the accounting policy stated in note (l) above. This requires an estimation of the recoverable amount of the cash-generating units to which the goodwill is allocated.

(ii) Estimation of useful lives of assets

Estimated useful lives of depreciable property, plant and equipment assets are reviewed on a regular basis and at each reporting date and necessary adjustments are recognised in the current, or current and future reporting periods, as appropriate.

w. Impairment of assets

(i) Available-for-sale investments

If there is objective evidence that an available-for-sale investment is impaired, an amount comprising the difference between its cost (net of any principal repayment and amortisation) and its current fair value, less any impairment loss previously recognised in profit or loss, is transferred from equity to profit or loss. Reversals of impairment losses for equity instruments classified as available-for-sale are not recognised in profit. Reversals of impairment losses for debt instruments are reversed through profit or loss if the increase in an instrument's fair value can be objectively related to an event occurring after the impairment loss was recognised in profit or loss.

(ii) Other assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Group makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's value in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash-generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

An assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015**

Notes to the Consolidated Financial Statements (cont....)

Note 2 Statement of Significant Accounting Policies (cont...)

x. Business combinations

The acquisition method of accounting is used to account for business combinations regardless of whether equity instruments or other assets are acquired.

The consideration transferred is the sum of the acquisition date fair values of the assets transferred and/or liabilities incurred by the acquirer. All acquisition costs are expensed as incurred to profit and loss.

On acquisition of a business, the Group assesses the financial assets acquired and liabilities assumed for appropriate classification in accordance with the contractual terms, economic conditions, the Group's accounting policies and other pertinent conditions in existence at the acquisition date.

Business combinations are initially accounted for on a provisional basis. The acquirer retrospectively adjusts the provisional amounts recognised and also recognises additional assets and liabilities during the measurement period, based on new information obtained about the facts and circumstances that existed at the acquisition date. The measurement period ends on either the earlier of (i) 12 months from the date of the acquisition or (ii) when the acquirer receives all the information possible to determine fair value.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 3 Financial risk management objectives and policies

The Group's principle financial instruments comprise receivables, payables, convertible notes and cash and short term deposits.

The Group manages its exposure to key financial risks, including interest rate and currency risk in accordance with the group's financial risk management policy. The objective of the policy is to support the delivery of the Group's financial targets whilst protecting future financial security.

The main risks arising from the Group's financial instruments are interest rate risk, foreign currency risk, credit risk and liquidity risk. The Group uses different methods to measure and manage different types of risk to which it is exposed. These include monitoring levels of exposure to interest rate and foreign exchange risk and assessments of market forecasts for interest rate, foreign exchange and commodity prices. Aging analyses and monitoring of specific credit allowances are undertaken to manage credit risk, liquidity risk is monitored through the development of future rolling cash flow forecasts.

The Board reviews and agrees policies for managing each of these risks as summarised below.

Primary responsibility for identification and control of financial risks rests with the Board. The Board reviews and agrees policies for managing each of the risks identified below, including the setting of limits for credit allowances, and future cash flow forecast projections.

Risk Exposures and Responses

Interest rate Risk

The Group's exposure to market interest rate related primarily to the Group's cash deposits.

At reporting date, the Group had the following mix of financial assets and liabilities exposed to Australian variable interest rates:

	Consolidated 2015 \$	2014 \$
Cash & cash equivalents	51,391	339,532
Net	51,391	339,532

The directors have reviewed the Groups exposure to interest rate risk and do not consider it to be significantly impacted by sensitivity to interest rate movements.

Foreign Currency Risk

At 30 June 2015 and 30 June 2014, the consolidated entity had no exposure to foreign currency.

Price Risk

The Consolidated entity had no significant price risk at either 30 June 2015 or 30 June 2014.

Credit Risk

Credit risk arises from the financial assets of the consolidated entity, which comprise cash and cash equivalents, trade and other receivables, available-for-sale financial assets. The Consolidated entity's exposure to credit risk arises from potential default of the counter party, with maximum exposure equal to the carrying amount of these instruments. Exposure at reporting date is addressed in each applicable note.

The Consolidated entity does not hold any credit derivatives to offset its credit exposure.

The Consolidated entity trades only with recognised, creditworthy third parties, and as such collateral is not requested nor is it the Consolidated entities policy to securities its trade and other receivables.

It is the consolidated entity's policy that all customers who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. The risks are regularly monitored.

In addition, receivables balances are monitored on an ongoing basis with the result that the consolidated entity's exposure to bad debt is not significant.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 3 Financial risk management objectives and policies

Fair value

The method for estimating fair value is outlined in the relevant Notes to the Consolidated Financial Statements.

Liquidity Risk

Vigilant liquidity risk management requires the consolidated entity to maintain sufficient liquid assets (mainly cash and cash equivalents) to be able to pay debts as and when they become due and payable.

The consolidated entity manages liquidity risk by maintaining adequate cash reserves by continuously monitoring actual and forecast cash flows and matching the maturity profiles of financial assets and liabilities.

Note 4 Business Combinations and Deconsolidation

1a) CU2 Global Pty Ltd – Business Combinations

On 18th July 2014 the company acquired 44% of the shares in CU2 Global Pty Ltd ("CU2G") via the issue of 250,000,000 Motopia shares. A further 109,821,429 shares were issued on 11th November 2014 to acquire a further 41% of the shares in CU2G. As a result Motopia holds 85% of the equity in CU2G and gained control on 11 November 2014. The acquisition was fully funded via the issue of Motopia shares to the CU2G shareholders.

CU2G has the worldwide exclusive rights to market and deliver the technology known as 2SQL and has previously announced Fujitsu have entered a Global partnering agreement with CU2G. CU2G has announced additional partnership arrangements to increase the channels to market, including with Converter Technology Inc. and also the impending release of additional versions to cater for Oracle to Sequel Server; MySQL to Sequel Server; and Microsoft Access to SQL Azure. CU2G provides the technology for businesses looking to simplify their existing data management systems, reduce the costs of operating those systems and enable implementation in a Cloud environment (previously inaccessible).

1b) CU2 Global Pty Ltd – Deconsolidation

On 27th February 2015, the company sold 41 shares in CU2G in exchange for the 109,821,429 shares (valued at \$109,821) issued for the initial acquisition in November 2014. Its shareholding in CU2G was further diluted when CU2G conducted a capital raising and issued additional shares to new shareholders. As a result of the 2 activities, Motopia's holding was reduced from 85% to 27.3%, and control of CU2G was effectively lost on 27th February 2015.

As the acquisition and disposal occurred in the same financial period, there is no impact to the financial statement. The business combination entries for the acquisition of CU2G have been recorded at acquisition date and removed at loss of control. Motopia retains an equity interest in CU2G and account for the investment in CU2G under the equity method (see note 14).

2) ConvertU2 Technologies Pty Ltd

On 1st May 2015 the company acquired a further 51% of the shares in ConvertU2 Technologies Pty Ltd ("CU2T") for \$75,000 and agreed performance-based contingent payments to add to the original holding in CU2T of 49% acquired in May 2014. As a result, the company holds 100% of the equity in CU2T and gained control on 1st May 2015.

CU2T is an Australian based company and world leader in the automated conversion and migration of Microsoft Access Applications & Databases to Microsoft SQL Server. Its 2SQL program is considered the panacea for automating the migration of Microsoft Access to the SQL Server platform. CU2T will now operate as the company's in-house technology development arm. This will streamline the development of further applications based on the Paser engine which powers 2SQL. This acquisition also provides a clear management structure for high level technical support to be provided where needed to both the 2SQL online service via the company's new online platform, and for the 2SQL on premise service via CU2 Global.

	<u>45,660</u>	<u>44,000</u>

Note 8 Income Tax Expense

The consolidated entity and parent have not recognised any deferred tax assets or liabilities in respect to the current year (2014: nil).

There are unrecognised deferred tax assets arising from tax losses. The benefit of losses is not brought to account as realisation is not currently regarded as probable. These losses will only be available for recoupment if:

- (i) The Group derives future assessable income of a nature and of an amount sufficient to enable the benefits from the deduction for the losses to be realised;
- (ii) The Group continues to comply with the conditions for deductibility imposed by the law; and
- (iii) No changes in tax legislation adversely affect the Group in realising the benefit from the deductions for the losses.

Tax Consolidation

Motopia Limited and its wholly-owned Australian subsidiaries have formed an income tax consolidation group from 1 July 2006 under the tax consolidation regime. Motopia Limited is the head entity of the consolidated group.

	Consolidated Group 2015 \$	2014 \$

Notes to the Consolidated Financial Statements (cont....)

Note 8 Income Tax Expense (cont....)

Reconciliation between prima facie tax on loss from ordinary activities to statutory income tax expense:

Loss before income tax expense from continuing operations	(744,568)	(1,671,354)
Prima facie tax (benefit) on loss from ordinary activities before income tax at 30% (2014: 30%)	(223,370)	(501,406)
Add:		
Tax effect of:		
Non-deductible items		
Impairment of assets	33,333	273,533
	<u>33,333</u>	<u>273,533</u>
	(190,037)	(227,873)
Less:		
Tax effect of:		
Losses Carried Forward Not Recognised	190,037	227,873
Income tax expense	<u>-</u>	<u>-</u>

The Directors estimate that the potential deferred tax asset in respect of tax losses not brought to account is:

	4,430,477	4,240,440
--	-----------	-----------

A full assessment of the availability of these losses to the company has not been made.

The tax losses identified above have been estimated on the basis of available information. It has not been determined if the company has met the continuity of ownership test to enable all or part of these losses to be utilised.

Note 9 Earnings per Share

Basic earnings or loss per share are calculated by dividing net profit or loss for the year attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year. Diluted earnings or loss per share amounts are calculated by dividing the net profit or loss attributable to ordinary equity holders of the parent by the weighted average number of ordinary shares outstanding during the year plus the weighted average number of ordinary shares that would be issued on the conversion of all the dilutive potential ordinary shares into ordinary shares.

Share options are considered to be anti-dilutive and not used in the calculation of diluted EPS.

Consolidated	
2015	2014
\$	\$

The following reflects the income and share data used in the basic and diluted earnings per share computations:

Loss after income tax expense from continuing operations	(744,568)	(1,671,354)
	No.	No.
Weighted average number of ordinary shares outstanding during the year used in the calculation of basic EPS	4,185,877,115	1,635,399,667
	No.	No.
Weighted average number of ordinary shares outstanding during the year used in the calculation of diluted EPS	4,185,877,115	2,302,066,333
Basic loss per share	(0.0002)	(0.001)
Diluted loss per share	(0.0002)	(0.001)

Current year loan impairment	-	(584,000)
Closing balance	(584,000)	(584,000)

Other balances within trade and other receivables do not contain impaired assets and are not past due.

(a) Related party receivables (refer note 20 for further details)

Priority Processing Systems Pty Ltd

A total of \$559,000 was advanced to Priority Processing Systems Pty Ltd (“PPS”) in the previous two financial years. Motopia has issued a statutory demand to PPS seeking full repayment of the \$559,000 and the directors will continue to take appropriate action to seek repayment of funds owed by PPS to Motopia. However, the directors have reviewed the financial position of Priority Processing Systems Pty Ltd and its forecast cash flows and believe the loans owing to Motopia Limited are unlikely to be recovered. Accordingly a provision for impairment of \$559,000 has been provided for in the 2014 financial year.

CU2 Global Pty Ltd

CU2 Global Pty Ltd (“CU2G”) has made a loan repayment of \$500,000 during the year ended 30 June 2015. The payment terms of the balance of the loan payable of \$271,868 to Motopia have been extended for a further 12 months.

mVentures Pty Ltd

A total of \$25,000 was advanced to mVentures Pty Ltd (“mV”) during the year ended 30 June 2014 via the issue of shares in the company. The directors have reviewed the financial position of mVentures Pty Ltd and its forecast cash flows and believe the loans owing to Motopia Limited will not be recoverable. A provision for impairment of \$25,000 has been provided for in the 2014 financial year.

Note 14 Investments (cont....)

(a) CU2 Global Pty Ltd

CU2G has the worldwide exclusive rights to market and deliver the technology known as 2SQL and has previously announced Fujitsu have entered a Global partnering agreement with CU2G. CU2G has announced additional partnership arrangements to increase the channels to market, including with Converter Technology Inc. and also the impending release of additional versions to cater for Oracle to Sequel Server; MySQL to Sequel Server; and Microsoft Access to SQL Azure. CU2G provides the technology for businesses looking to simplify their existing data management systems, reduce the costs of operating those systems and enable implementation in a Cloud environment (previously inaccessible).

As at 11 November Motopia gained control of CU2G with a holding of 85% (85 shares valued at \$359,821) of the company. On 27th February 2015, the company sold 41 shares in CU2G in exchange for the 109,821,429 shares (valued at \$109,821) issued for the initial acquisition in November 2014. Its shareholding in CU2G was further diluted when CU2G conducted a capital raising and issued additional shares to new shareholders, reducing Motopia's holding to 27.3% thus losing control of CU2G. The retained equity interest in CU2G allows Motopia to have a significant influence over CU2G hence the equity method is used to account for the investment in CU2G.

CU2G's net loss for the year was \$277,319.61 and Motopia's share of loss at 27.3% was \$75,708.25.

Investment in CU2G accounted for using the equity method

(a) Priority Processing Systems Pty Ltd (PPS)

Lemon and Lime (a wholly owned subsidiary of Motopia Ltd) has entered into a conditional 3 year Management Agreement with PPS. PPS has been established to supply a range of financial transaction services into a number of industry sectors. These include Customer Engagement Program (CEP) operators (loyalty program operators), clubs and associations, major utilities, super funds, unions, merchant groups and charitable organisations.

Contractual rights under this agreement are recognised as an intangible asset and measured using the value of Motopia Ltd shares given as a consideration. This intangible asset is amortised over a three year period, being the terms of agreement.

Shares in Motopia Ltd valued at \$200,000 were issued as part of this agreement (refer note 18). The directors do not believe sufficient revenue will be derived over the next three years and have impaired this asset.

(b) CU2 Global Pty Ltd (CU2G) Management Agreement

Lemon and Lime (a wholly owned subsidiary of Motopia Ltd) management agreement with CU2G is initially for three years. CU2G is the exclusive global distributor for ConvertU2 Technologies Pty Ltd.'s ("CU2T") 2SQL Software ("2SQL"). CU2T is an Australian based company and world leader in the automated conversion and migration of Microsoft Access Applications & Databases to Microsoft Sequel (SQL) Server. Its 2SQL program is considered the panacea or 'Silver Bullet' for automating the migration of Microsoft Access to the SQL Server platform. The directors believe that entering into the management agreement with CU2G will provide sustainable revenue over the next 2 years.

Contractual rights under this agreement are recognised as an intangible asset and measured using the value of Motopia Ltd shares given as a consideration. This intangible asset is amortised over a three year period, being the terms of agreement. Shares in Motopia Ltd valued at \$200,000 were issued as part of this agreement (refer note 18).

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS FOR THE YEAR ENDED 30 JUNE 2015

Notes to the Consolidated Financial Statements (cont....)

Note 15 Intangible Assets (cont...)

(c) mVentures Holding Pty Ltd (mV) Management Agreement and Facility Agreement

Lemon and Lime International has entered into a conditional 3-year Management Agreement and Facility Agreement with mV. mV supplies services into the prepaid (debit card) transaction processing space. mV is capitalising on an opportunity to address existing unsatisfied demand in the Club and Associations sector (including loyalty programs) through providing real-time financial transaction services which integrate with loyalty and existing management systems. Shares in Motopia Ltd valued at \$150,000 were issued as part of this agreement (refer note 18).

The directors do not believe sufficient revenue will be derived over the next three years and have impaired this asset.

(d) ConvertU2 Online Platform

Motopia's current proprietary platform technology is the ConvertU2online platform which hosts 2SQL Microsoft Access to Sequel Server (SQL) migration technology. This is the first commercialisation product with an extremely large market size, both domestically and internationally.

The platform enables the 2SQL migration technology to be deployed through the online portal www.convertU2online.com

The platform is recognised and measured as an intangible asset based on the development costs incurred. The directors have assessed the useful life of the asset as 4 years and will amortise the asset accordingly when the asset is available and ready for use.

(e) ConvertU2 Technologies Pty Ltd (CU2T) – IP

CU2T's 2SQL program is considered the panacea for automating the migration of Microsoft Access to the SQL Server platform. CU2T is now operating as the company's in-house technology development arm. This will streamline the development of further applications based on the Paser engine which powers 2SQL. The acquisition also provides a clear management structure for high level technical support to be provided where needed to both the 2SQL online service via the company's new online platform, and for the 2SQL on premise service via CU2 Global.

The IP is recognized and measured as an intangible asset at fair value. The fair value of the IP is determined based on the excess consideration paid for the acquisition of CU2T (see note 4). The directors have assessed the useful life of the asset as 4 years and will amortise the asset accordingly when the asset is available and ready for use.

(f) Modac Group Pty Ltd (Modac) – IP

On 24th April 2015, the company gained control in Modac Group Pty Ltd ("Modac") by acquiring 100% of the shares in Modac through ConvertU2Online Pty Ltd ("CU2O"), a wholly owned subsidiary, for \$250,000. The investment in Modac is held by CU2O.

Modac is the Pacific licensee of iSpirer technology. Like 2SQL, iSpirer's technology enables customers to migrate from legacy database applications some of which include Oracle, DB2, FoxPro and Progress to SQL Server. The acquisition of iSpirer technology capabilities builds upon on the vision of Motopia to be Australia's best provider of legacy migration solutions and further cements Motopia's ambition to realise the full commercial potential of the 2SQL software.

The total consideration of \$250,000 paid for the acquisition of Modac is recognized as the fair value of the IP in Modac. The directors have assessed the useful life of the asset as 4 years and will amortise the asset accordingly when the asset is available and ready for use.

Ordinary Shares

Ordinary shareholders have the right to receive dividends as declared and in the event of winding up the Company, to participate in the proceeds from the sale of all surplus assets in proportion to the number of and moneys paid up on shares held. The fully paid ordinary shares have no par value. Ordinary shareholders are entitled to one vote, either in person or by proxy at a meeting of the Company.

Treasury Shares

Ordinary shares bought by the company and held for re-sale but not cancelled are recognised as a reduction to total contributed equity. They held as treasury shares until they are sold or cancelled. Treasury shares are not entitled to vote.

Options

Option holders do not have the right to receive a dividend and are not entitled to vote at a meeting of the Company. Options may be exercised at any time from the date they vest to the date of their expiry. Share options convert into ordinary shares on a one for one basis on the date they are exercised.

Share options carry no rights to dividends and no voting rights. In accordance with the terms of the share option schemes, options may be exercised at any time from the date on which they vest to the date of their expiry, subject to any additional specific requirements of the particular allocation. Consideration received on the exercise of options is recognised as contributed equity.

Further information on the options and remuneration of Key management personnel is set out in the Directors' Report.

Capital Risk Management

The group's objectives when managing capital are to safeguard their ability to continue as a going concern, so that they can continue to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt. Consistently with others in the industry, the group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'borrowings', 'trade and other payables', and 'loan to related parties' as shown in the statement of financial position) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the statement of financial position (including non-controlling interests) plus net debt.

The gearing ratios at 30 June 2015 and 30 June 2014 were as follows:

	Consolidated	
	2015 \$	2014 \$
Total borrowings	177,743	144,946
Less: cash and cash equivalents	(51,391)	(339,532)
Net debt	126,352	(194,586)
Total equity	968,183	833,530
Gearing Ratio	13%	(23%)

Contingencies and commitments

Refer to Note 24 for parent entity contingencies and commitments

Note 24 Events occurring after the reporting date

The following events occurred after reporting date and consequently have not been brought to account at 30 June 2015:

Shares Issued

1. On 5th August 2015 the Company announced a private placement of 227,438,462 ordinary shares in the Company at \$0.0008 per share raising \$181,950. Funds raised will be used for working capital purposes and to fund further development of the Company's ConvertU2 Online Platform and ConvertU2 Technologies Pty Ltd.
2. On 31st August 2015, the Company issued 82,500,000 ordinary shares in the Company at \$0.0008 per share raising \$66,000. Funds raised will be used for working capital purposes and to fund further development of the Company's ConvertU2 Online Platform and ConvertU2 Technologies Pty Ltd.

Note 25 Contingent Liability

The Board of Motopia Limited has received a legal claim (Claim) filed in the County Court of Victoria from GWT Systems Pty Ltd against the Company seeking unspecified compensation in relation to alleged funds payable by the Company. The matter has yet to be settled and a Notice of Hearing issued by the County Court on 19 June 2015 confirms that the proceeding has been listed for trial on 20 January 2016.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2015**

DIRECTORS' DECLARATION

The directors of Motopia Limited declare that:

- (a) in the directors' opinion the financial statements and notes and the Remuneration Report in the Directors' Report set out on pages 20 to 53 are in accordance with the Corporations Act 2001, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the financial year ended on that date; and
 - (ii) complying with Australian Accounting Standards and Corporations Regulations 2001 and other mandatory financial reporting requirements; and
- (b) the financial report also complies with International Financial Reporting Standards as issued by the International Accounting Standards Board as disclosed in note 2(a); and
- (c) there are reasonable grounds to believe that the company will be able to pay its debts as and when they become due and payable.

The directors have been given the declarations required by Section 295A of the Corporations Act 2001.

Signed in accordance with a resolution of the directors made pursuant to section 295(5)(a) of the Corporations Act 2001.

INDEPENDENT AUDITOR'S REPORT

To the members of Motopia Limited

Report on the Financial Report

We have audited the accompanying financial report of Motopia Limited, which comprises the consolidated statement of financial position as at 30 June 2015, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which

has been given to the directors of Motopia Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

- (a) the financial report of Motopia Limited is in accordance with the *Corporations Act 2001*, including:
 - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2015 and of its performance for the year ended on that date; and
 - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2.

Emphasis of matter

Without modifying our opinion, we draw attention to Note 2(b) in the financial report, which indicates that the consolidated entity incurred a net loss of \$744,568 for the year ended 30 June 2015, and had a net cash outflows from operating activities of \$590,167. Furthermore, the consolidated entity is reliant on successfully achieving the forecast revenue targets and/or obtaining additional funding. These conditions, along with other matters as set out in Note 2(b), indicate the existence of a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets and discharge its liabilities in the normal course of business.

Report on the Remuneration Report

We have audited the Remuneration Report included in pages 9 to 12 of the directors' report for the year ended 30 June 2015. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Motopia Limited for the year ended 30 June 2015 complies with section 300A of the *Corporations Act 2001*.
