ABOUT THE BUCK CREEK MINING COMPLEX

The Buck Creek Mining Complex is located in the Western Kentucky region of the Illinois Coal Basin which is one of the most prolific coal producing regions in the USA. Paranga controls over 26,000 gross acres (~10,500 ha) of coal leases within an area of interest of approximately 72,000 acres (~28,000 ha).

The Buck Creek Mining Complex has a JORC Coal Resource Estimate of 154 million tons (~140 million tonnes) of high quality thermal coal with over 88% in the Measured & Indicated categories. The Buck Creek Mining Complex is one of the few remaining contiguous high quality thermal coal projects within the Western Kentucky No.9 (“**WK No.9**”) seam that is not controlled by one of the major USA coal companies and offers one of the highest quality, highest heating value products in the Illinois Coal Basin. The WK No.9 is now the second largest producer of coal in the US by coal seam.

Buck Creek Mining Complex – Coal Resource Estimate (WK No.9 Seam)				
Measured (Mt)	Indicated (Mt)	Total Measured and Indicated (Mt)	Inferred (Mt)	Total (Mt)
32.1	104.8	136.9	17.5	154.4

Buck Creek Mining Complex – Coal Quality (+4% Eq. Moisture)	
Calorific Value	6,564 kcal/kg (11,814 Btu/lb)
Ash	8.7%
Yield – From In Seam Core Analyses	92.3%

The Buck Creek Mining Complex is located adjacent to the Green River which provides year round linkage to the Ohio and Mississippi rivers systems which feed domestic coal-fired power plants and coastal export coal terminals in the Gulf of Mexico.

Forward Looking Statements

This announcement may include forward-looking statements. These forward-looking statements are based on Paringa's expectations and beliefs concerning future events. Forward looking statements are necessarily subject to risks, uncertainties and other factors, many of which are outside the control of Paringa, which could cause actual results to differ materially from such statements. Paringa makes no undertaking to subsequently update or revise the forward-looking statements made in this announcement, to reflect the circumstances or events after the date of that announcement.

The Company advises that the information relating to the Scoping Study referred to in this announcement is based on lower-level technical and preliminary economic assessments, and is insufficient to support estimation of Ore Reserves or to provide assurance of an economic development case at this stage, or to provide certainty that the conclusions of the Scoping Study will be realised.

Competent Persons Statement

The information in this announcement that relates to the Exploration Results, Coal Resources, Mining, Coal Preparation, Infrastructure, Production Targets and Cost Estimation was extracted from Paringa's ASX announcements dated 24 March 2014 entitled 'Scoping Study Confirms Strong Fundamentals of the Buck Creek Project' and 4 November 2013 entitled 'Maiden Coal Resource of 154 Million Tons Defined in Illinois Coal Basin' which are available to view on the Company's website at www.paringaresources.com.au.

The information in the original ASX announcements that related to Exploration Results and Coal Resources is based on information compiled or reviewed by Mr. Kirt W. Suehs, a Competent Person who is a Member of The American Institute of Professional Geologists. Mr. Suehs is employed by Cardno MM&A. Mr. Suehs has sufficient experience that is relevant to the style of mineralization and type of deposit under consideration and to the activity being undertaken to qualify as a Competent Person as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' and to qualify as a Qualified Person as defined in the 2011 Edition of the National Instrument 43-101 and Canadian Institute of Mining's Definition Standards on Mineral Reserves and Mineral Resources.

The information in the original ASX announcements that related to Mining, Coal Preparation, Infrastructure, Production Targets and Cost Estimation is based on information compiled or reviewed by Messrs. Justin S. Douthat, Gerard J. Enigk and George Oberlick, all of whom are Competent Persons and are Registered Members of the Society for Mining, Metallurgy & Exploration (SME). Messrs. Douthat, Enigk and Oberlick are employed by Cardno MM&A. Messrs. Douthat, Enigk and Oberlick have sufficient experience that is relevant to the type of mining, coal preparation and cost estimation under consideration and to the activity being undertaken to qualify as Competent Persons as defined in the 2012 Edition of the 'Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves' and to qualify as Qualified Persons as defined in the 2011 Edition of the National Instrument 43-101 and Canadian Institute of Mining's Definition Standards on Mineral Reserves and Mineral Resources.

Paringa confirms that: (a) it is not aware of any new information or data that materially affects the information included in the original ASX announcements; (b) all material assumptions and technical parameters underpinning the Coal Resource, Production Target, and related forecast financial information derived from the Production Target included in the original ASX announcements continue to apply and have not materially changed; and (c) the form and context in which the relevant Competent Persons' findings are presented in this presentation have not been materially modified from the original ASX announcements.
