

ASX RELEASE**15 March 2019****Service Stream re-secures Wireless Design and Construction Agreement with Telstra**

Leading essential network services company Service Stream Limited (ASX: SSM) is pleased to announce that it has entered into a new contract with Telstra for the provision of design and construction services to support Telstra's wireless infrastructure network. The contract has been secured for an initial term to June 2021, which will be followed by a one-year extension at Telstra's election.

The new contract replaces the previous agreement which has just expired.

Whilst the agreement does not provide guaranteed volumes, Service Stream notes that revenue for similar services under the precedent contract has averaged approximately \$80 million per annum over the last three years.

Service Stream's Managing Director, Leigh Mackender, said *"We are very pleased to have the opportunity to continue partnering with Telstra and supporting their national wireless network infrastructure programs at a time where demand for telecommunication products and services continues to experience strong growth. Service Stream looks forward to continuing to work closely with Telstra, and supporting its T22 strategy as it commences the expanded deployment of 5G infrastructure across the country."*
