SRJ Appoints Robotics Pioneer as Non-Executive Director

KEY HIGHLIGHTS

- **Pioneer in the robotics and inspection sectors**
- **Experience in technology commercialisation and advanced manufacturing**
- **Strong oil and gas industry connections**

SRJ Technologies Group Plc (ASX: SRJ) ("SRJ" or "the Company") is pleased to announce the appointment of **Jason De Silveira** as a Non-Executive Director with immediate effect.

Industry Experience

Mr. de Silveira is a visionary founder and CEO with over 20 years' experience pioneering robotics, inspection and advanced manufacturing technologies for the energy, resources, and defence sectors. Recognised as a global leader in modular robotics, automation, and data-driven asset integrity, Jason has built Nexxis from a Perth start-up into a multinational organisation delivering world-first robotic solutions to clients including Shell, Chevron, BP, Woodside, Fortescue, Sabic, and SpaceX.

A strategic entrepreneur passionate about commercialising R&D, developing sovereign capability, and scaling global partnerships that accelerate innovation and safety in hazardous environments.

Mr. de Silveira combines deep domain expertise in robotics and autonomous systems with proven success in product commercialisation, technology transfer, global expansion, distribution strategy, capital raising, investor relations, advanced manufacturing, sovereign capability, and transformational leadership.

Jason is the founder and CEO of Nexxis Technology Group, a global robotics and inspection-technology company spanning Australia, USA, UK and Asia. Nexxis delivered breakthrough robotic platforms including Magneto, SnowCat, Panther, Hellcat, Vetol, and Argus 3D-SLAM, deployed across subsea, energy, mining, renewables, defence and Space.

He is also the founder of SixDe Advanced Manufacturing from 2018 to present, which is a sovereign machining and precision-engineering business supporting Energy, defence, and robotics sectors.

Awards include the winner of the Sprint World robotic conference, a finalist as a WA Innovator of the Year, and has been recognised by Defence West for advancing dual-use robotic capability.

Chair's Statement

Commenting on the appointment, **George Gourlay, Chair of SRJ**, said, "SRJ is pleased to welcome Jason to the Board and the significant skillsets he brings in robotics and defence. As we enter a new phase of growth, sourcing contracts in the robotics sector will be a key growth pillar, and Jason's strong industry connections and business acumen, will assist with the execution of this strategy.

On behalf of the Board, I welcome Jason and look forward to working closely with him to deliver value for our stakeholders."

An appendix 3X follows.

– Ends –

This announcement has been authorised for release by the Board.

ABOUT SRJ TECHNOLOGIES

SRJ delivers a range of asset integrity products, consulting services and solutions to the energy and maritime industries.

Remote inspection services are provided utilising advanced robotics and custom UAV technologies. SRJ's specialised consulting services and range of containment management solutions enable customers to assure the integrity of new and ageing assets subject to ever more demanding regulatory pressures.

By providing advanced robotic and UAV systems, ACE (an SRJ Group company) is revolutionising asset inspection in terms of minimising human risk and providing accurate and repeatable inspection data. ACE is able to inspect the previously un-inspectable, delivering asset integrity assurance and management to the Energy and Marine industries. ACE has achieved accreditation with all the major Marine Class Societies.

SRJ's consulting expertise covers all areas of the asset integrity management value chain. Understanding the integrity risks our customers face generates high margin revenues and provides visibility of future product/solution needs particularly as assets degrade with age but require safe and efficient life extension.

SRJ's range of asset integrity products and solutions have gained industry approval across the energy sector and are now in use across the world. SRJ's products are designed to maintain and assure the integrity of pressure containment systems and therefore play an important role in the overall integrity of operating facilities.

Using pre-qualified service providers and manufacturers local to customer, SRJ is geolocation flexible and able to deliver a range of high quality, agile and cost-conscious solutions globally.
