Justyn Stedwell
Company Secretary

About Motopia Limited

Motopia Ltd (ASX: MOT) is an ASX listed software company that owns and operates technology assets that enable legacy data and systems migration to the cloud. Motopia's 2SQL product is regarded by Microsoft and other technology experts as the best of breed Access to SQL migration solution.

In response to the growth of cloud computing services and broadening demand for legacy migration away from Access, Motopia has invested in a SaaS platform (www.convertu2online.com) to complement its on premise migration offerings. We have also formed new relationships to support our commercialisation plans that encompass 24hr a day platform operations, support and channel sales. Moving forward, the board is positioning Motopia as a "migrate anything" technology company to offer our customers a set of tools to migrate from any legacy custom software platform to the cloud.
