Dear Sir

COYOTE GOLD PROJECT – DIAMOND DRILL PROGRAM HAS COMMENCED

As advised in a release to ASX on 3 April 2007, the Company had scheduled to commence drilling at Coyote by mid April 2007. The drill program which commenced yesterday, includes a number of diamond core drill holes into the Muttley lode at Coyote to achieve a higher level of confidence in the tonnes and grade of that lode and to test for extensions of the lode which is open along strike.

In addition, a number of deep drilling exploration targets at Coyote will be drill tested following the Muttley drill program.

Yours faithfully
Tanami Gold NL

Denis Waddell
Executive Chairman
