**SAFEROADS ON TARGET TO ACHIEVE FORECAST RESULTS**

Following the Saferoads Holdings Limited January Board meeting, the Directors have advised that the Company's performance for December 2005 and for the first half of financial year 2005/06 has exceeded forecast by more than 15%

The Directors remain confident that the full financial year revenue and profit forecasts will be achieved and that forecast dividends of 2.5 cents for the December half and 3.5 cents for the June half will be paid. The Company remains un-leveraged and is in a strong position for both organic growth and growth by acquisition.

The Directors have also advised that the new 580 m<sup>2</sup> Ironman manufacturing facility extension was completed on schedule in December 2005 and that production is underway to fulfil the current \$1.5 million Ironman barrier order from Coates Shorco. This follows announcements in December 2005, including the re-signing of the exclusive distribution agreements with the Quixote Corporation (USA) and the orders for the Ironman product.

The Directors have decided not to proceed with the purchase of a parcel of land which was foreshadowed in the prospectus. The Company will review the need for additional warehousing in the future, and the funds allocated for the land purchase will be utilised for business growth opportunities.

The Company is due to make its half yearly announcements to the ASX in the week beginning 20 February 06.
