ASX ANNOUNCEMENT

2 MARCH 2007

TOM'S GULLY MINE – SUSPENSION OF OPERATIONS DUE TO MONSOONAL RAINS

An intense monsoonal rain depression has delivered torrential rains over the past 48 hours to the area of the Tom's Gully minesite, in the Northern Territory. Public roads accessing the site are progressively being rendered impassable due to water flows.

Underground mining has ceased. All operations not essential to maintaining the security of the mine and its assets have been shut down. Mine crews are maintaining the mine's surface and underground pumping systems.

No mine personnel or mine assets are currently at risk.

It is anticipated it will take at least a week to resume normal activities, once the monsoonal rain has ceased.

For and on behalf of the Board

JPK Marshall
Company Secretary
