

CORPORATE GOVERNANCE POLICY

The Company is committed to implementing the highest standards of corporate governance. In determining what those high standards should involve the Company has turned to the ASX Corporate Governance Council's *Principles of Good Corporate Governance and Recommendations*. The Company is pleased to advise that the Company's practices are largely consistent with those ASX guidelines. As consistency with the guidelines has been a gradual process, where the Company did not have certain policies or committees recommended by the ASX Corporate Governance Council (the Council) in place during the reporting period, we have identified such policies or committees.

Where the Company's corporate governance practices do not correlate with the practices recommended by the Council, the Company is working towards compliance however it does not consider that all the practices are appropriate for the Company due to the size and scale of Company operations.

To illustrate where the Company has not addressed each of the Council's recommendations, the following table details the reason for the departure. The table does not provide the full text of each recommendation but rather the topic covered. Details of all of the recommendations can be found on the ASX Corporate Governance Council's website at http://www.asx.com.au/about/CorporateGovernance_AA2.shtm
